Genocide And Gross Human Rights Violations:

Genocide and Gross Human Rights Violations Kurt Jonassohn, Karin Solveig Bjørnson, Genocide and Gross Human Rights Violations offers actual studies of genocide in India China Colonial Africa the Soviet Union Burma and the former Yugoslavia Beyond narrating the most horrendous atrocities the book focuses on the nature of gross human rights violations and genocides and how best to stop them Jonassohn formulates a typology that distinguishes events that have different origins occur in different situations and follow different processes This work is motivated by the hope that it might be possible to reduce the number of genocides and to intervene in those that do occur **With human rights abuses, two genocides and war crimes, is it time now for the DRC to join the Commonwealth?** Jean-Roger Kaseki, 2025-01-09 This book will highlight the hidden atrocities that happened in the Congo as there is a deliberate media blackout on the horrible situation endured by people from the Congo since the era of King Leopold II who was the owner of the Congo called Congo Free State until today This book aims to draw attention to the Congo crisis so the world community the UN the EU NATO IMF World Bank the Commonwealth of Nations the African Union all western governments NGOs Civil Society Voluntary Sector should now focus and take decisive actions to tackle the culture of impunity following massive violations of fundamental human rights with two genocides one during King Leopold II which claimed 20 million of indigenous Congolese and a second and ongoing genocide which has already claimed more than 12 million innocent Congolese deaths Raising awareness about these atrocities on how to mobilize the world community to come to the rescue of the DRC s stabilization as the Author believes that as a geopolitical strategy the DRC would make much needed progress on defending human rights democracy and the rule of law as a Commonwealth country therefore the book has made a valid case for the DRC to join the Commonwealth Governments, Citizens, and Genocide Alex Alvarez, 2001-02-22 Governments Citizens and Genocide A Comparative and Interdisciplinary Approach Alex Alvarez A comprehensive analysis demonstrating how whole societies come to support the practice of genocide Alex Alvarez has produced an exceptionally comprehensive and useful analysis of modern genocide It is perhaps the most important interdisciplinary account to appear since Zygmunt Bauman s classic work Modernity and the Holocaust Stephen Feinstein Director Center for Holocaust and Genocide Studies Alex Alvarez has written a first rate propaedeutic on the running sore of genocide The singular merit of the work is its capacity to integrate a diverse literature in a fair minded way and to take account of genocides in the post Holocaust environment ranging from Cambodia to Serbia The work reveals patterns of authoritarian continuities of repression and rule across cultures that merit serious and widespread public concern Irving Louis Horowitz Rutgers University More people have been killed in 20th century genocides than in all wars and revolutions in the same period Recent events in countries such as Rwanda and the former Yugoslavia have drawn attention to the fact that genocide is a pressing contemporary problem one that has involved the United States in varying negotiating and peace keeping roles Genocide is increasingly recognized as a threat to national and international

