## **Education Technology Power Educational Computing As A Social Practice:**

Education/Technology/Power Michael W. Apple, Hank Bromley, 1998-07-10 With a focus on educational computing this book examines how technological practices align with or subvert existing forms of dominance Examines the important question Is the enormous financial investment school districts are making in computing technology a good idea

Globalization, Technological Change, and Public Education Torin Monahan, 2013-01-11 Globalization Technological Change and Public Education documents the dramatic changes taking place in public education through the incorporation of new information technologies These additions to the public school environment have generally been seen as enabling tools to help students and nations compete in the global marketplace Yet a closer look at the interplay of technological change and organizational restructuring suggests the emergence of new less promising power relations Through detailed ethnographic research and interviews in the Los Angeles public school system Torin Monahan reveals how with few exceptions these changes to the educational process are forcing both students and workers to adapt to systems that are ever more rigid and controlling

**Handbook of Research for Educational Communications and Technology** David Jonassen, Marcy Driscoll, 2003-12-08 First Published in 2008 Routledge is an imprint of Taylor Francis an informa company Seeking Convergence in Policy and Practice Canadian Centre for Policy Alternatives, 2004 *Academic Knowledge Construction and Multimodal Curriculum Development* Loveless, Douglas J., Griffith, Bryant, Bérci, Margaret E., Ortlieb, Evan, Sullivan, Pamela M., 2013-11-30 This book presents practical conversations with philosophical and theoretical concerns regarding the use of digital technologies in the educational process challenging the assumption that information accessibility is synonymous with learning

**Critical Pedagogy for a Polymodal World** Douglas J. Loveless, Bryant Griffith, 2014-11-04 This book explores the complexity of communication and understanding as a possible asset in formal education rather than a problem that needs to be fixed The authors examine the question and experience as pedagogical tools challenging readers to play the critic and ask hard questions beginning with Why do the ideas discussed within the book matter The digital information age with expanding ways of thinking being communicating and learning complicates public education So what happens as diverse narratives collide in schools To answer this question the authors of this book delve into conflicting assumptions within the framework of complexity sciences and education in an attempt to explore space beyond positivist anti positivist debates This involves examining the role of cultural and aesthetic narratives and cautionary tales as means of acknowledging possibilities in human experiences in education These possibilities can facilitate praxis as theory research and teaching become reflective practices and as thinking about education broadens to include diverse methods of understanding and presenting complex phenomena

Provenzo, Jr.,2014-05-01 This special issue calls for a greater awareness of computing as a critical area of study for those interested in educational studies Its purpose is to open up a wider dialogue about computing and education than has previously existed in the field The questions raised provide the basis for a lively discussion and analysis of the role of educational studies in interpreting the role of computing in our culture and educational system This issue also provides a model for exploring other topics of similar significance and importance to the field in future issues of the journal **Deconstructing the Education-Industrial Complex in the Digital Age** Loveless, Douglas,Sullivan, Pamela,Dredger, Katie,Burns, Jim,2017-01-10 Developments in the education field are affected by numerous and often conflicting social cultural and economic factors With the increasing corporatization of education teaching and learning paradigms are continuously altered Deconstructing the Education Industrial Complex in the Digital Age is an authoritative reference source for the latest scholarly research on the shifting structure of school models in response to technological advances and corporate presence in educational contexts Highlighting a comprehensive range of pertinent topics such as teacher education digital literacy and neoliberalism this book is ideally designed for educators professionals graduate students researchers and academics interested in the implications of the education industrial complex Computational Science and Technology Rayner Alfred,HiroYuki Iida,Haviluddin Haviluddin,Patricia Anthony,2021-03-15 This book gathers the proceedings of the Seventh International Conference on Computational Science and Technology 2020 ICCST 2020 held in Pattaya Thailand on 29 30 August 2020 The respective contributions offer practitioners and researchers a range of new computational techniques and solutions identify emerging issues and outline future research directions while also showing them how to apply the latest large scale high performance computational methods Handbook of Literacy and Technology David Reinking,Michael C. McKenna,Linda D.

Labbo, Ronald D. Kieffer, 1998-04-01 The major shift going on today in the technologies of reading and writing raises important questions about conventional conceptions of literacy and its role in education society and culture What are the important characteristics of electronic forms of reading and writing distinguishing them from printed forms To what extent and in what ways is literacy being transformed by new technologies This central question is addressed in this volume from diverse multidisciplinary perspectives The contributing authors focus on a guiding question in one of the following areas which correspond to the major sections of the book Transforming Texts What are the new differences between printed and electronic texts and what are the implications of new textual forms for defining literacy especially in regard to teaching and learning in schools Transforming Readers and Writers How do electronic reading and writing change conceptualizations of literacy development from childhood through adulthood Transforming Classrooms and Schools What are the effects of introducing new reading and writing technologies into schools and classrooms Transforming Instruction How can instruction be adapted in response to the changing literacy landscape and how can teachers and students exploit forms of reading and writing to enhance teaching and learning Transforming Society What are the broad societal implications of the increasing prevalence of electronic forms of reading and writing Transforming Literacy Research What are the questions that must be addressed as digital reading and writing become more common and what approaches to research will be most useful in addressing those questions This volume is the result of an interactive process The contributors met as a group to discuss drafts of their chapters at a one day meeting convened and sponsored by the National Reading Research Center and had read each others chapters prior to this gathering That meeting was followed by a two day conference attended by approximately 180 researchers educators and policymakers who responded to an open invitation to present papers and to attend sessions focusing on the six major themes of the book Contributors then revised their chapters based on interactions with fellow contributors conference participants and volume editors Thus this work is more than just a compilation of the individual authors views Rather it represents a synthesis of a broad range of current thinking about how literacy is being and may be transformed by technology

**The Multiplicities of Internet Addiction** Nicola F. Johnson, 2016-03-03 Overuse of the internet is often characterized as problematic disruptive or addictive with stories frequently claiming that online use interferes with relationships or that excessive time in front of computer screens is unhealthy The Multiplicities of Internet Addiction contests the claim that computers specifically Internet use are addictive arguing that use of the Internet is now a form of everyday leisure engaged in by many people in Western society Offering an analysis of the nature of addiction alongside a detailed empirical study of home computer use this book will be of interest not only to sociologists of culture and popular culture but also to scholars of media ICT and education
