Education for Whom? Charles A. Tesconi, Emanuel Hurwitz, 1974 Education for Whom? The Question of Equal Educational Opportunity [by] Charles A. Tesconi, Jr. [and] Emanuel Hurwitz, Jr Charles A. Tesconi, 1974 **Education, Justice and the Human Good** Kirsten Meyer, 2014-05-16 The education system is faced with many demands of justice What these demands imply and how they are justified is however disputed In this book international contributors present cutting edge research to discuss the relationship between educational justice and the value of education By combining reflections on educational justice with reflections on the human good and the aims of education the book reveals that it is not enough to assess certain patterns of distribution the value of what is to be distributed must also be clarified In this respect deliberations about the value of education have to play an integral part in giving an account of educational justice Questions addressed in the volume include In what sense should justice fairness and equality be realised in the education system How is educational equality related to equality of opportunity Is the main concern that everyone should be educated equally well or just well enough Education Justice and the Human Good discusses the positional value of education and its relation to educational justice emphasising that education is valuable not only for competitive reasons but in its contribution to human flourishing The book will appeal to those from the field of the philosophy of education as well as applied political philosophy from undergraduates to professional academics *Resources in Education* ,1998 Equal Educational Opportunity United States. Select Committee on Equal Educational Opportunity, 1974 *Noyola V. Board of Education of the City of Chicago* ,1996 *Handbook of Equality of Opportunity* ,2024-07-12 This Handbook provides an authoritative exposition of equality of opportunity It presents the different concepts most commonly associated with equality of opportunity and discusses the many problems dominating the controversies on equality of opportunity at the theoretical policy or practical level The chapters give a concise exposition of the different conceptions and basic concepts of equal opportunities They clarify variables that are part of the algorithm of equal opportunities e g opportunity equality non discrimination fairness responsibility chance and choice excellence qualifications effort talent merit desert inequality and risk The idea of equality of opportunity has traditionally been associated with a set of largely unquestioned ideals and over the last 50 years it has been at the very centre of the major progressive social changes and firmly entrenched in political rhetoric Yet the idea of equality of opportunity is far from unquestionable or unproblematic as the only solid assumption different conceptions have in common is their rejection of fixed social relations but not hierarchy itself Disagreements over the fundamental principles criticism over the inefficiency of policies aiming to ensure equal opportunities and objections to their unfairness all pose questions that current conceptions answer in different ways This Handbook examines a wide variety of questions about issues of motivation procedures genealogy taxonomy and compensation Educating for Clerical Work