security as well as a source of tremendous human suffering and social devastation Governments Citizens and Genocide views the crime of genocide through the lens of social science It discusses the problem of defining genocide and then examines it from the levels of the state the organization and the individual Alex Alvarez offers both a skillful synthesis of the existing literature on genocide and important new insights developed from the study of criminal behavior He shows that governmental policies and institutions in genocidal states are designed to suppress the moral inhibitions of ordinary individuals By linking different levels of analysis and comparing a variety of cases the study provides a much more complex understanding of genocide than have prior studies Based on lessons drawn from his analysis Alvarez offers an important discussion of the ways in which genocide might be anticipated and prevented Alex Alvarez is Associate Professor in the Department of Criminal Justice at Northern Arizona University His primary research interests are minorities crime and criminal justice as well as collective and interpersonal violence He is author of articles in Journal of Criminal Justice Social Science History and Sociological Imagination and is currently writing a book on patterns of American murder April 2001 240 pages 6 1 8 x 9 1 4 bibl index cloth 0 253 33849 2 29 95 s 22 95 Contents The Age of Genocide A Crime By Any Other Name Deadly Regimes Lethal Cogs Accommodating Genocide Confronting Genocide [Archives and Human Rights](#) Jens Boel,Perrine Canavaggio,Antonio González Quintana,2021-02-09 Why and how can records serve as evidence of human rights violations in particular crimes against humanity and help the fight against impunity Archives and Human Rights shows the close relationship between archives and human rights and discusses the emergence at the international level of the principles of the right to truth justice and reparation Through a historical overview and topical case studies from different regions of the world the book discusses how records can concretely support these principles The current examples also demonstrate how the perception of the role of the archivist has undergone a metamorphosis in recent decades towards the idea that archivists can and must play an active role in defending basic human rights first and foremost by enabling access to documentation on human rights violations Confronting painful memories of the past is a way to make the ghosts disappear and begin building a brighter more serene future The establishment of international justice mechanisms and the creation of truth commissions are important elements of this process The healing begins with the acknowledgment that painful chapters are essential parts of history archives then play a crucial role by providing evidence This book is both a tool and an inspiration to use archives in defence of human rights The Open Access version of this book available at <http://www.taylorfrancis.com/books/e> ISBN has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4 0 license **The Oxford Handbook of Genocide Studies** Donald Bloxham,A. germane to the subject of preventing the atrocities of genocide and managing these conflicts when they do arise Samuel Totten brings together in one comprehensive collection the research and findings in various fields such as political science sociology history and psychology to enable specialists in genocide studies peace studies and conflict resolution to benefit from the insights of a diverse range of scholars and foster an understanding of how the various components of genocide studies connect Among the topics included are key conventions international treaties and covenants genocide early warning signals and forecasting risk data bases sanctions peacekeeping missions conflict resolution the International Criminal Court realpolitik vis vis the issue of genocide prevention and intervention key non governmental agencies key governmental and UN bodies working on these important issues In addition to the annotations Totten frames the bibliography with a major essay that introduces the reader to the subject of prevention and intervention of genocide raising a host of critical issues regarding the strengths weaknesses and limitations of various approaches germane to issues of managing these conflicts

The Historiography of Genocide Anton Weiss-Wendt, Robert Krieken, Alfred A. Cave, Ben Kiernan, Doris Bergen, David Moshman, Victoria Sanford, John Docker, Robert Hitchcock, 2008-02-13 The Historiography of Genocide is an indispensable guide to the development of the emerging discipline of genocide studies and the only available assessment of the historical literature pertaining to genocides *International Crimes* Guénaél Mettraux, 2019 This book discusses in detail the law of genocide its definition elements normative status and relationship to the other core international crimes It is the first in a four volume compendium from Judge Mettraux on the four core international crimes **The Dark Side of Democracy** Michael Mann, 2005 Publisher Description **Global Human Rights Institutions** Gerd Oberleitner, 2013-04-30 The range of global human rights institutions which have been created over the past half century is a remarkable achievement Yet their establishment and proliferation raises important questions Why do states create such institutions and what do they want them to achieve Does this differ from what the institutions themselves seek to accomplish Are global human rights institutions effective remedies for violations of human dignity or temples for the performance of stale bureaucratic rituals What happens to human rights when they are being framed in global institutions This book is an introduction to global human rights institutions and to the challenges and paradoxes of institutionalizing human rights Drawing on international legal scholarship and international relations literature it examines UN institutions with a human rights mandate the process of mainstreaming human rights international courts which adjudicate human rights and non governmental human rights organizations In mapping the ever more complex network of global human rights institutions it asks what these institutions are and what they are for It critically assesses and appraises the ways in which global institutions bureaucratize human rights and reflects on how this process is changing our perception of human rights **Denial of Genocides in the Twenty-First Century** Bedross Der Matossian, 2023-05 Throughout the twenty first century genocide denial has evolved and adapted with new strategies to augment and complement established modes of denial In addition to outright negation denial

of genocide encompasses a range of techniques including disputes over numbers contestation of legal definitions blaming the victim and various modes of intimidation such as threats of legal action Arguably the most effective strategy has been denial through the purposeful creation of misinformation Denial of Genocides in the Twenty First Century brings together leading scholars from across disciplines to add to the body of genocide scholarship that is challenged by denialist literature By concentrating on factors such as the role of communications and news media global and national social networks the weaponization of information by authoritarian regimes and political parties court cases in the United States and Europe freedom of speech and postmodernist thought this volume discusses how genocide denial is becoming a fact of daily life in the twenty first century

