**The End of the Beginning** Johanna W. H. van Wijk-Bos, 2019-11-19 The End of the Beginning presents a chapter by chapter interpretation of Joshua and Judges based on the author s translation Johanna van Wijk Bos accompanies the reader through the story of Israel from the entry into Canaan up to the time of Samuel van Wijk Bos weaves together the memories of ancient Israel s past into a story that speaks to the traumatic context of postexilic Judah The books of Joshua and Judges were written for education edification and entertainment Some of the stories may exhilarate us some may appall all will speak to the imagination if we let them They show a people forging a path forward into an uncertain future in the hope that God will forgive past failures and begin again

with them Christians enter the stories of Israel's past as outsiders while at the same time claiming a bond with the same God. We expect more from the text than lessons of the past intended for a different people. These are not our stories but we too hope for insight and for a guiding word in our own uncertain future. Joseph Gregory Horner, 1894 **English Mechanic and World of Science**, 1883 **American Printer and Bookmaker**, 1902 **Memories and Portraits** Robert Louis Stevenson, 2022-10-20. Reproduction of the original **Geriatric Medicine** C.K. Cassel, J.R. Walsh, 2012-12-06. With the appearance of a textbook as comprehensive as this one, it is clear that the field of geriatrics is coming of age. The broad scope of these volumes shapes a substantial answer to the question: What is geriatrics and why should we be interested in it? As I see it, there are at least five reasons. First, the scientific or intellectual reason: gerontology is the study of aging from the biologic, psychological, and social perspectives. There is increasing interest in the fascinating insights into the biologic mechanisms of aging: errors in protein synthesis, DNA repair mechanisms, alterations of the neuroendocrine system, changes in the immune system, genetic controls, and somatic mutations. Second, the demographic reason: this is the century of old age. There has been a 26-year gain in the average life expectancy. This gain compares with that acquired from 3,000 years B.C. (the Bronze Age) to the year 1900, which was about 29 years. Therefore, in one century, there has been a gain in the average life

expectancy almost equal to 5 000 previous years of human history In 1830 one of three newborn infants survived beyond 60 years of age *Dickerman's United States Treasury Counterfeit Detector and Bankers' & Merchants' Journal* ,1901
