*Genocide on Trial* Donald Bloxham, 2001-10-04 When the Allies decided to try German war criminals at the end of World War II they were attempting not only to punish the guilty but also to create a record of what had happened in Europe This ground breaking new study shows how Britain and the United States went about inscribing the history of Nazi Germany and the effect their trial and occupation policies had on both long and short term memory in Germany and Britain Donald Bloxham here examines the actions and trials of German soldiers and policemen the use of legal evidence the refractory functions of the courtroom and Allied political and cultural preconceptions of both Germanism and of German criminality His evidence shows conclusively that the trials were a failure the greatest of all crimes against humanity the final solution of the Jewish question was largely written out of history in the post war era and the trials failed to transmit the breadth of German criminality Finally with reference to the historiography of the Holocaust *Genocide on Trial* illuminates the function of the trials in perpetuating misleading generalizations about the course of the Holocaust and the nature of Nazism [War Crimes Trials and Investigations](#) Jonathan Waterlow, Jacques Schuhmacher, 2018-01-31 This book represents the first multi disciplinary introduction to the study of war crimes trials and investigations It introduces readers to the numerous disciplines engaged with this complex subject including Forensic Anthropology Economics and Anthropometrics Legal History Violence Studies International Criminal Justice International Relations and Moral Philosophy The contributors are experts in their respective fields and the chapters highlight each discipline s major trends debates methods and approaches to mass atrocity genocide and crimes against humanity as well as their interactions with adjacent disciplines Case studies illustrate how the respective disciplines work in practice including examples from the Allied Hunger Blockade WWII the Guatemalan and Spanish Civil Wars the Former Yugoslavia and Uganda Including bibliographical essays to offer readers crucial orientation when approaching the specialist literature in each case this edited collection equips readers with what they need to know in order to navigate a complex and until now deeply fragmented field A diverse and interdisciplinary body of research this book will be indispensable reading for scholars of war crimes **A Global History of Execution and the Criminal Corpse** Richard Ward, 2015-09-27 Through studies of beheaded Irish traitors smugglers hung in chains on the English coast suicides subjected to the surgeon s knife in Dresden and the burial of executed Nazi war criminals this volume provides a fresh perspective on the history of capital punishment The chapters Introduction A Global History of Execution and the Criminal Corpse and The Gibbet in the Landscape Locating the Criminal Corpse in Mid Eighteenth Century England are open access under a CC BY 4 0 license **Genocide on Trial** Donald Bloxham, 2001 [The Hidden Histories of War Crimes Trials](#) Kevin Heller, Gerry Simpson, 2013-10-31 This is an open access title available under the terms of a CC BY NC ND 3 0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations Several instances of war crimes trials are familiar to all scholars but in order to advance

understanding of the development of international criminal law it is important to provide a full range of evidence from less familiar trials This book therefore provides an essential resource for a more comprehensive overview uncovering and exploring some of the lesser known war crimes trials that have taken place in a variety of contexts international and domestic northern and southern historic and contemporary It analyses these trials with a view to recognising institutional innovations clarifying doctrinal debates and identifying their general relevance to contemporary international criminal law At the same time the book recognises international criminal law s history of suppression or sublimation What stories has the discipline refused to tell What stories have been displaced by the ones it has told Has international criminal law s framing or telling of these stories excluded other possibilities And perhaps most important of all how can recovering the lost stories and imagining new narrative forms reconfigure the discipline Many of the trials examined in this book have hardly ever before been discussed others have been examined only in the most cursory manner Indeed until now no volume has been dedicated to telling the story of these trials that have yet to find a place in the international criminal law canon Providing a detailed analysis of these trials which took place in Europe Africa South America and Australasia in both historical and contemporary contexts this book is essential reading for anyone concerned with the development of international criminal law *Atrocities on Trial* Patricia Heberer, Jürgen Matthies, 2008-04-01 These essays are organised into four sections dealing with the history of war crime trials from Weimar Germany to just after World War II the sometimes diverging Allied attempts to come to terms with the Nazi concentration camp system the ability of postwar societies to confront war crimes of the past and the legacy of war crime trials **The Cambridge History of the Second World War: Volume 2, Politics and Ideology** Richard Bosworth, Joseph Maiolo, 2015-04-23 War is often described as an extension of politics by violent means With contributions from twenty eight eminent historians Volume 2 of The Cambridge History of the Second World War examines the relationship between ideology and politics in the war s origins dynamics and consequences Part I examines the ideologies of the combatants and shows how the war can be understood as a struggle of words ideas and values with the rival powers expressing divergent claims to justice and controlling news from the front in order to sustain moral and influence international opinion Part II looks at politics from the perspective of pre war and wartime diplomacy as well as examining the way in which neutrals were treated and behaved The volume concludes by assessing the impact of states politics and ideology on the fate of individuals as occupied and liberated peoples collaborators and resisters and as British and French colonial subjects **Defeat and Memory** J. Macleod, 2008-11-03 The legacy of defeat in war reverberates through private and collective memory and remains a sub text in international relations and political discourse This book examines the manner in which a series of military defeats have been understood and remembered by individuals and societies in the era of modern industrialised warfare Memory Laws, Memory Wars Nikolay Koposov, 2018 A major contribution to our understanding of present day historical consciousness through a study of memory laws across Europe *International*

*Crimes* Guénaél Mettraux, 2019 This book discusses in detail the law of genocide its definition elements normative status and relationship to the other core international crimes It is the first in a four volume compendium from Judge Mettraux on the four core international crimes      **Political Trials in Theory and History** Jens Meierhenrich, Devin O. Pendas, 2017-02-27