Transitional Justice in Rwanda Gerald Gahima, 2013-02-15 Transitional Justice in Rwanda Accountability for Atrocity comprehensively analyzes the full range of the transitional justice processes undertaken for the Rwandan genocide Drawing on the author's extensive professional experience as the principal justice policy maker and the leading law enforcement officer in Rwanda from 1996 2003 the book provides an in depth analysis of the social political and legal challenges faced by Rwanda in the aftermath of the genocide and the aspirations and legacy of transitional justice The book explores the role played by the accountability processes not just in pursuing accountability but also in shaping the reconstruction of Rwanda's institutions of democratic governance and political reconciliation Central to this exploration will be the examination of whether or not transitional justice in Rwanda has contributed to a foundational rule of law reform process While recognizing the necessity of pursuing accountability for mass atrocity the book argues that a maximal approach to accountability for genocide may undermine the promotion of core objectives of transitional justice Taking on one of the key questions facing practitioners and scholars of transitional justice today the book suggests that the pursuit of mass accountability particularly where socio economic resources and legal capacity is limited may destabilize the process of rule of law reform endangering core human rights norms Moreover the book suggests that pursuing a strategy of mass accountability may undermine the process of democratic transition particularly in a context where impunity for crimes committed by the victors of armed conflicts persists Highlighting the ongoing democratic deficit in Rwanda and resulting political instability in the Great Lakes region the book argues that the effectiveness of transitional justice ultimately hinges on the nature and success of political transition

Economic Aspects of Genocides, Other Mass Atrocities, and Their Prevention Charles H. Anderton, Jurgen Brauer, 2016-05-09 Alongside other types of mass atrocities genocide has received extensive scholarly policy and practitioner attention Missing however is the contribution of economists to better understand and prevent such crimes This edited collection by 41 accomplished scholars examines economic aspects of genocides other mass atrocities and their prevention Chapters include numerous case studies e.g. California's Yana people Australia's Aborigines peoples Stalin's killing of Ukrainians Belarus the Holocaust Rwanda DR Congo Indonesia Pakistan Colombia Mexico's drug wars and the targeting of suspects during the Vietnam war probing literature reviews and completely novel

work based on extraordinary country specific datasets Also included are chapters on the demographic gendered and economic class nature of genocide Replete with research and policy relevant findings new insights are derived from behavioral economics law and economics political economy macroeconomic modeling microeconomics development economics industrial organization identity economics and other fields Analytical approaches include constrained optimization theory game theory and sophisticated statistical work in data mining econometrics and forecasting A foremost finding of the book concerns atrocity architects purposeful strategic use of violence often manipulating nonrational proclivities among ordinary people to sway their participation in mass murder Relatively understudied in the literature the book also analyzes the options of victims before during and after mass violence Further the book shows how well intended prevention efforts can backfire and increase violence how wrong post genocide design can entrench vested interests to reinforce exclusion of vulnerable peoples and how businesses can become complicit in genocide In addition to the necessity of healthy opportunities in employment education and key sectors in prevention work the book shows why new genocide prevention laws and institutions must be based on reformulated incentives that consider insights from law and economics behavioral economics and collective action economics

The Failure to Prevent Genocide in Rwanda Frederik Grünfeld, Anke Huijboom, 2007 This volume is about the failure to prevent genocide in Rwanda in 1994 In particular the research focuses on why the early warnings of an emerging genocide were not translated into early preventative action The warnings were well documented by the most authoritative source the Canadian U N peace keeping commander General Romeo Dallaire and sent to the leading political civil servants in New York The communications and the decisionmaking are scrutinized i e who received what messages at what time to whom the messages were forwarded and which non decisions were taken in response to the alarming reports of weapon deliveries and atrocities This book makes clear that this genocide could have been prevented Published under the Transnational Publishers imprint
