Indonesia beyond the Water's Edge R. B. Cribb,Michele Ford,2009-07-29 Indonesia is the world s largest archipelagic state with more than 18 000 islands and over 7 9 million square kilometres of sea The marine frontier presents the nation with both economic opportunities and political and strategic challenges Indonesia has been affected more than most countries in the world by a slow revolution in the management of its waters Whereas Indonesia s seas were once conceived administratively as little more than the empty space between islands successive governments have become aware that this view is outmoded The effective transfer to the seas of regulatory regimes that took shape on land such as territoriality has been an enduring challenge to Indonesian governments This book addresses issues related to maritime boundaries and security marine safety inter island shipping the development of the archipelagic concept in international law marine conservation illegal fishing and the place of the sea in national and regional identity Gardening on the Edge Peter Clough,Philip McMillan Browse,2004 The subject of this book is gardening The publishers have provided no further information on this title National Geographic Field Guide to the Water's Edge Stephen Leatherman,Jack Williams,2012 Beaches shorelines and riverbanks Cover

Sea Ice David N. Thomas,2016-12-27 Over the past 20 years the study of the frozen Arctic and Southern Oceans and sub arctic seas has progressed at a remarkable pace This third edition of Sea Ice gives insight into the very latest understanding of the how sea ice is formed how we measure and model its extent the biology that lives within and associated with sea ice and the effect of climate change on its distribution How sea ice influences the oceanography of underlying waters and the influences that sea ice has on humans living in Arctic regions are also discussed Featuring twelve new chapters this edition follows two previous editions 2001 and 2010 and the need for this

latest update exhibits just how rapidly the science of sea ice is developing The 27 chapters are written by a team of more than 50 of the worlds leading experts in their fields These combine to make the book the most comprehensive introduction to the physics chemistry biology and geology of sea ice that there is This third edition of Sea Ice will be a key resource for all policy makers researchers and students who work with the frozen oceans and seas *At Europe's Edge* Cetta

Mainwaring,2019-09-05 The Mediterranean Sea is now the deadliest region in the world for migrants Although the death toll has been rising for many years the EU response remains fragmented and short sighted Politicians frame these migration flows as an unprecedented crisis and emphasize migration control at the EU s external boundaries In this context *At Europe s Edge* investigates why the EU prioritizes the fortification of its external borders why migrants nevertheless continue to cross the Mediterranean and to die at sea and how EU member states on the southern periphery respond to their new role as migration gatekeepers The book addresses these questions by examining the relationship between the EU and Malta a small state with an outsized role in migration politics as EU policies place it at the crosshairs of migration flows and controls The chapters combine ethnographic methods with macro level analyses to weave together policymaker practitioner and migrant experiences and demonstrate how the Mediterranean is an important space for the contested construction of Europe This book provides rich insight into the unexpected level of influence Malta exerts on EU migration governance as well as the critical role migrants and their clandestine journeys play in animating EU and Maltese migration policies driving international relations and producing Malta s political power By centring on the margins the book pushes the boundaries of our knowledge of the global politics of migration asylum and border security **Oceanographic Monthly Summary** ,1990
