poetry is humorous philosophical and honest His poetry lifts you up and slams you down with just as much enthusiasm This is accomplished work e Paul Raine editor of Poetic Review This is poetry Without academic rules and guidelines Words that can be plucked from life and held up to shine as something unique and a gem that perfectly captures a truth The truth of the matter is that we all write poems At school we write poems When we first fall in love we write poems and later on for other loves too When someone we cherish decides to leave the stage we write poetry When in hard and difficult times we do the same And sometimes right in the middle of thought or conversation we surprise ourselves by the sudden conjuring up of a turn of phrase that stands out above the rest as being rhythmic maybe rhyming and certainly very pertinent Poetry is a stolen five minutes away from the crowd the office the computer the phone the expectations and the obligations It s like a quick and passionate kiss with a love exciting reassuring rebellious and true It pierces the heart of the wider world but strangely is pointed directly at you There indeed is a future for it in our busy uncertain times So weigh anchor look around you share a glimpse a thought and a moment that maybe you have already lived and never dared to capture

The Emerald Modem Richard Leviton,2004-05-04 Twenty years ago in England author Richard Leviton discovered the planet Following quite specific guidance he began a long process that amounted to an apprenticeship My mentors dispatched me to various specific locations in the Somerset landscape and at all hours of the night and day I sat on hills and valleys and rocks under sunlight moonlight rain snow and fog and had visions I started to see another landscape behind the apparent landscape It was an apparitional landscape with stars planets galaxies angels spirits of Nature mythic deities divinity As time went on he found himself talking with angels visiting celestial cities and following gnomes He came to understand that at one level we are the planet and that both we and

it have an intimate relationship with our galaxy I found myself living inside the myths of the world as if they were expert scripts for real life inner adventures I never once thought I was crazy Why should I Quite the opposite I believed I was finally getting grounded in something real But it would take me twenty years to make sense of it That sense is embodied in The Emerald Modem The Emerald Modem includes direct correspondences between human chakras and the Earth s energy features and the galactic originalstables listing locations of sacred sites around the planet where you may experience this relationshipexplanations of world myths which provide clues to this unsuspected visionary world around us This is the first book to synthesize all the fragments of geomantic perception sacred sites energy points vertexes etc into a global interactive model that ties human consciousness directly to it Leviton describes 85 subtle features in the planetary landscape places you can go for mystical experiences They are features of the Earth s energy body almost all invisible to conventional sight But psychic cognition can be trained and you can usefully interact with any of these types of sites today without seeing what you re doing Your intent to interact for the benefit of yourself and the planet is all that s required Just as modems dial us into the Internet so the features of the Earth s energy body described in The Emerald Modem help us get online with the galaxy You can learn to visit Grail Castles experience a Mount Olympus or walk through the stars in a landscape zodiac and you can learn enough to become confident that you re not traveling alone The Donisthorpe Apple Book Lynne

Tann-Watson,2012-09-26 From a discussion of the legends and mythology associated with apples to the development of the Donisthorpe Wassail via the favourite recipes of village residents Lynne Tann Watson provides a history of the apple and its use by man The Donisthorpe Apple Book includes a wide variety of the favourite recipes of village residents using apples covering savoury dishes going beyond the traditional association with Pork Autumn Chicken Casserole for example sweets and puddings and preserves Lynne concludes with the ancient tradition of wassailing apple orchards now being revived in many parts of the country and in particular the annual celebration held in the village This has become one of the high points of village life finishing with a good party in the village pub **Explorations** ,1954 *Uncultivated* Andy

Brennan,2019-06-17 The best wine book I read this year was not about wine Eric Asimov New York Times Today food is being reconsidered It s a front and center topic in everything from politics to art from science to economics We know now that leaving food to government and industry specialists was one of the twentieth century s greatest mistakes The question is where do we go from here Author Andy Brennan describes uncultivation as a process It involves exploring the wild recognizing that much of nature is omitted from our conventional ways of seeing and doing things our cultivations and realizing the advantages to embracing what we ve somehow forgotten or ignored For most of us this process can be difficult like swimming against the strong current of our modern culture The hero of this book is the wild apple Uncultivated follows Brennan s twenty four year history with naturalized trees and shows how they have guided him toward successes in agriculture in the art of cider making and in creating a small farm business The book contains useful information relevant to

those particular fields but is designed to connect the wild to a far greater audience skillfully blending cultural criticism with a food activist's agenda Apples rank among the most manipulated crops in the world because not only do farmers want perfect fruit they also assume the health of the tree depends on human intervention Yet wild trees live all around us and left to their own devices they achieve different forms of success that modernity fails to apprehend Andy Brennan learned of the health and taste advantages of such trees and by emulating nature in his orchard and in his cider he has also enjoyed environmental and financial benefits None of this would be possible by following today's prevailing winds of apple cultivation In all fields our cultural perspective is limited by a parallel proclivity It's not just agriculture we all must fight tendencies toward specialization efficiency linear thought and predetermined growth We have cultivated those tendencies at the exclusion of nature's full range If *Uncultivated* is about faith in nature and the power it has to deliver us from our own mistakes then wild apple trees have already shown us the way The book for cider lovers New York Times Andy Brennan is a stubborn thoughtful original and his apple memoir is powered by inspiring verve and irreverence Loving apples or cider is not a prerequisite for loving this book All that is needed is the willingness to follow a vibrant narrative voice driven by the pursuit of dreams Alice Feiring author of *Naked Wine* and *For the Love of Wine* **Growing an Entrepreneurial Business** Edward

Hess, 2011-02-01 *Growing an Entrepreneurial Business* Concepts and Cases is a textbook designed for courses that focus on managing small to medium sized enterprises It focuses on the major management challenges that successful start-ups encounter when leaders decide to grow and scale their businesses The book is divided into two parts text and cases to provide professors with maximum flexibility in organizing their courses The thirty-five cases can be used in conjunction with the text or independently Twelve cases are written as narratives with multiple teaching points but without a focus on a particular business decision the remaining twenty-three cases were written around specific conundrums related to strategy operations finance marketing leadership culture human resources organizational design business model and growth Discussion questions are provided for each case The text portion of the book discusses key issues derived from the author's research and consulting and is meant to complement the case method of teaching raising issues for conversation In addition to the real world knowledge that students will derive from the cases readers will take away research-based templates and models that they can use in developing or consulting with small businesses **Victorian Poetry: An Anthology** Erik
