Umphrey,2007 We face an epidemic of disengagement in American high schools as our institutions fail to offer meaningful and relevant ways to connect curriculum with students emerging life stories These students do not see how schooling as it is presently constituted is important to their own developing identities One solution to this problem is to organize the curriculum around the concept of community and to link the study of abstract concepts and principles to their manifestations in the places that students know and care about local history shared traditions civic pride etc The Power of Community Centered Education provides psychological sociological historical and
