Education Of The Gifted Programs And Perspectives

Ian Pickup

Education Of The Gifted Programs And Perspectives:

Education of the Gifted Joan F. Smutny, Rita Haynes Blocksom, 1990 This book provides an overall perspective to program development for gifted children and youth The approaches used draw on many theories points of view and program structures Chapter titles are as follows Identification of the Gifted Strategies for Teaching the Gifted Organizing the Gifted Program Building Support for the Gifted Program Preschool Gifted Children Gifted Girls A Population at Risk Serving Special Populations of the Gifted Serving Gifted Minority and Disadvantaged Students Gifted Programs for Secondary School Students and Evaluating Gifted Programs In addition to references which accompany each chapter a gifted education bibliography lists approximately 120 items Appendixes list national organizations serving the gifted professional journals on the gifted and state education departments gifted education programs JDD

Fundamentals of Gifted Education Carolyn M. Callahan, Holly L. Hertberg-Davis, 2012-08-21 The field of gifted education is characterized by a confusing array of perspectives concerning such fundamental issues as definition philosophy curriculum social and emotional development and underserved populations The mission of this book is to provide a coherent framework that instructors and service providers can use in planning effective programs providing appropriate counseling services and evaluating programs for the gifted Most sections are organized around fundamental issues confronting the field and follow a common structure an introductory chapter that provides historical and theoretical background and organizing questions followed by several point of view chapters written by experts that provide varied perspectives on the topic at hand Distinguishing Features Comprehensive Coverage The book s forty five manageable length chapters cover the full range of topics that must be considered in planning programs and services for gifted students both within and outside of school Coherent Structure Section introductions provide background information and organizing questions to guide chapter authors who provide varying views of the issue at hand The emphasis is not on the right way or the wrong way except when clearly documented bad practice is discussed but on how best practice stems from well informed and logical decision making Decision Making Focus The book s introductory chapter addresses the need for a clearly developed and consistently applied set of values to guide decision making Likewise each section introduction includes a decision making framework regarding some aspect of educating counseling or parenting gifted students This book is appropriate for introductory level courses in gifted education or courses in program development and planning It is also suitable for school personnel responsible for making program planning decisions in the area of gifted education and for academic libraries with holdings in this area

Gifted Education Anthony F. Rotatori, Jeffrey P. Bakken, Festus E. Obiakor, 2014-06-25 This volume addresses the most current perspectives and issues related to giftedness and is written by leaders in the field An excellent resource for special educators administrators mental health clinicians school counselors and psychologists this volume addresses the different educational issues that impact this population

Empowering Underrepresented Gifted Students Joy Lawson Davis, Deb Douglas, 2021-09-23 Help underserved high

potential students claim their right to an education that addresses their unique needs In gifted education an important and contentious issue that has yet to be sufficiently addressed is the systemic underrepresentation of gifted students who have been discriminated against in school based gifted and advanced learner programs because of their race ethnicity gender identity sexual orientation socioeconomic status or other realities Empowering Underrepresented Gifted Students gives a voice to those students and brings their stories into focus With chapters written by student and expert scholars who specialize in addressing the structural inequity and educational inequality in gifted and advanced learner programs Empowering Underrepresented Gifted Students recommends practices and strategies for helping underserved high potential students claim their right to an education that addresses their unique needs Each chapter has key takeaways and discussion questions providing a built in book study guide to prepare educators to engage students in conversation and to help develop their self advocacy skills Coeditors Dr Joy Lawson Davis and Deb Douglas have brought together the voices of experts and students to help educators move closer to ensuring equity access and excellence in gifted education By arming historically marginalized gifted students with self advocacy strategies these remarkable students will be better enabled to fulfill their dreams

Parent and Teacher Perspectives of Gifted Education Programs in the Public School Todd D. Ream, 2020 This qualitative study examined the perceptions of parents and teachers regarding the effectiveness of gifted programs in addressing the academic and social emotional needs of gifted students Utilizing online surveys perceptual data was collected from parents and teachers of gifted students in a suburban school district in southeast Pennsylvania Interviews were conducted with parents and teachers to obtain personal views and perspectives concerning the effectiveness of gifted programs and services The study concluded that parents favor advanced placement courses grade level acceleration and small group pull out services Parents expressed confidence in programs intended to support their children s social emotional development but noted that academic programs appeared to be valued over social emotional services Parents recommended increasing the priority of social emotional aspects of the gifted program They suggested a disproportionate number of programs exist to aid students with learning disabilities versus those intended for gifted students Parents recommended improving equity within student support service options Parents also expressed satisfaction with pull out style enrichment and acceleration but proposed longer and more frequent interactions between gifted students and gifted support staff Teachers expressed positive perceptions of the effectiveness of gifted academic programs They reported high levels of instructional self efficacy but a perceived lack of school policy guiding enrichment and acceleration strategies Teachers further indicated positive perceptions of current social emotional programing but a limited number of training opportunities designed to support them with gifted education Participants recommended more gifted training opportunities and an increase in staffing to improve the overall effectiveness of gifted programs

Excellence and Equality David M. Fetterman, 1988-07-08 Fetterman focuses on what actually works in gifted and talented education programs Complementing

the psychological perspective on gifted and talented education he adopts an anthropological point of view using methods such as lengthy interviews with students teachers parents administrators and others involved in the school programs daily observation and group discussions to elicit the insider s perspective A ground breaking work Fetterman s timely study provides a comparative picture of over 433 gifted and talented programs in the United States as well as programs in other countries The author s cross cultural perspective points up the need for U S educators to shake themselves out of a national complacency about the gifted and talented and stresses the importance of comparing our own efforts with those of other nations In the process Fetterman proposes a model for educational excellence in terms of the mainstream U S educational system The book will provide new insights for educators and policymakers working in our educational system as they strive to meet the needs of gifted and talented students

Diversity in Gifted Education Gillian Eriksson,Belle Wallace,2006-10-05 This timely book brings together experts from around the world to share expertise and best practice to form an eclectic collection of the best approaches for teaching gifted and talented children from different cultures Each chapter presents an overview of international perspectives on the issues of multi cultural and gifted education examines the critical issues related to cultural definitions of giftedness in programming for diverse gifted students presents regional case studies in order to inform practitioners best practice examines issues of access for gifted students in relation to culture poverty race and gender In addition details of websites and associations which offer support and advice are also provided making this book an invaluable resource for academics researchers teachers and parents of gifted and talented children
