[Selections from Franklin's Works on Education. With a Portrait.]* Benjamin Franklin, Thomas WOODY, 1931      **Benjamin Franklin** Christopher J. Murrey, 2002 Benjamin Franklin is generally considered one of America's most versatile and talented statesmen, scientists, and philosophers. His achievements include publisher of Poor Richard's Almanac and many articles on political, economic, religious, philosophical, and scientific subjects. He was the inventor of bifocals, the Franklin stove, lightning rod; he was one of the signers of the Declaration of Independence and the founder of what is now the University of Pennsylvania. This book presents a detailed and riveting review of Franklin's life based on excerpts from the renowned 1899 book on Franklin by Sydney George Fisher. This overview is augmented by a substantial selective bibliography which features access through title, subject, and author indexes.      The Individual, Society, and Education Clarence J. Karier, 1986 This is an updated version of Karier's highly regarded *Man, Society, and Education* which focuses on the concepts of human nature and community throughout American educational history. For the new edition, Karier has added chapters on the major movements in American education from World War II to the present and on the major Supreme Court cases involving educational policy during the same period. This classic volume remains a remarkable study in the history of ideas into which the implications for American schooling have been deftly woven.
