Educational Leadership For Organisational Learning And Improved Student Outcomes:

Educational Leadership for Organisational Learning and Improved Student Outcomes William Mulford, Halia Silins, Kenneth A. Leithwood, 2006-04-11 The change in paradigm in our field is away from the great man or woman theory of leadership and the teacher in his or her own classroom to the development of learning communities which value differences and support critical reflection and encourage members to question challenge and debate teaching and learning issues How to achieve such learning communities is far from clear but we believe the areas of problem based learning PBL and organizational learning OL offer valuable clues The indications are that the successful educational restructuring agenda depends on teams of leaders whole staffs and school personnel working together i e OL linking evidence and practice in genuine collaboration i e PBL The book is unique in that it is both about and uses these two concepts

School Leadership Effects Revisited Jaap Scheerens, 2012-01-05 This highly detailed study maps four decades of evolution of the concept of what constitutes effective school leadership It analyses the theoretical background to these developments and advocates the utility of thinking of a lean form of school leadership that is comparable to the concept of meta control A wide ranging survey of the empirical research literature on leadership effects includes the presentation of results from earlier meta analyses as well as a new meta analysis on some 25 studies carried out between 2005 and 2010 This survey demonstrates that older reviews and meta analyses were predominantly based on so called direct effect studies while more recent studies have tried to quantify the indirect effects of leadership mediated by other school variables While acknowledging the relatively small total effect of leadership on student outcomes the study does identify promising intermediary factors which stimulated by specific leadership behaviours impact on student performance The book ends by drawing out wider implications for educational practice and policy presented under headings

such as schools need leadership the toolkit of the school leader as a meta controller the special case of turning around failing schools and efficiency of school leadership In passing the authors make several suggestions about potentially fruitful next steps in researching the effects of school leadership

Successful School Leadership Petros Pashiardis, Olof Johansson, 2016-02-25 Successful School Leadership identifies the characteristics behaviours and practices of successful and effective school leaders through the adoption of a systemic view of the quality of school organizations Edited by Petros Pashiardis and Olof Johansson chapters explore the similarities and differences between successful and effective school leaders and across various socioeconomic contexts Capitalizing on the experiences of the international contributor team this book will inform the preparation and further development provided to school leaders in an era where ministries of education universities and multinational organisations such as the OECD are increasingly interested in the leadership of our schools Systematic analyses of multi perspective data provided from around the world and offers the readers a comprehensive picture of the key behaviours and practices central to successful and effective school leadership An original contribution to the theoretical perspectives on the subject is derived through insights from empirical research case studies and bibliographical literature from the field

Ylimaki, Stephen L. Jacobson, 2011-02-16 As educational policy trends converge in many countries such as demands for greater accountability decentralization and more culturally sensitive practices for an increasingly diverse student body there is growing interest in cross national comparisons and generalizations about leadership qualities and practices that result in successful schools US and Cross National Policies Practices and Preparation Implications for Successful Instructional

Leadership Organizational Learning and Culturally Responsive Practices fills that need by bringing together triads of scholars from the International Study of Successful School Principals ISSPP to make direct comparisons among policies and practices in the U S with those in other national contexts and then to draw implications for improving leadership preparation This book provides theories and empirical case study examples of instructional leadership organizational learning and culturally responsive practices as they are shaped by political economic and cultural factors in seven different national contexts The seven countries featured in this book are the U S Australia Denmark England Sweden Norway and Cyprus The book begins with an overview of the ISSPP including its underlying theoretical framework its research methodologies employed its limitations and how analyses of the project s data and findings evolved from the first phase of the study to its current focus

Second International Handbook of Educational Leadership and Administration Kenneth A. Leithwood,P. Hallinger,2012-12-06 The first International Handbook of Educational Leadership and Administration Leithwood et al was published in 1996 and quickly became something of a best seller for reference works within education Such success we suggest was at least partly due to the unprecedented global waves of concern for improving schools launched in the mid 1980 s combined with a widespread belief in leadership as the single most powerful contribution to such improvement The roots of this belief can be found in evidence produced by the early effective schools research although there is a romance with leadership as an explanation for success in many non school enterprises as well During the two year period during which this current handbook was being written activity in the realms of school leadership school improvement and leadership development gained further momentum The English government created its new National College of School Leadership and several Asian nations announced new initiatives in leadership selection preparation and development
