Envisioning a Sustainable Society Lester W. Milbrath, 1989-01-01 The evidence is increasingly persuasive We are changing the way our planet's physical systems work irrevocably These changes are global and interconnected and unavoidable They are upon us already making it virtually impossible for any modern society to continue its present trajectory of growth This book provides a penetrating analysis of how we have come to this point of why science and technology will fail to solve these problems and of how we as a society must change in order to avoid ecological catastrophe The scope is broad the urgency of the message is impossible to ignore *Endless Education* Carl C. Campbell, 1997 Endless Education is the first comprehensive study of education in Trinidad and Tobago during the long thirty year regime of the People's National Movement PNM from 1956 to 1986 Carl Campbell focuses on the efforts by Williams and the PNM to use education as an instrument of postcolonial nation building and the consequent tensions and conflicts between him and the churches between creoles and Indians and between Tobago and Trinidad His study concludes that the goal of national integration through education eluded the planners and that diversity not unity characterized the education system Significantly Campbell finds that as in many other facets of national life only partial and incomplete decolonization was attained in education This study is useful as a source book in schools colleges and at the University of the West Indies Readers who reside outside of the Caribbean and who want to know more about the social history of one of the most important English speaking Caribbean islands should find this book of more than passing interest This is the companion volume to Campbell's *The Young Colonials A Social History of Education in Trinidad and Tobago 1834-1939* The University of the West Indies Press 1996
