Education As The Cultivation Of Intelligence:

Education As the Cultivation of Intelligence Michael E. Martinez, 2014-04-08 The book argues that the intellectual abilities that are crucial to modern life correspond to the cognitive functions that are reasonably called intelligence These intellectual abilities are learnable and we have the knowledge to teach them directly Education As the Cultivation of Intelligence Michael E. Martinez, 2014-04-08 Martinez defines intelligence from a cognitive perspective as a repertoire of those skills strategies and knowledge structures that are most instrumental in human effectiveness He posits that in today's complex fast paced technologically dense and information rich society intelligence is the supreme human resource The current social context not only demands intelligence but rewards it economically psychically and in other ways His central argument in this book is this The intellectual abilities that are crucial to modern life including economic viability and effectiveness in daily living correspond to the cognitive functions that are reasonably called intelligence these intellectual abilities are learnable we now know enough about the structure and mechanisms of intelligent thought and behavior to teach them directly Martinez explicates his argument and provides research based evidence to support his claim **Proceedings of the 2025 International Conference on Education Reform, Ideology and Politics (ERIP 2025)** Paulo Batista, Intakhab Alam Khan, Jun Chen, Tajularipin Bin Sulaiman, 2025-08-03 This is an open access book 2025 International Conference on Education Reform Ideology and Politics ERIP 2025 will be held in Hangzhou China from April 11 to 13 2025 The conference aims to provide a high level academic exchange platform for scholars educators and experts in the field of ideology and politics from around the world to discuss the innovative development and challenges of educational reform and ideological and political education in the context of globalization The conference will focus on the reform of the education system the ideological and political education model in the new era the impact of scientific and technological innovation on education and the practice and effectiveness of cross cultural educational exchanges Through the conference participants will have the opportunity to share the latest research results and practical experience with a view to driving innovation and progress in the field of education and promoting the role of ideological and political education in building a harmonious society and enhancing social cohesion ERIP 2025 is committed to stimulating in depth academic discussion promoting global education reform and the sustainable development of ideological and political education and injecting new impetus into the transformation and development of education in the new era We look forward to your participation in discussing the future of education and social development *Language, Intelligence, and Thought* Robin Barrow, 2015-06-03 In this text first published in 1993 Barrow decisively rejects the traditional assumption that intelligence has no educational significance and contends instead that intelligence is developed by the enlargement of understanding Arguing that much educational research is driven by a concept of intelligence that has no obvious educational relevance Dr Barrow suggests that this is partly due to a widespread lack of understanding about the nature and point of philosophical analysis and partly due to a failure to face up

to the value judgements that are necessarily involved in analysing a concept such as intelligence If intelligence is to be of educational significance it must be understood in terms that allow it to be educable Written by a philosopher of education this study offers a reasoned and extended argument in favour of an original view of philosophical analysis It focuses on the issue of intelligence from a philosophical perspective It should be of interest to students of education philosophy and the philosophy of education alike
