Global Challenges - Local Responses Daniel Fleming, 2006 *Asia-Pacific Financial Deregulation* Gordon De Brouwer, Wisarn Pupphavesa, 2002-03-11 Recent events in East Asia have highlighted the risks of volatility and contagion in a financially integrated world. Countries in the region had been at the forefront of the movement towards increased integration but the crisis that struck Thailand in July 1997 and the rapidity with which it spread to other East Asian nations suggested that all was not well. Weaknesses in domestic financial intermediation, poor corporate governance and deficient government responses to large capital inflows all played a role in the build up of vulnerability. *Asia Pacific Financial Deregulation* provides an insight into financial liberalisation and structural reform in the region generally and as illustrated by a number of countries.

Global Instability John Grieve-Smith, Jonathan Michie, 1999-04-22 In *Global Instability* internationally renowned contributors examine the key problems besetting the world economy in the era of globalisation and outline possible solutions. They reject the current orthodoxy in mainstream economics challenging the fatalistic belief that the new globalised economy resists any change of course. The book reviews international economic institutions, the linked crises which recently hit Asian economies, the implications of globalisation, the role of multinational investment, the IMF and the World Bank. *Global Instability* is a comprehensive and much needed analysis of the contemporary economy written by leading authorities in the field and will be vital reading for anyone in management, business or economics.
