Cultural Capital John Guillory, 2023-10-24 An enlarged edition to celebrate the thirtieth anniversary of John Guillory's formative text on the literary canon Since its publication in 1993 John Guillory's *Cultural Capital* has been a signal text for understanding the codification and uses of the literary canon *Cultural Capital* reconsiders the social basis for aesthetic judgment and exposes the unequal distribution of symbolic and linguistic knowledge on which culture has long been based Drawing from Pierre Bourdieu's sociology Guillory argues that canon formation must be understood less as a question of the representation of social groups and more as a question of the distribution of cultural capital in schools which regulate access to literacy to the practices of reading and writing Now as the crisis of the canon has evolved into the so called crisis of the humanities Guillory's groundbreaking incisive work has never been more urgent As scholar and critic Merve Emre writes in her introduction to this enlarged edition Exclusion selection reflection representation these are the terms on which the canon wars of the last century were fought and the terms that continue to inform debates about for instance decolonizing the curriculum and the rhetoric of antiracist pedagogy

A Benham, Ronald H. From Technicians to Teachers Leon Benade,2012-08-02 From Technicians to Teachers provides theoretical and practical reasons for suggesting that widespread international curriculum reform of the post 1990 period need not deprofessionalise teaching The widely held deprofessionalisation thesis is both compelling and fatalistic leading to a despairing sense that teachers are either no more than technicians or that they can be reprofessionalised through definitions of effective teachers promoted by the reforms However there are many teachers who do not see their work in either of these ways The book is structured around an in depth case study detailing the implementation of The New Zealand Curriculum in that nation one of the best international examples of neoliberal reform Benade argues that curriculum policy can and should be analysed critically while pointing out the dangers for ethical teachers that can exist in national or state curricula Energising and inspiring this book reminds teachers and teacher educators that although they work in a globalised context their own role is fundamental and has a profoundly ethical basis despite the negative impacts of three decades of education reform

Marxism Against Postmodernism in Educational Theory Mike Cole, Dave Hill, Peter McLaren, 2002-12-11 Postmodernism has become the orthodoxy in educational theory It heralds the end of grand theories like Marxism and liberalism scorning any notion of a united feminist challenge to patriarchy of united anti racist struggle and of united working class movements against capitalist exploitation and oppression For postmodernists the world is fragmented history is ended and all struggles are local and particularistic Written by internationally renowned British and American educational theorists Marxism Against Postmodernism in Educational Theory a substantially revised edition of the original 1999 work Postmodernism in Educational Theory critically examines the infusion of postmodernism and theories of postmodernity into educational theory policy and research The writers argue that postmodernism provides neither a viable educational politics nor the foundation for effective
