Cases on Critical and Qualitative Perspectives in Online Higher Education Orleans, Myron, 2014-01-31 Online education continues to permeate mainstream teaching techniques in higher education settings

Teaching upper level classes in an online setting is having a major impact on education as a whole and is fundamentally altering global learning. Cases on Critical and Qualitative Perspectives in Online Higher Education offers a collection of informal personalized articles that identify, describe and examine actual experiential domains of online program and course production. Administrators, developers, instructors, staff, technical support and students in the field of online higher education will benefit from these case studies to reinforce and enhance their work.

Culturally Relevant Teaching Beverly J. Klug, 2021-05-15 American Indian education is still faltering today and is not producing significant differences in results where school practices follow those for the dominant culture. Inroads have been made in some classrooms, schools where Culturally Responsive Relevant Pedagogy (CRP) is practiced. However, the drop out rates for American Indian indigenous populations are still extremely high in comparison to other ethnically diverse groups of students. Here are two factors that can make or break indigenous students' abilities to be resilient in the face of many educational negatives in their lives and enable them to continue on to graduate from high school and in many instances go on to complete undergraduate and graduate degrees in institutions of higher learning. This book is intended to be used for undergraduate and graduate students in education, anthropology, sociology and American Indian studies. It is also intended for use by educators working in areas with large concentrations of American Indian students, whether in rural, reservation, urban or states with large Native populations such as California and Oklahoma. It is a useful tool for policy makers and those involved in American Indian education at the national and state levels as well as organizations such as the National Council on American Indians, the U.S. Bureau of Indian Affairs and the National Indian Education Association.

The Court-Martial of Captain John Armstrong Ellen Denning Smith, 2022-07-17 John Armstrong was destined to be a humble farmer on the Pennsylvania frontier until the American Revolution changed his life. Rising from private soldier to an officer in the Continental Army, he later served in the First American Regiment, forerunner of the U.S. Army that was tasked to facilitate the settlement of the Northwest Territory. He endured the fledgling army's growing pains, was selected for a covert operation in Spanish territory to explore the Missouri River and fought Native Americans in two disastrous military campaigns. The army subsequently evolved into a successful fighting force despite its second in command's quest to destroy the career of its commander. Maj. Gen. Anthony Wayne Armstrong became an unwitting pawn in a treacherous game crafted by Brig. Gen. James Wilkinson, of whom Theodore Roosevelt once wrote: "He had no conscience and no scruples." In all our history, there is no more despicable character. Rebuilding his life in Ohio and Indiana, Armstrong became a noted government official, militia officer, land speculator and pioneer.

Standing Together Beverly J. Klug, 2012-11-28 The majority of American Indian students attend public schools in the United States. However, education mandated for American Indian students since the 1800s has been primarily education for assimilation with the goal of eliminating American Indian cultures and languages. Indeed, extreme measures were taken to ensure Native students would

act white as a result of their involvement with Western education Today s educational mandates continue a hegemonic one size fits all approach to education This is in spite of evidence that these approaches have rarely worked for Native students and have been extremely detrimental to Native communities This book provides information about the importance of teaching American Indian students by bridging home and schools using students cultural capital as a springboard for academic success Culturally Responsive Pedagogy is explored from its earliest beginnings following the 1928 Meriam Report Successful education of Native students depends on all involved and respect for the voices of American Indians in calling for education that holds high expectations for native students and allows them to be grounded in their cultures and languages

Strayhorn,2014-06-24 Improving college access and success among Black males has garnered tremendous attention Many social scientists have noted that Black men account for only 4 3% of the total enrollment at 4 year postsecondary institutions in the United States the same percentage now as in 1976 Furthermore two thirds of Black men who start college never finish The lack of progress among Black men in higher education has caused researchers practitioners and policymakers to become increasingly focused on ways to increase their access and success Offering recommendations and strategies to help advance success among Black males this monograph provides a comprehensive synthesis and analysis of factors that promote the access retention and persistence of Black men at diverse institutional types e g historically Black colleges and universities predominantly White institutions and community colleges It delineates institutional policies programs practices and other factors that encourage the success of Black men in postsecondary education This is the 3rd issue of the 40th volume of the Jossey Bass series ASHE Higher Education Report Each monograph is the definitive analysis of a tough higher education issue based on thorough research of pertinent literature and institutional experiences Topics are identified by a national survey Noted practitioners and scholars are then commissioned to write the reports with experts providing critical reviews of each manuscript before publication

Organizing Schools for Productive Learning Shlomo Sharan,Ivy Geok Chin Tan,2008-06-27 A major problem confronting schools is that many students are turned off from learning and are bored Boredom is destructive of learning The No Child Left Behind NCLB initiative of the US government 2001 stemmed from the claim accompanied by sharp debates pro and con that many schools in the United States fail to achieve basic educational objectives and that many schools are doing a poor job for a wide variety of reasons and surely not just because of student boredom Brigham Gustashaw Wiley Essex 2006 Goodman Shannon Goodman Sunderman Tracey Jr Kim Orfield 2004 The model of school organization and instruction presented here seeks to provide an effective plan for significant improvement in secondary school education one of whose central aims is to make students genuinely engaged in what they are learning The NCLB legislation emphasizes inter alia the

need for school improvement Without it one cannot reasonably anticipate improvement over current levels in student engagement in learning and in academic achievement The NCLB literature frequently employs the term school improvement to refer to the quality of the teachers such as their academic credentials instructional competence and their knowledge of subject matter Similarly school restructuring is said to include steps such as transforming the school into a charter school replacing the teaching staff or inviting a private company to administer the school The use of those terms in this work is distinctly different

Skogen,2024-02 To Educate American Indians presents the most complete versions of papers presented at the National Educational Association s Department of Indian Education meetings during a time when the debate about how best to civilize Indigenous populations dominated discussions During this time two philosophies drove the conversation The first an Enlightenment era influenced universalism held that through an educational alchemy American Indians would become productive Christianized Americans distinguishable from their white neighbors only by the color of their skin Directly confronting the assimilationists universalism were the progressive educators who strongly influenced by the era s scientific racism held the notion that American Indians could never become fully assimilated Despite these differing views a frightening ethnocentrism and an honor bound dedication to gifting civilization to Native students dominated the writings of educators from the NEA s Department of Indian Education For a decade educators gathered at annual meetings and presented papers on how best to educate Native students Though the NEA Proceedings published these papers strict guidelines often meant they were heavily edited before publication In this volume Larry C Skogen presents many of these unedited papers and gives them historical context for the years 1900 to 1904 **The American Friend** ,1922
