Eliot,2014-03 This Is A New Release Of The Original 1909 Edition Music and the Skillful Listener Denise Von Glahn,2013-04-09 For Denise Von Glahn listening is that special quality afforded women who have been fettered for generations by the maxim be seen and not heard In *Music and the Skillful Listener* Von Glahn explores the relationship between listening and musical composition focusing on nine American women composers inspired by the sounds of the natural world Amy Beach Marion Bauer Louise Talma Pauline Oliveros Joan Tower Ellen Taaffe Zwilich Victoria Bond Libby Larsen and Emily Doolittle Von Glahn situates nature composing among the larger tradition of nature writing and argues that like their literary sisters works of these women express deeply held spiritual and aesthetic beliefs about nature Drawing on a wealth of archival and original source material Von Glahn skillfully employs literary and gender studies ecocriticism and

ecomusicology and the larger world of contemporary musicological thought to tell the stories of nine women composers who seek to understand nature through music *An Analysis of Thomas Paine's Rights of Man* Mariana Assis, Jason Xidias, 2017-07-05 Thomas Paine's 1791 *Rights of Man* is an impassioned political tract showing how the critical thinking skills of evaluation and reasoning can and must be applied to contentious issues Divided into two parts *Rights of Man* is first a response to Edmund Burke's arguments against the French Revolution put forward in his *Reflections on the Revolution in France* also available in the Macat Library and second an argument for how to run a fair and just society The first part is a sustained performance in evaluation Paine takes Burke's arguments and systematically exposes the ways in which Burke's reasons against revolution are inadequate compared to the necessity of having a just society run according to a universal notion of people's rights as individuals The second part turns to an examination of different political systems setting out a powerfully structured argument for universal rights a clear constitution enshrined in law and a universal right to vote Though Paine is in many ways a stronger rhetorician than he is a clear thinker his reasons for preferring democracy to hereditary forms of government are compelling coherent and clear *Rights of Man* is a masterclass in how to use good reasoning to present a persuasive argument *Britain, the Bible, and Balfour* Jonathan Immanuel, 2019-10-16 In 1917 only Britain would have taken the decision to favor a Jewish national home when the opportunity occurred to dismantle the Ottoman Empire for it had been interlocked with the Hebrew Bible since political and theological crises in sixteenth and seventeenth century England released the so called Old Testament from its defined role as a christological premonition of the New Testament *Britain the Bible and Balfour* unpacks the tumultuous history of the idea of a unique Jewish home state and the development of Zionism as it took shape over the course of several centuries in England The author argues that in fact the theopolitical vision of Zionism is a peculiarly British phenomenon with roots that go back to the English Reformation The religious and political battles over the Bible the role of Hebrew scripture the monarchy and national identity provided the fortuitous if providential groundwork for the recovery of a vision of the Jewish people as a unique community with a mandated home Zionism emerged from this context as a powerful movement that advocated for the return of the land and the people as a divinely ordained religious and political project Yet as this volume demonstrates that idea is explicable only on the basis of the contextual events in early modern England and would take nearly five hundred years to become a geopolitical reality This volume provides a critically important genealogical account and illuminates the fascinating history of how England became the surprising progenitor of a revolutionary idea *The Harvard Classics* Charles William Eliot, 1910

Isham, 2004 This book explores the unprecedented surge or oceanic feeling in the aesthetic expression of the romantic century As secular thought began to displace the certainties of a sacral universe the oceans that give life to our planet offered a symbol of eternity rooted in the experience of nature rather than Biblical tradition Images of the sea permeated the minds of the early Romantics became a significant ingredient of romantic expression and continued to

emerge in the language literature art and music of the nineteenth century These pages document the evidence for this oceanic consciousness in some of the most creative minds of that century

African Americans and the Culture of Pain Debra Walker King, 2008 In this compelling

new study Debra Walker King considers fragments of experience recorded in oral histories and newspapers as well as those produced in twentieth century novels films and television that reveal how the black body in pain functions as a rhetorical device and as political strategy King s primary hypothesis is that in the United States black experience of the body in pain is as much a construction of social ethical and economic politics as it is a physiological phenomenon As an essential element defining black experience in America pain plays many roles It is used to promote racial stereotypes increase the sale of movies and other pop culture products and encourage advocacy for various social causes Pain is employed as a tool of resistance against racism but it also functions as a sign of racism s insidious ability to exert power over and maintain control of those it claims regardless of race With these dichotomous uses of pain in mind King considers and questions the effects of the manipulation of an unspoken but long standing belief that pain suffering and the hope for freedom and communal subsistence will merge to uplift those who are oppressed especially during periods of social and political upheaval This belief has become a ritualized philosophy fueling the multiple constructions of black bodies in pain a belief that has even come to function as an identity and community stabilizer In her attempt to interpret the constant manipulation and abuse of this philosophy King explores the redemptive and visionary power of pain as perceived historically in black culture the aesthetic value of black pain as presented in a variety of cultural artifacts and the socioeconomic politics of suffering surrounding the experiences and representations of blacks in the United States The book introduces the term Blackpain defining it as a tool of national mythmaking and as a source of cultural and symbolic capital that normalizes individual suffering until the individual the real person disappears Ultimately the book investigates America s love hate relationship with black bodies in pain
