Genesis One And The Origin Of Earth By Newman Robert C:

Three Views on Creation and Evolution Zondervan, 2010-06-01 For Christians the issues raised by the different views on creation and evolution are challenging Can a young earth be reconciled with a universe that appears to be billions of years old Does scientific evidence point to a God who designed the universe and life in all its complexity Three Views on Creation and Evolution deals with these and similar concerns as it looks at three dominant schools of Christian thought Proponents of young earth creationism old earth creationism and theistic evolution each present their different views tell why the controversy is important and describe the interplay between their understandings of science and theology Each view is critiqued by various scholars and the entire discussion is summarized by Phillip E Johnson and Richard H Bube The Counterpoints series provides a forum for comparison and critique of different views on issues important to Christians Counterpoints books address two categories Church Life and Bible and Theology Complete your library with other books in the Counterpoints series *Genesis One and the Origin of the Earth* Perry Phillips, ROBERT. NEWMAN, Herman Eckelmann, 2017-04-12 The authors look at the data of science and the data of Scripture to propose a model that harmonizes both regarding how the solar system and particularly the earth came to be and something of the history of the early earth This model was first proposed in the 1970s and with few modifications is still effective today suggesting that both nature and Scripture have the same Author *Genesis, Science, and the Beginning* Benjamin D. Smith, 2018-08-29 Christian apologist Ben Smith believes that the creation account in Genesis 1 can be read literally and historically as a real week of seven normal days without contradicting modern astronomy and geology regarding the age of the universe and Earth Many Christians are divided over how to reconcile Genesis with modern science and this book evaluates all of the major options ultimately concluding that the Bible allows for an old universe and Earth in a way that is also scientifically accurate A former Young Earth creationist Smith now believes that the age of creation is not specified in the Bible and therefore scientists are free to answer the question He believes that Christians should not hide from the controversy over the age of the Earth but should take a fresh look at the text and be impressed with its accuracy *The Pentateuch* James E Smith, 2006-08 Systematic Theology, Second Edition Wayne A. Grudem, 2020-12-08 This new edition of Systematic Theology by Wayne Grudem is one of the most important resources for helping you understand Scripture and grow as a Christian The most widely used resource of the last 25 years in its area Systematic Theology has been thoroughly revised and expanded for the first time while retaining the features that have made it the standard in its field clear explanations an emphasis on each doctrine s scriptural basis and practical applications to daily life With nearly 250 pages of new content and revisions this new edition now includes the following distinctive features Updated analysis of recent controversies within evangelical theology including the eternal relationship between the Father and the Son in the Trinity the role of women in the church miraculous gifts of the Holy Spirit and contemporary worship music New discussion and critiques of recent theological controversies situated outside of

traditional evangelical theology such as open theism the new perspective on Paul Molinism or middle knowledge Free Grace theology and the preterist view of Christ's second coming Completely revised chapter on the clarity of Scripture Completely revised chapter on creation and evolution including a longer critique of theistic evolution and an extensive discussion on the age of the earth New discussion of how biblical inerrancy applies to some specific problem verses in the Gospels Additional material explaining evangelical Protestant differences with Roman Catholicism Protestant liberalism and Mormonism Completely updated bibliographies All Scripture quotations updated from RSV to ESV Updated section on contemporary worship music Numerous other updates and corrections Part of the brilliance of Systematic Theology has been its simplicity and ease of use Each chapter follows the same structure discussion of the doctrine being considered an explanation of that doctrine's biblical support and possible objections followed by personal application and key terms to know for personal growth Chapters also include a Scripture memory passage references to other literature on the topic and suggested hymns and worship songs If you think theology is hard to understand or boring then this new edition of Systematic Theology will change your mind

The Genesis Column W. Joseph Stallings, 2018-08-08 It is the assertion of Old Earth Creationism that God created the Earth and then made it into an inhabitable environment over the course of a week of epoch long creation days It is the assertion of modern science that the Earth is 4.6 billion years old and has reached such an age by passing through a number of geologic periods that are differentiated by stratigraphic paleontological and other empirical markers Therefore it seems very logical that if one holds to the veracity of these two basic assertions then the long creation days of Genesis and the geologic ages of modern science can and should be effectively correlated with one another in some cohesive and systematic manner Here we offer our origins correlation model The Genesis Column which does just that
