Education And Democracy Principles And Practices:

Education and Democracy Albert Victor Kelly,1995-04-12 The main premises of this book are that democracy is a moral rather than merely a political system that it provides a set of moral principles which should be adhered to in all social planning and that much current social policy worldwide ignores those moral imperatives and thus places democracy itself at risk *Secondary Education for American Democracy* William Lawrence Wrinkle,Robert S. Gilchrist,1942 **Education,**

Democracy and Development Clive Harber,Vusi Mncube,2012-05-14 Education is often seen as the key agency in international development and poverty reduction Frequently the emphasis is on the economic and social role of education in development This book on the other hand is unusual in explicitly examining the political role of education in development In particular it sets out the theories evidence and arguments concerning the potential and actual relationships between education and democracy and critically explores the contradictory role of formal education in both supporting and hindering democratic political development A key theme of the book is the importance of considering the type and nature of the education actually provided and experienced what goes on inside the black box of education Currently in developing countries and elsewhere this is often at odds with democratic principles but the book also provides many examples of successful democratic practice in schools in developing countries as well as discussing a detailed case study of South Africa where democratic change in education is a key aspect of the policy agenda *Human Rights in Teaching Practices*

Zankar,2016-03-10 Human Rights are the basic rights which one gets being human These are inherent rights which are received since inception Knowing and valuing the Human Rights is the best practice to prevent the violation in any form When an individual learns about ones rights it builds respect for the right of other which helps in constructing more tolerant and peaceful citizens ultimately leading to peaceful civil societies All Human Rights for All ascertains the universality indivisibility and interrelationship of all human rights The fact of unchangeable nature of Human Rights is essential for human existence Human rights in Teaching Practices is a book for students teacher educators teachers as well as researchers in the field of Education and Human Rights Education who intends to know about Human Rights and how to impart them to their students The main objective of this book is to share knowledge and skills to generate awareness and develop attitude towards Human Rights Education amongst student teachers It provides an indepth description of concepts of Human Rights Human Rights Education and strategies for teaching Human Rights in B Ed course The book is divided mainly in three parts first part deals with concept of human rights Human Rights Education the policy perspective of Human Rights the concept of human rights awareness and attitude towards human rights This section describes the theoretical underpinnings of human rights from different approaches Universal Declaration of Human Rights and how and where human rights are reflected in Indian Constitution The concept of human rights Education and its policy perspectives in Indian Education system Human Rights Education at different levels of school and at Teacher Education are described in detail from

Indian Education policy perspective Researchers at National and International level are studied with respect to human rights of different persons in the society such as children women and other vulnerable groups Second part deals with the analysis of various components of human rights education programme for teacher education Following areas are included in the present module of Human Rights Education Concept Foundation and History of Human Rights Gender Discrimination and Equality Rights of the Child Secularism and Education Environmental Protection and Human Rights The Right to Education Egalitarianism and Education Protection of Human rights in India The Human Rights Education programme for student teachers of Bachelor in Education course was developed and its effectiveness was studied This part explains different teaching strategies for imparting Human Rights Education The constructivist and experiential learning approaches were used to inculcate the human rights culture among student teachers awareness about human rights and their attitude towards human rights Third part deals with the research work and findings Experimental research on student teachers was done and the effectiveness of the programme was tested The Human Rights Education programme for generating awareness about Human Rights and attitude towards human rights was ascertained by considering various moderator variables The research findings have manifold uses for school teachers student teachers curriculum planners in teacher education all stakeholders of Education and human rights education so as to contribute directly or indirectly creating a peaceful and progressive society

Principles and Practice of Informal Education Linda Deer Richardson, Mary Wolfe, 2001 This new key text explores the principles and practice of informal education and focuses in particular on the notion of working with which is central to practice in this sector *Compass - Manual for Human Rights Education with Young People (2012 edition - fully revised and updated)* Council of Europe, Collectif, 2015-06-01 Human rights cannot be defended by legal measures alone They need to be protected and safeguarded by everyone including young people Human rights are best respected and appreciated when we know them stand up for them and apply them in our lives COMPASS provides youth leaders teachers and facilitators of human rights education activities whether professionals or volunteers with concrete ideas and practical activities to engage involve and motivate young people in living learning and acting for human rights It promotes a comprehensive perspective on human rights education and sees young people as actors for a culture of universal human rights COMPASS was originally published in 2002 and is now available in more than 30 languages A version specifically designed for human rights education with children COMPASITO enjoys a similar success This fully revised and updated edition includes new activities and information about human rights issues such as disability and disablism migration religion remembrance war and terrorism COMPASS is a practical tool and resource for citizenship and human rights education It is an essential companion for all those who are curious and interested in making the right to human rights education a reality for everyone Democratic Education for Social Studies Anna S. Ochoa-Becker, 2006-12-01 In the first edition of this book published in 1988 Shirley Engle and I offered a broader and more democratic curriculum as an alternative to the persistent back to the basics rhetoric

of the 70s and 80s This curriculum urged attention to democratic practices and curricula in the school if we wanted to improve the quality of citizen participation and strengthen this democracy School practices during that period reflected a much lower priority for social studies Fewer social studies offerings fewer credits required for graduation and in many cases the job descriptions of social studies curriculum coordinators were transformed by changing their roles to general curriculum consultants The mentality that prevailed in the nation s schools was back to the basics and the basics never included or even considered the importance of heightening the education of citizens We certainly agree that citizens must be able to read write and calculate but these abilities are not sufficient for effective citizenship in a democracy This version of the original work appears at a time when young citizens teachers and schools find themselves deluged by a proliferation of curriculum standards and concomitant mandatory testing In the 90s virtually all subject areas including United States history geography economic and civics developed curriculum standards many funded by the federal government Subsequently the National Council for the Social Studies issued the Social Studies Curriculum Standards that received no federal support Accountability captured in the No Child Left Behind Act passed by Congress has become a powerful political imperative that has a substantial and disturbing influence on the curriculum teaching and learning in the first decade of the 21st century
