Whose Kids Are They Anyway? Raymond R. Roberts, 2010-11-01 Raymond R Roberts makes a liberal's case for teaching religion and morality in public schools by first examining the intersection of religion and public education He shows how proposals for moral education in public schools are shaped by definitions of religion He argues that the public education's critics overstate the failures of public education because they examine public schools in isolation from negative trends in the family the economy the media etc From there he describes how a theory of spheres of influence gives us a better perspective from which to understand public education including its relationship with religion Congressional Record United States.
