Educational Resources Information Center (U.S.),2000 *Research Anthology on Developing Effective Online Learning*
Courses Management Association, Information Resources,2020-12-18 In the current educational environment there has been
a shift towards online learning as a replacement for the traditional in person classroom experience With this new
environment comes new technologies benefits and challenges for providing courses to students through an entirely digital
environment With this shift comes the necessary research on how to utilize these online courses and how to develop effective
online educational materials that fit student needs and encourage student learning motivation and success The optimization
of these online tools requires a deeper look into curriculum instructional design teaching techniques and new models for
student assessment and evaluation Information on how to create valuable online course content engaging lesson plans for the
digital space and meaningful student activities online are only a few of many current topics of interest for promoting student
achievement through online learning The Research Anthology on Developing Effective Online Learning Courses provides
multiple perspectives on how to develop engaging and effective online learning courses in the wake of the rapid digitalization
of education This book includes topics focused on online learners online course content effective online instruction strategies
and instructional design for the online environment This reference work is ideal for curriculum developers instructional
designers IT consultants deans chairs teachers administrators academicians researchers and students interested in the latest
research on how to create online learning courses that promote student success
