Education and Middle-class Society in Imperial Austria, 1848-1918 Gary B. Cohen, 1996 The rising social and political competition of Austria's ethnic and religious groups encouraged the expansion of education and Czech and Polish national groups and the Jewish and Protestant religious minorities benefited particularly from the growing enrollments

Universities in Imperial Austria 1848-1918 Jan Surman, 2018-12-15 Combining history of science and a history of universities with the new imperial history *Universities in Imperial Austria 1848 1918 A Social History of a Multilingual Space* by Jan Surman analyzes the practice of scholarly migration and its lasting influence on the intellectual output in the Austrian part of the Habsburg Empire The Habsburg Empire and its successor states were home to developments that shaped Central Europe's scholarship well into the twentieth century Universities became centers of both state and nation building as well as of confessional resistance placing scholars if not in conflict then certainly at odds with the neutral international orientation of academe By going beyond national narratives Surman reveals the Empire as a state with institutions divided by language but united by legislation practices and other influences Such an approach allows readers a better view to how scholars turned gradually away from state centric discourse to form distinct language communities after 1867 these influences affected scholarship and by examining the scholarly record Surman tracks the turn Drawing on archives in Austria the Czech Republic Poland and Ukraine Surman analyzes the careers of several thousand scholars from the faculties of philosophy and medicine of a number of Habsburg universities thus covering various moments in the history of the Empire for the widest view *Universities in Imperial Austria 1848 1918* focuses on the tension between the political and linguistic spaces scholars occupied and shows that this tension did not lead to a gradual dissolution of the monarchy's academia but rather to an ongoing development of new strategies to cope with the cultural and linguistic multitude **The Nationalization of**

Scientific Knowledge in the Habsburg Empire, 1848-1918 M. Ash, J. Surman, 2012-07-23 This volume challenges the widespread belief that scientific knowledge as such is international Employing case studies from Austria Poland the Czech lands and Hungary the authors show how scientists in the late Habsburg Monarchy simultaneously nationalized and internationalized their knowledge *The Habsburg Empire* Pieter M. Judson, 2016-04-25 This panoramic reappraisal shows why the Habsburg Empire mattered for so long to so many Central Europeans across divides of language religion and region Pieter Judson shows that creative government and intractable problems the far flung empire could not solve left an enduring imprint on successor states Its lessons are no less important today *Forging Democracy* Geoff Eley, 2002-04-11 Democracy in Europe has been a recent phenomenon Only in the wake of World War II were democratic frameworks secured and even then it was decades before democracy truly blanketed the continent Neither given nor granted democracy requires conflict often violent confrontations and challenges to the established political order In Europe Geoff Eley convincingly shows democracy did not evolve organically out of a natural consensus the achievement of prosperity or the negative cement of the

Cold War Rather it was painstakingly crafted continually expanded and doggedly defended by varying constellations of socialist feminist Communist and other radical movements that originally blossomed in the later nineteenth century Parties of the Left championed democracy in the revolutionary crisis after World War I salvaged it against the threat of fascism and renewed its growth after 1945 They organized civil societies rooted in egalitarian ideals which came to form the very fiber of Europe's current democratic traditions The trajectories of European democracy and the history of the European Left are thus inextricably bound together Geoff Eley has given us the first truly comprehensive history of the European Left its successes and failures its high watermarks and its low tides its accomplishments insufficiencies and excesses and most importantly its formative lasting influence on the European political landscape At a time when the Left's influence and legitimacy are frequently called into question **Forging Democracy** passionately upholds its vital contribution

The Stark Carpathians Anthony J. Amato, 2024-01-29 The Stark Carpathians Ritual Text and Authority Among Ukraine's Hutsuls addresses rituals and texts in a small mountainous area located in today's Ukraine The residents of this remote region are known as the Hutsuls This book argues that Hutsul rituals and texts cast as ancient and extraordinary had more mundane roots They formed out of contact between the region's residents and lowland institutions and they became foundations for everyday life Words and symbolic action had an inherent tension that stemmed from contests over authority The nature of these contests was such that distant officials willful locals and diverse sources of information were often as important as collective traditions in shaping rituals and texts Prolific producers of texts Hutsuls carried on discussions that included diverse topics such as agriculture astrology mass gymnastics divine punishment and witches and vampires This volume covers these and other discussions in their small and exact particulars and it investigates texts and rituals in their fullness and irreducible complexity By crossing traditional lines of inquiry and following the region's winding trails to their divergent ends this book offers insight into a larger Hutsul world Ultimately the study of Hutsul creations informs the study of rituals and texts in many elsewheres far from the Carpathian Mountains

Historical Dictionary of Austria Paula Sutter Fichtner, 2009-06-11 Austrians today often seem to believe that they have two histories One is their republican present the other the centuries that their forebears spent as part of the multi ethnic Habsburg Empire Contemporary Austria is a fixture among Europe's democracies Yet it did not achieve this state easily World War I the unification with Germany in 1938 and World War II were catastrophes for Austria In 1995 it became part of the European Union and its government culture and egalitarian economy are far cries from the monarchical and highly stratified society of the old Empire The second edition of the Historical Dictionary of Austria has been thoroughly updated and greatly expanded Through its chronology introductory essay appendix bibliography and hundreds of cross referenced dictionary entries greater attention has been given to foreign affairs economic institutions and policies social issues religion and politics

