EBOOK: Race and Education: Policy and Politics in Britain Sally Tomlinson, 2008-03-16 How successful has Britain been in accommodating racial religious and cultural diversity in the education system Have there been contradictory policies that have encouraged migrant labour while urging immigration control Has the introduction of market principles to education created further problems for ethnic minorities This book provides crucial information on key educational issues events and conflicts in Britain from the 1960s to the present day as the education system has attempted to incorporate racial and ethnic minorities and educate young people to live in an ethnically diverse society It uses examples such as political and media reactions to Afro hairstyles in the 1970s through to hijabs and niqabs today to illustrate how misplaced are the simplistic arguments that blame multiculturalism or minorities for segregation or lack of community cohesion Race and Education Policy and Politics in Britain describes how over the decades schools teachers parents local communities and local authorities have worked towards the incorporation of minority children into the education system It asserts that negative and contradictory policies by governments and a continued climate of hostility to those variously labelled as immigrant ethnic minority or non white has made this extremely difficult The book sets educational issues and events within a wider social and political context taking account of national and global influences and changing political beliefs and actions over the years Sally Tomlinson argues that debates needs to focus less on dress and more on the educational housing and employment problems symptomatic of the continued poverty in many minority areas that works against social cohesion Race and Education Policy and Politics in Britain is an invaluable resource for all those concerned with education and social policy especially students and professionals working in education sociology and social policy

*School Effectiveness for Whom?* Roger Slee, Sally Tomlinson, Gaby Weiner, 2003-05-20 School effectiveness research together with what is now described as the school improvement movement Barber 1996 has captured both the Conservative and New Labour imaginations as a basis for educational planning and policy making in the UK Internationally school effectiveness enjoys and expanding and enthusiastic audience This book provides a critique of this research genre particularly in the light of the recent calls for teaching to go back to the basics The editors argue that this school effectiveness research is simplistic in its analysis of educational problems Far from getting to the bottom of the problem of failing students and schools they argue these movements are merely scratching at the surface of the problems and coming up with notions for superficial improvements

*Choice, Pathways and Transitions Post-16* Stephen Ball, Sheila Macrae, Meg Maguire, 2013-11-05 This internationally appealing book is based on a two year case study of a group of young people as they move through their final year of mandatory schooling and into their first year of post 16 experience It looks at their choices the market behaviour of local education and training providers and those who help and advise these choices The authors show that recent and current political policies for post 16 education disadvantage marginalise and exclude young people rather than improve their life chances The book draws together the major issues and attempts to suggest alternative ways forward for a more inclusive post 16 education and training system