From the trial of Socrates to the post 9 11 military commissions trials have always been useful instruments of politics Yet there is still much that we do not understand about them Why do governments use trials to pursue political objectives and when What differentiates political trials from ordinary ones Contrary to conventional wisdom not all political trials are show trials or contrive to set up scapegoats This volume offers a novel account of political trials that is empirically rigorous and theoretically sophisticated linking state of the art research on telling cases to a broad argument about political trials as a socio legal phenomenon All the contributors analyse the logic of the political in the courtroom From archival research to participant observation and from linguistic anthropology to game theory the volume offers a genuinely interdisciplinary set of approaches that substantially advance existing knowledge about what political trials are how they work and why they matter

**Final Solution** David Cesarani, 2016-11-08 This groundbreaking history of the Holocaust presents a brilliant synthesis and interpretation of the greatest crime of the modern era harrowing and extraordinary The Times UK David Cesarani s Final Solution is a magisterial work of history that chronicles the fate of Europe s Jews during and directly after World War II Based on decades of scholarship documentation newly available from the opening of Soviet archives declassification of Western intelligence service records as well as diaries and reports written in the camps Cesarani provides a sweeping reappraisal that challenges accepted explanations for the anti Jewish politics of Nazi Germany and the inevitability of the final solution The persecution of the Jews as Cesarani demonstrates was not always the Nazis central preoccupation nor was it inevitable Instead it unfolded erratically in German occupied countries often due to local initiatives Military failures created a crisis of resources that led to the starvation of the ghettos and intensified anti Jewish measures Cesarani also disputes the iconic role of railways and deportation trains and exposes the extent of sexual violence and abuse of Jewish women In bracingly vivid prose Final Solution captures the experience of a heroic people caught in the hell that was Hitler s Germany

**Reassessing the Nuremberg Military Tribunals** Kim

Christian Priemel, Alexa Stiller, 2012 For decades the history of the US Military Tribunals at Nuremberg NMT has been eclipsed by the first Nuremberg trial the International Military Tribunal or IMT The dominant interpretation neatly summarized in the ubiquitous formula of Subsequent Trials ignores the unique historical and legal character of the NMT trials which differed significantly from that of their predecessor The NMT trials marked a decisive shift both in terms of analysis of the Third Reich and conceptualization of international criminal law This volume is the first comprehensive examination of the NMT and brings together diverse perspectives from the fields of law history and political science exploring the genesis impact and legacy of the twelve Military Tribunals held at Nuremberg between 1946 and 1949 The Cambridge Companion to International Criminal Law William Schabas, 2016-01-07 An authoritative introduction to international criminal law written by renowned international lawyers judges prosecutors criminologists and historians

**Doing Justice to History** Barrie Sander, 2021-03-09

As communities struggle to make sense of mass atrocities expectations have increasingly been placed on international criminal courts to render authoritative historical accounts of episodes of mass violence Taking these expectations as its point of departure this book seeks to understand international criminal courts through the prism of their historical function The book critically examines how such courts confront the past by constructing historical narratives concerning both the culpability of the accused on trial and the broader mass atrocity contexts in which they are alleged to have participated The book argues that international criminal courts are host to struggles for historical justice discursive contests between different actors vying for judicial acknowledgement of their interpretations of the past By examining these struggles within different institutional settings the book uncovers the legitimating qualities of international criminal judgments In particular it illuminates what tends to be foregrounded and included within as well as marginalised and excluded from the narratives of international criminal courts in practice What emerges from this account is a sense of the significance of thinking about the emancipatory limits and possibilities of

international criminal courts in terms of the historical narratives that are constructed and contested within and beyond the courtroom

Histories Written by International Criminal Courts and Tribunals Aldo Zammit Borda, 2020-12-18 This book argues for a more moderate approach to history writing in international criminal adjudication by articulating the elements of a responsible history normative framework The question of whether international criminal courts and tribunals ICTs ought to write historical narratives has gained renewed relevance in the context of the recent turn to history in international criminal law the growing attention to the historical legacies of the ad hoc Tribunals and the minimal attention paid to historical context in the first judgment of the International Criminal Court The starting point for this discussion is that in cases of mass atrocities prosecutors and judges are inevitably understood to be engaged in writing history and influencing collective memory whether or not they so intend Therefore while writing history is an inescapable feature of ICTs there is still today a significant lack of consensus over the proper place of this function Since Hannah Arendt articulated her doctrine of strict legality in response to the prosecutor's expansive didactic approach in Eichmann the legal debate on the subject has been largely polarised between restrictive and expansive approaches to history writing in mass atrocity trials What has been noticeably missing from this debate is the middle ground The contribution this book seeks to make is precisely to articulate a framework that occupies that ground The book asks what are the lenses through which judges of ICTs interpret historical events what kind of histories do ICTs write and what kinds of histories should ICTs produce Its arguments for a more moderate approach to history writing are based on three distinct but interrelated grounds 1 Truth and Justice 2 Right to Truth and 3 Legal Epistemology Different target audiences may benefit from this book Court officials and legal practitioners may find the normative framework developed herein useful in addressing the tensions between the competing objectives of ICTs and in particular in assessing the value of the history writing function Lawyers historians and other academics may also find the analysis of the strengths constraints and blind spots of the historical narratives written by ICTs interesting This issue is particularly timely in view of current debates on the legacies of ICTs Aldo Zammit Borda is Director of the Centre for Access to Justice and Inclusion at Anglia Ruskin University Cambridge UK

*The Missing Italian Nuremberg* M. Battini, 2007-08-20 This book explores how the trial of the entire military command of the Nazi power structure in Italy prepared by the Allies following the Nuremberg mode came to be replaced by a few contradictory trials of very minor significance This resulted in an enormous historical misrepresentation of the Nazi occupation of Italy
