Eden, Golden Age Or Goad to Action? Carlos Mesters, 1974      **The Word of Truth** Dale Moody, 1981-01-16 Bringing together the insights of several disciplines biblical theology modern science biblical criticism textual source form redaction historical theology and the history of doctrine Moody develops a systematic theology that is biblically grounded and ecumenically oriented Thoroughly indexed      **Original Selfishness** Daryl P. Domning, Monika K. Hellwig, 2016-12-05 This book defends a startling idea that the age old theological and philosophical problems of original sin and evil long thought intractable have already been solved The solution has come from the very scientific discovery that many consider the most mortal threat to traditional religion evolution Daryl P Domning explains in straightforward terms the workings of modern evolutionary theory Darwinian natural selection and how this has brought forth life and the human mind He counters objections to Darwinism that are raised by some believers and emphasizes that the evolutionary process necessarily enforces selfish behavior on all living things This account of both physical and moral evil is arguably more consistent with traditional Christian teachings than are the explanations given by most contemporary evolutionary theologians themselves The prominent theologian Monika K Hellwig dialogues with Daryl Domning throughout the book to present a balanced reappraisal of the doctrine of original sin from both a scientist s and theologian s perspective      *The Flaming Center* Carl E. Braaten, 2016-10-19      **Original Blessing** Danielle Shroyer, 2016-10-24 Of the worlds major religions only Christianity holds to a doctrine of original sin Ideas are powerful and they shape who we are and who we become The fact that many Christians believe there is something in human nature that is and will always be contrary to God is not just a problem but a tragedy So why do the doctrines assumptions of human nature so infiltrate our pulpits sermons and theological bookshelves How is it so misconstrued in times of grief pastoral care and personal shame How did we fall so far from Gods original blessing in the garden to this pervasive belief in humanitys innate inability to do good In this book Danielle Shroyer takes readers through an overview of the historical development of the doctrine pointing out important missteps and overcalculations and providing alternative ways to approach often used Scriptures Throughout she brings the primary claims of original sin to their untenable and unbiblical conclusions In *Original Blessing* she shows not only how we got this doctrine wrong but how we can put sin back in its rightful place in a broader context of redemption and the blessing of humanitys creation in the image of God      **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1976      *Fragile World* William T. Cavanaugh, 2018-05-22 In *Fragile World* Ecology and the Church scholars and activists from Christian communities as far flung as Honduras the Philippines Colombia and Kenya present a global angle on the global ecological crisis in both its material and spiritual senses and offer Catholic resources for responding to it This volume explores the deep interconnections for better and for worse between the global North and the global South and analyzes the relationship among the physical environment human society culture theology and economics the integral ecology described by Pope

Francis in Laudato Si Integral ecology demands that we think deeply about humans and the physical environment but also about the God who both created the world and sustains it in being At its root the ecological crisis is a theological crisis not only in the way that humans regard creation and their place in it but in the way that humans think about God For Pope Francis in Laudato Si the root of the crisis is that we humans have tried to put ourselves in God s place According to Pope Francis therefore A fragile world entrusted by God to human care challenges us to devise intelligent ways of directing developing and limiting our power     The Publishers' Trade List Annual ,1979     **God is Green** Bob

Shore-Goss,2016-10-28 At this time of climate crisis here is a practical Christian ecospirituality It emerges from the pastoral and theological experience of Reverend Robert Shore Goss who worked with his congregation by making the earth a member of the church by greening worship and by helping the church building and operations attain a carbon neutral footprint Shore Goss explores an ecospirituality grounded in incarnational compassion Practicing incarnational compassion means following the lived praxis of Jesus and the commission of the risen Christ as Gardener Jesus becomes the green face of God Restrictive Christian spiritualities that exclude the earth as an original blessing of God must expand This expansion leads to the realization that the incarnation of Christ has deep roots in the earth and the fleshly or biological tissue of life This book aims to foster ecological conversation in churches and outlines the following practices for congregations meditating on nature inviting sermons on green topics covenanting with the earth and retrieving the natural elements of the sacraments These practices help us recover ourselves as fleshly members of the earth and the network of life If we fall in love with God s creation says Shore Goss we will fight against climate change     **Whitaker's Cumulative Book List** ,1978     **Gender,**
