Educating For Justice Social Values Legal Education:

Educating for Justice Jeremy Cooper, Louise C. Trubek, 2018-12-17 Published in 1997 an edited collection of essays by a group of international public interest scholars and activists that examines the role and function of the law school in developing transmitting and understanding the use of law to bring about social change to the advantage of subordinated people The book traces this influence from the early days of the law school and its induction of legal principles and client responsibilities through training for practices in a variety of settings including teaching social action research client empowerment programs to the outer limits of law school in community legal education and awareness An important and Social Justice and Legal Education Chris Ashford, Paul pioneering series of international case studies McKeown, 2019-01-15 Recent years have seen social justice emerge as a powerful driver for work both in law schools and the legal services sector However guestions remain about how that term is understood and given meaning within the legal academy and beyond This edited collection explores the meanings that have emerged and might subsequently be developed together with a practical exploration of projects that have sought to bring the social justice agenda to life in law schools and in communities around the world Over the course of eighteen chapters this volume engages with a range of social justice and legal education themes including clinical legal education innocence projects access to justice cause lawyering LGBTQ identities and sustainability in law schools In addition it also explores themes of ethics and values in contemporary legal education in Africa Australia North America and the UK The Ethics Project in Legal Education Michael Robertson, Lillian Corbin, Kieran Tranter, Francesca Bartlett, 2010-10-06 The contributions in this volume suggest that the ethics project in legal education is increasingly an international one Even though the strength of commitment by both the profession and the legal academy to ethics learning within law schools varies two fundamental questions confront all who work in this area First what is it that we want our students to learn or perhaps in what manner do we want our students to develop from the teaching of legal ethics Second how can we create a learning environment that will encourage the nature and quality of learning we think is important All the contributors to this volume take a strong stand on the importance of ethical legal practice and the role of law schools in developing students capacities in this area They share a belief in the essential need to encourage law students to engage with the moral dimensions of legal practice. The questions that these scholars grapple with are therefore not of the should we be teaching this variety but how might we best to go about doing this so that our efforts within law schools really make some difference Each of the chapters in this volume adds uniquely to our understanding of these matters

Australian Clinical Legal Education Adrian Evans, Anna Cody, Anna Copeland, Jeff Giddings, Peter Joy, Mary Anne Noone, Simon Rice, 2017-02-17 Clinical legal education CLE is potentially the major disruptor of traditional law schools core functions Good CLE challenges many central clich s of conventional learning in law everything from case book method to the 50 minute lecture And it can challenge a contemporary overemphasis on screen based learning particularly when those

screens only provide information and require no interaction Australian Clinical Legal Education comes out of a thorough research program and offers the essential guidebook for anyone seeking to design and redesign accountable legal education that is education that does not just transform the learner but also inculcates in future lawyers a compassion for and service of those whom the law ought to serve Established law teachers will come to grips with the power of clinical method Law students struggling with overly dry conceptual content will experience the connections between skills the law and real life Regulators will look again at law curricula and ask law deans when *Legal Education in the Global Context* Christopher Gane, Robin Hui Huang, 2017-05-15 This book discusses the opportunities and challenges facing legal education in the era of globalization It identifies the knowledge and skills that law students will require in order to prepare for the practice of tomorrow and explores pedagogical shifts legal education needs to make inside and outside of the classroom With contributions from leading experts on legal education from various jurisdictions across the globe the work combines theoretical depth with practical insights Seeking to understand the changing landscape of legal education in the era of globalization the contributions find that law schools can and must adopt educational strategies that at least present students with different understandings of what studying and practicing law is meant to be about They find that law schools need to offer their students choices a vision of practice that is not driven entirely by the demands of the marketplace or the needs of major international law firms Bridging the gap between theory and practice this book makes a significant contribution to the impact of globalization on legal education and how students and law schools need to adapt for the future It will be of great interest to academics and students of comparative legal studies and legal education as well as policy makers and **The Calling of Law** Fiona Westwood, Karen Barton, 2016-04-01 As one of the learned professions requiring practitioners advanced learning and high principles law enjoys a special standing in society In return for its status and rank the legal profession is expected to exhibit the highest levels of honesty trust and morality the very values which underpin the legal system itself This in turn entrusts to legal education a particular problem of addressing not only the substantive elements of the body of law but a means through which the characteristics of the calling of law are imparted and instilled At a time when the very essence of the legal profession is under threat this book calls for a realignment of the legal curriculum and pedagogies so as to emphasise the development of culture over industry character over eloquence and calling over skill Chapters are grouped around the core content and key themes of Curiosity Calling Character and Conscientiousness Contract and Culture The volume includes contributions from leading experts drawn internationally and from other professional disciplines in order to present alternative approaches aimed at tackling common issues providing insight and provoking debate Educating for Justice Around the World Louise G.
