The Case for Animal Rights Tom Regan, 2004-09-17 THE argument for animal rights a classic since its appearance in 1983 from the moral philosophical point of view Animal Rights, Human Wrongs Tom Regan, 2003 What gives an animal rights What makes product testing on animals wrong In *Animal Rights Human Wrongs* prominent activist and philosopher Tom Regan skillfully puts forth the argument for animal rights through the exploration of two questions central to moral theory What makes an act right What makes an act wrong Taking into consideration moral theories such as contractarianism utilitarianism and Kantian ethics Regan provides the theoretical framework that grounds a responsible pro animal rights perspective and ultimately explores how asking moral questions about other animals can lead to a better understanding of ourselves The necessity of making a transition from moral theory to moral practice becomes startlingly clear as Reagan examines the commonplace everyday choices that would be affected by believing in a moral theory that affirms the rights of animals For the many people who have ever wondered what difference does it make if animals have rights *Animal Rights Humans Wrongs* provides a provocative and intriguing answer For a discussion of animal rights tailored

to a more general audience see *Empty Cages Facing the Challenge of Animal Rights* Rowman Littlefield 2003 [Animals and the Economy](#) Steven McMullen, 2016-08-11 This book explores the economic institutions that determine the nature of animal lives as systematically exploited objects traded in a market economy It examines human roles and choice in the system including the economic logic of agriculture experimentation and animal ownership and analyses the marginalization of ethical action in the economic system *Animals and the Economy* demonstrates that individual consumers and farmers are often left with few truly animal friendly choices Ethical participants in the economy must either face down an array of institutional barriers or exit mainstream markets entirely This book argues that these issues are not necessary elements of a market system and evaluates a number of policy changes that could improve the lives of animals in the context of a market economy *Between Light and Storm* Esther Woolfson, 2022-12-06 A landmark examination of the fraught relationship between humans and animals taking the reader from Genesis to climate change Beginning with the very origins of life on Earth Woolfson considers prehistoric human animal interaction and traces the millennia long evolution of conceptions of the soul and conscience in relation to the animal kingdom and the consequences of our belief in human superiority She explores our representation of animals in art our consumption of them for food our experiments on them for science and our willingness to slaughter them for sport and fashion as well as examining concepts of love and ownership Drawing on philosophy and theology art and history as well as her own experience of living with animals and coming to know love and respect them as individuals Woolfson examines some of the most complex ethical issues surrounding our treatment of animals and argues passionately and persuasively for a more humble more humane relationship with the creatures who share our world *Animals and Ethics 101* Nathan Nobis , 2016-10-11 *Animals and Ethics 101* helps readers identify and evaluate the arguments for and against various uses of animals such as Is it morally wrong to experiment on animals Why or why not Is it morally permissible to eat meat Why or why not Are we morally obligated to provide pets with veterinary care and if so how much Why or why not And other challenging issues and questions Developed as a companion volume to an online *Animals Ethics* course it is ideal for classroom use discussion groups or self study The book presupposes no conclusions on these controversial moral questions about the treatment of animals and argues for none either Its goal is to help the reader better engage the issues and arguments on all sides with greater clarity understanding and argumentative rigor Includes a bonus chapter *Abortion and Animal Rights Does Either Topic Lead to the Other* [Doing Environmental Ethics](#) Robert Traer, 2019-08-28 *Doing Environmental Ethics* explains how we may transform our fossil fuel burning economy which continues to intensify our ecological crisis into a circular and ecological economy The text resists political corruption and personal greed by gleaning ethical insights from our philosophical and religious cultures and by embracing the scientific Gaia hypothesis for the Earth Its reasoning ascribes intrinsic worth to uplifting duties and rights as well as inspiring virtues and relationships and tests applying these values by predicting the likely consequences of acting on them It affirms all life has

value for itself and that human life also values reasoning and feelings and being ethical The third edition examines US and international environmental policies through 2018 It analyzes the Trump administration's repudiation of the environmental policies of the Obama administration and its new rules slashing the social costs of climate change The text reviews a draft UN treaty that would impose human rights and environmental constraints on transnational corporations but it also highlights outstanding examples of corporate upcycling and low carbon innovation Finally the third edition explains why food security requires protecting the food sovereignty of farming communities and cooperatives as well as public policies ensuring fair profits for farmers practicing agro ecology Animals and Society Margo DeMello, 2012 This textbook provides a full

