[Emotional Intelligence](#) Daniel Goleman,2009-07-20 A 25th anniversary edition of the number one multi million copy international bestseller that taught us how emotional intelligence is more important than IQ a revolutionary paradigm shattering idea Harvard Business Review Featuring a new introduction from the author Does IQ define our destiny In his groundbreaking bestseller Daniel Goleman argues that our view of human intelligence is far too narrow It is not our IQ but our emotional intelligence that plays a major role in thought decision making and individual success Self awareness impulse control persistence motivation empathy and social deftness all are qualities that mark people who excel whose relationships flourish who can navigate difficult conversations who become stars in the workplace With new insights into the brain architecture underlying emotion and rationality Goleman shows precisely how emotional intelligence can be nurtured and strengthened in all of us *Reaction Intelligence* Nolan Collins,2025-09-28 Tired of your own and other people s emotional reactions sabotaging your relationships and exhausting you mentally Most people waste energy managing emotions that are working perfectly whilst completely missing the one type of reaction causing 90% of their problems Most people don t know there s a difference You ve been taught to validate label and manage all your feelings But what if some of your emotional

reactions are broken alarms firing at shadows What if the sensitivity exhausting you is just miscalibrated threat detection based on old or missing programming formed when you didn't know how to handle situations as they happened This is the most effective way to look at learned behaviour reactions triggers loops and emotions Each one you have is as unique as your fingerprint so you need a system that can break down YOUR experiences not everyone's No labels No tests You'll learn to Distinguish between reaction types providing accurate information and those misleading you Stop fighting emotional battles that don't need to be fought Eliminate shame spirals after reactions you regret Lean into the helpful reactions that make you feel alive Learn to anticipate prepare and amend patterns that cause conflict No more walking on eggshells in your own home Your family stops bracing for your reactions because you stop having unnecessary ones No more exhaustion from your own emotional system When you stop fighting battles that don't need to be fought you have energy for what matters For people with ADHD Finally understand the process of reactions and emotions so they make sense and reduce the overwhelm This isn't about emotional intelligence processing your childhood or accepting emotional chaos This is about precision understanding which parts of your emotional system serve you and which parts need updating or upgrading Your emotions aren't your enemy They're a guidance system giving you accurate information mixed with false alarms It's time to learn the difference