The Devil's Wall Mark Cornwall, 2012-04-09 Legend has it that twenty miles of volcanic rock rising through the landscape of northern Bohemia was the work of the devil who separated the warring Czechs and Germans by building a wall The nineteenth century invention of the Devil's Wall was evidence of rising ethnic tensions In interwar Czechoslovakia Sudeten German nationalists conceived a radical mission to try to restore German influence across the region Mark Cornwall tells the story of Heinz Rutha an internationally recognized figure in his day who was the pioneer of a youth movement that emphasized male bonding in its quest to reassert German dominance over Czech space Through a narrative that unravels the threads of Rutha's own repressed sexuality Cornwall shows how Czech authorities misinterpreted Rutha's mission as sexual deviance and in 1937 charged him with corrupting adolescents The resulting scandal led to Rutha's imprisonment suicide and excommunication from the nationalist cause he had devoted his life to furthering Cornwall is the first historian to tackle the long taboo subject of how youth homosexuality and nationalism intersected in a fascist environment The Devil's Wall also challenges the notion that all Sudeten German nationalists were Nazis and supplies a fresh explanation for Britain's appeasement of Hitler showing why the British might justifiably have supported the 1930s Sudeten German cause In this readable biography of an ardent German Bohemian who participated as perpetrator witness and victim Cornwall radically reassesses the Czech German struggle of early twentieth century Europe

The Struggle for the Eurasian Borderlands Alfred J. Rieber, 2014-03-20 A major new account of the Eurasian borderlands as shatter zones which have generated some of the world's most significant conflicts

Understanding Multiculturalism Johannes Feichtinger, Gary B. Cohen, 2014-03-01 Multiculturalism has long been linked to calls for tolerance of cultural diversity but today many observers are subjecting the

concept to close scrutiny After the political upheavals of 1968 the commitment to multiculturalism was perceived as a liberal manifesto but in the post 9 11 era it is under attack for its relativizing particularist and essentializing implications The essays in this collection offer a nuanced analysis of the multifaceted cultural experience of Central Europe under the late Habsburg monarchy and beyond The authors examine how culturally coded social spaces can be described and understood historically without adopting categories formerly employed to justify the definition and separation of groups into nations ethnicities or homogeneous cultures As we consider the issues of multiculturalism today this volume offers new approaches to understanding multiculturalism in Central Europe freed of the effects of politically exploited concepts of social spaces

The Habsburg Monarchy 1815-1918 Steven Beller,2018-05-10 This clear and compelling account of the Habsburg Monarchy in its last century explains why a century after its disappearance it has never been more relevant With extensive discussion of recent historiographic controversies about the Monarchy's character and viability Steven Beller presents a detailed account of the main strands of the Monarchy's political history and how its economic social and cultural development interacted with this main narrative While recognizing the importance of these larger trends readers will learn how the historical accident of personality and the complexities of high politics and diplomacy still had a central impact on the Monarchy's fate Although some would see the Monarchy as an atavistic irrelevance in the modern age its multicultural multinational experience and inclusive logic was in many ways more relevant to our modernity than the nationalism that did so much to bring about its demise

Thompson,2004-11-21 During the nineteenth century European women of all countries and social classes experienced dramatic and enduring changes in their familial working and political lives However the history of women at this time is not one of unmitigated progress theirs was an uphill struggle fraught with hindrances hard work and economic downturns and the increasing intrusion of the public into their innermost private and personal lives Breaking away from traditional categories Rachel G Fuchs and Victoria E Thompson provide a sense of the variety and complexity of women's lives across national and regional boundaries juxtaposing the experiences of women with the perceptions of their lives Three themes unite this study The tension between tradition and modernity The changing relationship between the community and individual The shifting boundaries between public and private Dealing with individual women's lives within a large social and cultural context Fuchs and Thompson demonstrate how strong and courageous women refused to live within the prescribed domestic roles and how many became the modern women of the twentieth century

The Memory Factory Julie M. Johnson,2012-05-15 The Memory Factory introduces an English speaking public to the significant women artists of Vienna at

the turn of the twentieth century each chosen for her aesthetic innovations and participation in public exhibitions These women played important public roles as exhibiting artists both individually and in collectives but this history has been silenced over time Their stories show that the city of Vienna was contradictory and cosmopolitan despite men only policies in its main art institutions it offered a myriad of unexpected ways for women artists to forge successful public careers Women artists came from the provinces Russia and Germany to participate in its vibrant art scene However and especially because so many of the artists were Jewish their contributions were actively obscured beginning in the late 1930s Many had to flee Austria losing their studios and lifework in the process Some were killed in concentration camps Along with the stories of individual women artists the author reconstructs the history of separate women artists associations and their exhibitions Chapters covering the careers of Tina Blau Elena Luksch Makowsky Bronica Koller Helene Funke and Teresa Ries among others point to a more integrated and cosmopolitan art world than previously thought one where women became part of the avant garde accepted and even highlighted in major exhibitions at the Secession and with the Klimt group
