Philosophy of African American Studies Stephen Ferguson, 2015-09-16 In this ground breaking book Stephen C Ferguson addresses a seminal question that is too often ignored What should be the philosophical basis for African American studies The volume explores philosophical issues and problems in their relationship to Black studies Ferguson shows that philosophy is not a sterile intellectual pursuit but a critical tool to gathering knowledge about the Black experience Cultural idealism in various forms has become enormously influential as a framework for Black studies Ferguson takes on the task of demonstrating how a Marxist philosophical perspective offers a productive and fruitful way of overcoming the limitations of idealism Focusing on the hugely popular Afrocentric school of thought this book s engaging discussion shows that the foundational arguments of cultural idealism are based on a series of analytical and historical misapprehensions In turn Ferguson argues for the centrality of the Black working class both men and women to Black Studies

Beyond Marx and Mach K.M. Jensen, 2012-12-06 A ALEKSANDR BOGDANOV On April 7 1928 the career of one of the most extraordinary figures of Russian and early Soviet intellectual life came to an abrupt and premature end In the process of an experiment on blood transfusion Aleksandr Aleksandrovich Malinovsky better known as Bogdanov had exchanged his blood with that of a critically ill malaria victim in hopes of saving both the patient and his blood The outcome of this may be guessed both doctor and patient died forthwith Although an extraordinary venture on Bogdanov s part for it was part of a search for the means to immortality 2 the transfusion experiment was only one of a host of startling things he had done in his thirty years in Russian politics and public life In actuality the activities and achievement of his two years as director of the Soviet Union s first institute for the study of blood transfusion seem virtually insignificant beside the events of earlier years 3 It would be fair to say that Aleksandr Bogdanov stood in a singularly prominent position in the political and intellectual life of Russia from the turn of the century to 1930 Politically he had been Lenin s only serious rival for leadership among the Bolsheviks before 1917 In the early years of the Soviet regime Bogdanov stood head and shoulders above any other public figure operating outside the ranks of the Party Only a handful of men i e

*Philosophical Foundations of the Three Sociologies (RLE Social Theory)* Ted Benton, 2014-09-19 An extended historical and philosophical argument this book will be a valuable text for all students of the philosophy of the social sciences It discusses the serious alternatives to positivist and empiricist accounts of the physical sciences and poses the debate between naturalism and anti naturalism in the social sciences in new terms Recent materialist and realist philosophies of science make possible a defence of naturalism which does not make concessions to positivism and which recognizes the force of several of the anti positivist arguments from the

main anti naturalist neo Kantian tradition The author presents a critical evaluation of empiricist and positivist theories of knowledge and investigates some classic attempts at using them to provide the philosophical foundation for a scientific sociology He takes the Kantian critique of empiricism as the starting point for the main anti positivist and anti naturalist philosophical approaches to the social studies He goes on to investigate the inadequacy of post Kantian arguments from Rickert Weber Winch and others both against non positivist forms of naturalism and as the possible source of a distinctive philosophical foundation for the social studies The book concludes with a critical investigation of the Marxian tradition and an attempt to establish the possibility of a materialist and realist defence of the project of a natural science of history which escapes the fundamental flaws of both positivist and neo Kantian attempts at philosophical foundation *Journal of a Dissenter* Chris Wright, 2025-01-20 This is a lengthy intellectual journal by a political radical that ranges over a variety of subjects such as Marxism capitalism history many schools of modern philosophy psychology economics and contemporary American politics It also includes quite a few personal passages but I've kept those only because they express common experiences and youthful psychological tendencies Its most useful content for students might be its many summaries of good historical and scientific scholarship especially in the journal's second half Ultimately the document is a fairly comprehensive expression of a particular society as refracted through an inquisitive and critical mind from the ages of 15 to 44 **The Meek and the Militant** Paul N. Producer Cooperatives as a New Mode of Production Bruno Jossa, 2014-02-05 The notion that there is no alternative to capitalism emerged after the fall of the Berlin Wall and made rapid headway due to increasing economic globalisation More recently this belief that there is no viable alternative has held firm despite the financial crisis high unemployment levels and an ever increasing gap between rich and poor However since the appearance of Benjamin Ward's seminal 1958 article economic theorists have been developing a workable alternative a system of self managed firms The core argument outlined in this book is that a well organised system of producer cooperatives would give rise to a new mode of production and ultimately a genuinely socialist society This argument is developed through three key steps First following on from Jaroslav Vanek's definition it is argued that a Labour Managed Firm a firm which strictly segregates capital incomes from labour incomes would implement a new production mode because it would reverse the pre existing relation between capital and labour Second given that a system of these Labour Managed Firm cooperatives would reverse the capital labour relationship it is suggested that this would constitute a form of market socialism Third it is argued that compared to capitalism a system of producer cooperatives offers a wealth of advantages including the potential for efficiency gains the eradication of unemployment and the end of exploitation Ultimately this book concludes that self management could take the place of central planning in Marxist visions for the future
