The Charter of Fundamental Rights of the European Union and the Employment Relation Filip Dorssemont, Klaus Lörcher, Stefan Clauwaert, Mélanie Schmitt, 2019-04-04 The Charter of Fundamental Rights of the European Union is the most developed and comprehensive legally binding human rights instrument in the social field of the European Union It is becoming increasingly important and is the first instrument that includes both civil and political rights on one hand and social rights on the other Despite this the Court of Justice of the European Union has only rarely dealt with fundamental social rights In this context employment rights need to be examined in this new rights framework Following on from previous volumes setting out links between European labour law and fundamental social rights as enshrined in relevant UN ILO and Council of Europe instruments in this book the ETUI Transnational Trade Union Rights TTUR Expert Network examines the justiciability of social rights and critically analyses the effectiveness of those rights embodied in the EU Charter Thus this book completes the trilogy of ETUI TTUR books on fundamental social rights at European level following the publication also by Hart Publishing of The European Convention of Human Rights and the Employment Relation 2013 and The European Social Charter and the Employment Relation 2017

ISO 45001: Guidelines for Independent

Implementation Fabricio Sales Silva, At the epicenter of modern industry and entrepreneurship there is a silent but powerful standard that redefines the meaning of safety and efficiency ISO 45001 This isn't just a guideline it's the pulse of thriving and conscientious organizations spread across the globe Many companies believe that implementing standards such as ISO 45001 requires a substantial investment in external consulting However the path that stretches out ahead of you is the testimony that the power of change and excellence can originate from within With clarity and precision we break down each element of the standard and provide the tools to make implementation not only possible but also sustainable using the resources already present in your organization It's not just about meeting requirements it's about exceeding them It's not just about implementing a standard It's about leading by example And it's definitely not about hiring consultants It's about unlocking and amplifying the expertise that already resides in your business

The Human Rights Fundamentals of Conservation in the Context of the Extraction of Energy Resources María Augusta León Moreta, 2015-06-17 Energy is

the driving force of human development and economic growth The ceaseless demand for energy resources has triggered the development of extraction projects around the world This in turn has exerted a significant pressure on natural resources as well as on the environment Since the performance of human rights depends on the environment and on access to natural resources this Study aims to show the extent to which the negative environmental impact arising from extraction operations prevents the effective realization of human rights The analysis of substantive and procedural human rights in the light of the case law of international human rights courts provides all stakeholders involved in an energy extraction project with the tools and mechanisms to prevent environmental damage and to ensure the protection of human rights
