

La taillerie de diamants Bleus Frères

Au-dessous des fenêtres, des copies d'anciennes faïences de Delit décorent la façade. Les ferrures forgées, les menuiseries des châssis à petits carreaux ainsi que les différents éléments sont exécutés d'après des modèles anciens.

**Claude Debussy** François Lesure, 2019 English translation and revised edition of the most comprehensive and reliable biography of Claude Debussy François Lesure's critical biography of Claude Debussy Fayard 2003 is widely recognized by scholars as the most comprehensive and reliable account of that composer's life and career as well as of the artistic milieu in which he worked. This encyclopedic volume draws extensively on Debussy's complete correspondence at that time unpublished, a painstaking tracking of contemporary reviews and comments in the press and an examination of other primary documents including private diaries that had not been available to previous biographers. As such Lesure's book presents a wealth of new information while debunking a number of myths that had developed over the years since the composer's death in 1918. The present English translation and revised edition by Debussy authority Marie Rolf augments Lesure's numerous notes with several thousand new ones by Rolf providing more precise information on crucial and sometimes contentious points. It also reflects Debussy scholarship that has appeared since 2003 updating Lesure's seminal work. Rolf's translation the first ever will make Lesure's findings accessible to scholars, musicians and music lovers in English speaking lands and around the world. FRANÇOIS LESURE 1923 2001 was the Director of the Music division of the Bibliothèque nationale de France Professor of Musicology at the Université libre de Bruxelles and Chair of Musicology at the École pratique des Hautes Études MARIE ROLF is senior associate dean of graduate studies and professor of music theory at the Eastman School of Music and a member of the editorial board for the *Ouvres complètes de Claude Debussy*. **Archives d'architecture du XXe siècle** Institut français d'architecture, 1991 *Edouard Niermans* Jean-François Pinchon, Edouard Jean Niermans, 1991

**Parisian Architecture of the Belle Epoque** Roy Johnston, 2007-03-20 Turn of the century Paris is often referred to as the belle époque a golden age of affluence and artistic creativity before the turmoil of the First World War. This was the Paris of artists such as Bonnard, Rodin, Seurat and Vuillard as well as writers and musicians such as Debussy, Zola and Maupassant. The Eiffel Tower had just been built and the Moulin Rouge was in its heyday. Paris was the cosmopolitan capital of pleasure and culture. The architecture of the period however has generally been neglected known only for the Art Nouveau designs of Guimard's Metro entrances and restaurants such as Maxim's. This book based on a thorough survey of Parisian buildings of the era connects the medievalism of Viollet le Duc the classical tradition of the Ecole des Beaux Arts and early developments in metal and concrete construction with modern pioneers like Perret, de Baudot and Sauvage. Including the exuberant designs by architects working in the Ritz style as well as the work of a multitude of architects whose names are at present unknown. Parisian Architecture of the Belle Epoque is a truly comprehensive and visually sumptuous study of this under exposed period of architecture.