overview of human animal studies It focuses on the conceptual construction of animals in American culture and the way in which it reinforces and perpetuates hierarchical human relationships rooted in racism sexism and class privilege **The Routledge Handbook of International Crime and Justice Studies** Bruce Arrigo, Heather Bersot, 2013-08-15 The Routledge Handbook of International Crime and Justice Studies presents the enduring debates and emerging challenges in crime and justice studies from an international and multi disciplinary perspective Guided by the pivotal although vastly under examined role that consumerism politics technology and culture assume in shaping these debates and in organizing these challenges individual chapters probe the global landscape of crime and justice with astonishing clarity and remarkable depth A distinguished collection of experts examine the interdisciplinary field of international crime and justice Their contributions are divided into thematic sections including theory culture and society industries of crime and justice systems of policing law corrections and punishment the criminal enterprise global technologies media crime and culture green criminology political violence public health criminology the political economy of crime and justice All the chapters include full pedagogy and instructional resources for easy referencing or classroom use This Handbook will be useful for students scholars and practitioners of law medicine history economics sociology politics philosophy education public health and social policy

Vegetarianism: A Guide for the Perplexed Kerry Walters, 2012-06-07 The choice of whether or not to consume animals is more than merely a dietary one It frequently reflects deep ethical commitments or religious convictions that serve as the bedrock of an entire lifestyle Proponents of vegetarianism frequently infuriate nonvegetarians who feel that they are being morally condemned because of what they choose to eat Vegetarians are frequently infuriated by what they consider to be the nonvegetarians' disregard for the environment and animal suffering Vegetarianism A Guide for the Perplexed offers a much needed survey of the different arguments offered by ethical vegetarians and their critics In a rigorous but accessible manner the author scrutinizes the strengths and weaknesses of arguments in defense of vegetarianism based on compassion rights interests eco feminism environmentalism anthropocentrism and religion Authors examined include Peter Singer Tom Regan Carol J Adams and Kathryn Paxton George As the global climate crisis worsens population increases and fossil fuels disappear ethical and public policy questions about the ethics of diet will become ever more urgent This book is a useful

resource for thinking through the questions **Feeling Animal Death** ,2019-06-20 The emotional exchange between so called humans and more than human creatures is an overlooked phenomenon in societies characterized by the ubiquitous deaths of animals This text offers examples of people across diverse disciplines and perspectives from biomedical research to black theology to art learning and performing emotions expanding their desires discovering new ways to behave and altering their sense of self purpose and community because of passionate but not romanticized attachments to animals By articulating the emotional ties that bind them to specific animals lives and deaths these authors play host to creaturely ghosts who reorient their world vision and work in the world offering examples of affect and feeling needed to enliven multi species ethics **Tourism Experiences and Animal Consumption** Carol Kline,2018-01-17 This book provides an interdisciplinary discussion of animals as a source of food within the context of tourism It focuses on a range of ethical issues associated with the production and consumption of animal foods highlighting the different ways in which animals are valued and utilised within different cultural and economic contexts This book brings together food studies of animals with tourism and ethics forming an important contribution to the wider conversation of human animal studies **The Palgrave Handbook of Practical Animal Ethics** Andrew Linzey,Clair Linzey,2018-06-26 This handbook provides an in depth examination of the practical and theoretical issues within the emerging field of animal ethics Leading experts from around the globe offer insights into cutting edge topics as diverse as killing for food religious slaughter animal companions aquariums genetic manipulation hunting for sport and bullfighting Including contributions from Lisa Johnson on the themes of human dominance Thomas White on the ethics of captivity Mark Bernstein on the ethics of killing and Kay Peggs on the causation of suffering this handbook offers an authoritative reference work for contemporary applied animal ethics Progressive in approach the authors explore the challenges that animal ethics poses both conceptually and practically to traditional understandings of human animal relations Key Features Structured in four parts to examine the ethics of control the ethics of captivity the ethics of killing and the ethics of causing suffering Interdisciplinary approach including philosophical historical scientific legal anthropological religious psychological and sociological perspectives Focussed treatment of practical issues such as animals in farming zoos and animal experimentation The Palgrave Handbook of Practical Animal Ethics is an essential resource for those with an interest in the ethics of modern day treatment of animals as well as scholars researchers and advanced students in zoology philosophy anthropology religious studies and sociology **Relations.
