Genocide Its Political Use In The Twentieth Century:

Genocide Leo Kuper,1981 **Genocide** George J. Andreopoulos,1997-02 Part II The reality of genocide The Twentieth Century Clive Ponting,1999-04-15 Thematically organized into sections on economic and social international and domestic history are chapters on such topics as globalization empires the environment dictatorship repression democracy socialism power conflict and genocide The author adopts a world systems approach throughout and attempts to identify major trends through a comparative approach Annotation copyrighted by Book News Inc Portland OR **Empire, Ideology, Mass Violence: The Long 20th Century in Comparative Perspective** Tobias Hof,2016-09-20 Despite the vast literature on genocide and mass violence during the 19th and 20th century one question still haunts historians and the wider public alike Why do ordinary men use extreme violence against fellow human beings Empire Ideology Violence The Long 20th Century in Comparative Perspective offers innovative methods and interdisciplinary approaches to the study of extreme violence in the long 20th century By looking at case studies from different regions and time periods the contributors shed more light on the social political and economic contexts in which humans are inclined to use extreme forms of violence Topics in the volume include case studies from Asia Africa Europe the Ottoman Empire and the Nazi Third Reich **Genocide Or Ethnocide, 1933-2007** Bartolomé Clavero,2008 Institutional Legacies, Decision Frames and Political Violence in Rwanda and Burundi Stacey Mitchell,2018-10-09 Rwanda and Burundi are strikingly similar countries that underwent democratization in the early 1990s In both resistance to democratic reforms led to coups d tat and presidential assassinations A conundrum arises in terms of what transpires next In Rwanda total genocide was perpetrated by extremist Hutu actors including government officials upon the country s Tutsi and politically moderate Hutu populations In Burundi the coup d tat failed and instead ushered in a lengthy period of civil war This divergence in outcome is puzzling given the similarity of these two countries and it is not adequately explained by studies that address collective violence in each This book utilizes an integrative approach that facilitates the formation of an explanation that more fully accounts for variation in the type of collective violence that occurred in Rwanda and Burundi Showing that political actors during periods of major institutional change do not all respond to or perceive reform in the exact same manner or in a necessarily rational manner this book makes an important contribution to the literature on ethnic conflict collective violence and democratization in Africa

Genocide Studies Jeffrey S. Bachman, 2024-10-11 In recent years the world has been shaken by numerous events that have caused and continue to cause massive human suffering from the COVID 19 pandemic to intrastate and interstate armed conflicts Moreover climate change continues to plow ahead contributing to growing tensions population movements and resource scarcity Meanwhile the methods by which groups and group life are threatened and the means by which violence is incited and perpetrated continue to evolve Such divergent crises even when they overlap or intersect confound definition and label This book seeks not to answer the question What is genocide but rather What is genocide studies When Raphael Lemkin coined the term genocide in 1944 he could not have foreseen what the world would look like today Now is the time to think about current manifestations of genocide and those likely to emerge in the future

Robson,2020-09-17 The Middle East today is characterized by an astonishingly bloody civil war in Syria an ever more highly racialized and militarized approach to the concept of a Jewish state in Israel and the Palestinian territories an Iraqi state paralyzed by the emergence of class and region inflected sectarian identifications a Lebanon teetering on the edge of collapse from the pressures of its huge numbers of refugees and its sect bound political system and the rise of a wide variety of Islamist paramilitary organizations seeking to operate outside all these states The region s emergence as a zone of violence characterized by a viciously dystopian politics of identity is a relatively recent phenomenon developing only over the past century but despite these shallow historical roots the mass violence and dispossession now characterizing Syria Lebanon Israel Palestine and Iraq have emerged as some of the twenty first century s most intractable problems In this study Laura Robson uses a framework of mass violence encompassing the concepts of genocide ethnic cleansing forced migration appropriation of resources mass deportation and forcible denationalization to explain the emergence of a dystopian politics of identity across the Eastern Mediterranean in the modern era and to illuminate the contemporary breakdown of the state from Syria to Iraq to Israel *Political Theology on Edge* Clayton Crockett,Catherine Keller,2021-12-07 In *Political Theology on Edge* the discourse of political theology is seen as situated on an edge that is on the edge of a world that is grappling with

global warming a brutal form of neoliberal capitalism protests against racism and police brutality and the COVID 19 pandemic This edge is also a form of eschatology that forces us to imagine new ways of being religious and political in our cohabitation of a fragile and shared planet Each of the essays in this volume attends to how climate change and our ecological crises intersect and interact with more traditional themes of political theology While the tradition of political theology is often associated with philosophical responses to the work of Carl Schmitt and the critical attempts to disengage

religion from his rightwing politics the contributors to this volume are informed by Schmitt but not limited to his perspectives They engage and transform political theology from the standpoint of climate change the politics of race and non Christian political theologies including Islam and Sikhism Important themes include the Anthropocene ecology capitalism sovereignty Black Lives Matter affect theory continental philosophy destruction and suicide This book features world renowned scholars and emerging voices that together open up the tradition of political theology to new ideas and new ways of thinking Contributors Gil Anidjar Balbinder Singh Bhogal J Kameron Carter William E Connolly Kelly Brown Douglas Seth Gaiters Lisa Gasson Gardner Winfred Goodwin Lawrence Hillis Mehmet Karabela Michael Northcott Austin Roberts No lle Vahanian Larry L Welborn Children in the International Political Economy G. Kent,1995-09-13 The first line of responsibility for children lies with their parents but what if the parents fail to look after their children Who else is involved and what should they do Children in the International Political Economy examines the moral responsibilities of different individuals and agencies towards children and argues that some responsibilities should be codified as concrete legal duties If all else fails children must look to the international community for help Thus international agencies should recognize specific obligations to look after the well being of children around the world
