Edr Ratings For Every Darn Radiator:

E. D. R - Ratings for Every Darn Radiator (and Convactor) You'll Probably Ever See Dan Holohan, 2000 If you re replacing a steam boiler there s only one right way to size that boiler and that s to measure the radiators If you re replacing a hot water boiler you ll do a heat loss calculation on the building as it is today but it also pays to measure the radiation to see if you can reduce the water s temperature and save fuel The challenge though is that it s often difficult to find the ratings for many of those old radiators and convectors and that s why I compiled this book I ve been saving heating books and heating manufacturers literature since 1970 I have a lot of this stuff E D R is 272 pages of nothing but radiator and convactor ratings and if that old unit is out there in the field it s probably also in this book This is a terrific resource for any heating professional who wants to get it right the first time
