Lupton, Carol, Nixon, Paul, 1999-07-28 This innovative and timely book examines the nature and meaning of empowerment in child welfare and protection using the family group conference FGC approach to decision making as an example In response to the growing clamour for evidence based practice the book addresses the central question of how the idea of empowerment can be operationalised and evaluated One of the aims of FGCs is to empower children and their families by enabling them more effectively to participate in the decision making process and by affording them greater control over the outcomes of that process Empowering practice critically assesses the available evidence on the empowerment potential of FGCs and examines the implications of the approach for professionals their agencies and the children and families involved Empowering practice is essential reading for academics and professionals working in a wide range of health education and social care areas

Resolving Family Conflicts Jane Murphy, 2017-03-02 Over the past two decades virtually all areas of family law have undergone major doctrinal and theoretical changes from the definition of marriage to the financial and parenting consequences of divorce to the legal construction of parenthood An equally important set of changes has transformed the resolution of family disputes This paradigm shift in family conflict resolution has reshaped the practice of family law and has fundamentally altered the way in which disputing families interact with the legal system Moreover the changes have important implications for the way that family law is understood and taught This volume examines the contours of this paradigm shift in family conflict resolution and explores its implications for family law scholarship and practice The interdisciplinary compilation includes contributions from lawyers legal academics social scientists and mental health professionals As the articles in the volume demonstrate the transformation in family conflict resolution holds considerable promise for disputing families but it also raises a number of challenges These challenges include concerns about the institutional competence of courts the surrender of fact finding and decision making to individuals without legal training the loss of autonomy and privacy for family members subject to continuing court oversight and the disjunction between problem solving justice and authoritative legal norms By exploring both the promise of the new paradigm and its potential pitfalls this volume engages family law scholars and offers insights to judges practitioners and policy makers responsible for serving families in conflict

Growing Up in the Care of Relatives Or Friends Mike Doolan, Paul Nixon, Patrice Lawrence, 2004

Restorative Justice and Family Violence Joan Pennell, 2025-09-25 By engaging families in taking charge of their affairs restorative justice can reverse family violence But the expansion of

restorative programming into family violence is stymied by fears of setting family members at risk and heightening agency liability if harm results. How does this anthology counter these fears? In response, it provides two decades of studies documenting successes of a restorative approach with gendered and intergenerational violence. It offers feminist frameworks to explain how these successes are achieved. And finally, the author turns to cultural and religious messages from her own upbringing as a Quaker Religious Society of Friends to explain why a restorative approach makes lasting and just peace in homes. The aim is to encourage others to identify such principles in their own backgrounds to safely and confidently expand the use of restorative programming to safeguard children and adults in the home.
