**Social Work Practice with LGBTQIA Populations** Claire L. Dente, 2018-10-11 Social Work Practice with LGBTQIA Populations provides an overview of key issues for social workers working with LGBTQIA clients Each chapter considers clients experiences in different social and interpersonal contexts This text encourages students to think critically about the barriers and discriminations clients might face in their lives and how social workers can be equipped to address these issues Students are challenged to develop approaches that extend support to these clients and that remove structural barriers that clients face within the systems they encounter Utilizing intersectionality theory students will gain an understanding of the risks and protective factors unique to this population in social work contexts

**Primary Health Care: People, Practice, Place** Valorie A. Crooks, Gavin J. Andrews, 2016-04-08 Health care is constantly undergoing change and refinement resulting from the adoption of new practices and technologies the changing nature of societies and populations and also shifts in the very places from which care is delivered Primary Health Care People Practice Place draws together significant contributions from established experts across a variety of disciplines to focus on such changes in primary health care not only because it is the most basic and integral form of health service delivery but also because it is an area to which geographers have made significant contributions and to which other scholars have engaged in thinking geographically about its core concepts and issues Including perspectives from both consumers and producers it moves beyond geographical accounts of the context of health service provision through its explicit focus on the practice of primary health care With arguments well supported by empirical research this book will appeal not only to scholars across a range of social and health sciences but also to professionals involved in health services

Committee on Banking, Housing, and Urban Affairs, 2004 *Project Risks* Geneviève Zembri-Mary, 2019-10-21 Those tasked with the planning and construction of infrastructure and development operations face an increasingly uncertain context in which they must address risks across a number of different fields These range from the environmental and archaeological to the social political and financial As a consequence the formal and informal practices of stakeholders often incorporate projections of risk and opportunity Project Risks analyzes this paradigm shift It reviews the origin and nature of these uncertainties and the practices implemented by the actors to mitigate or take advantage of them Paradoxically these practices generate new risks and power relations that are not compatible with the

collaborative planning model These paradoxes force the rethinking of practices such as project territorialization risk taking in planning and the responsibility of actors as well as the societal and political choices that must be made between the realization of projects and the protection of the environment      Ensuring early diagnosis and access to treatment for HIV/AIDS : can federal resources be more effectively targeted? : hearing ,      **Congressional Record** United States.
