text for advanced students and researchers in this area **The Routledge Handbook of English for Academic Purposes** Ken Hyland, 2016-01-29 The Routledge Handbook of English for Academic Purposes provides an accessible authoritative and comprehensive introduction to English for Academic Purposes EAP covering the main theories concepts contexts and applications of this fast growing area of applied linguistics Forty four chapters are organised into eight sections covering Conceptions of EAP Contexts for EAP EAP and language skills Research perspectives Pedagogic genres Research genres Pedagogic contexts Managing learning Authored by specialists from around the world each chapter focuses on a different area of EAP and provides a state of the art review of the key ideas and concepts Illustrative case studies are included wherever possible setting out in an accessible way the pitfalls challenges and opportunities of research or practice in that area Suggestions for further reading are included with each chapter The Routledge Handbook of English for Academic Purposes is an essential reference for advanced undergraduate and postgraduate students of EAP within English Applied Linguistics and TESOL The Bloomsbury Companion to Discourse Analysis Ken Hyland, Brian Paltridge, 2013-02-14 Originally published as The Continuum Companion to Discourse Analysis this book is designed to be the essential one volume resource for advanced students and academics This companion offers a comprehensive and accessible reference resource to research in contemporary discourse studies In 21 chapters written by leading figures in the field the volume provides readers with an authoritative overview of key terms methods and current research topics and directions It offers both a survey of current research and gives more practical guidance for advanced study in the area The volume covers all the most important issues concepts movements and approaches in the field and features a glossary of key terms in the area of discourse analysis It is the complete resource for postgraduate students and researchers working within discourse studies applied linguistics TESOL and the social sciences The Routledge Handbook of World Englishes Andy Kirkpatrick, 2010-06-17 The Routledge Handbook of World Englishes constitutes a comprehensive introduction to the study of World Englishes drawing on the expertise of leading authors within the field The Handbook is structured in nine sections covering historical perspectives core issues and topics and new debates which together provide a thorough overview of the field taking into account the new directions in which the discipline is heading Among the key themes covered are the development of English as a lingua franca among speakers for whom English is a common but not first language the parallel development of English as a medium of instruction in educational institutions throughout the world and the role of English as the international language of scholarship and scholarly publishing as well as the development of computer mediated Englishes including cyberprose The Handbook also includes a substantial introduction and conclusion from the editor The Routledge Handbook of World Englishes is the ideal resource for postgraduate students of applied linguistics as well as those in related degrees such as applied English language and TESOL TEFL **The Routledge Handbook of Discourse Analysis** Michael Handford, James Paul Gee, 2013-06-17 Approaches to discourse analysis Register and genre Developments in spoken discourse Educational

applications Institutional applications Identity culture and discourse *Meaning Making in Text* S. Starc, C. Jones, A. Maiorani, 2015-05-05 *Meaning Making in Text* presents new insights into forms of communication in a range of contexts cultural linguistic multimodal and educational The thirteen chapters are all linked theoretically by advances in Systemic Functional Linguistics SFL **Professional Genres from an Interpersonal Perspective** Christopher Hopkinson, Renáta Tomášková, Gabriela Zapletalová, 2016-05-11 This volume brings together contributions focused on and shaped by two areas of linguistic research genre analysis and the interpersonal component of language and discourse It explores the interplay and interaction of genre and the interpersonal component revealing potential connections and interdependencies between genre conventions and the realisation of interpersonal meanings viewed from the perspective of the systemic functional approach to language and discourse analysis The contributions focus on a variety of aspects of the interpersonal in selected genres of professional discourse including not only communication among professionals but also genres produced by professionals to address non specialists The volume consists of nine chapters grouped into three sections guiding readers through four major discourse domains namely media discourse academic discourse institutional discourse and promotional discourse Institutional and promotional discourses are combined in a single section reflecting the hybridism of the majority of the genres under investigation here genres of institutional discourse typically exhibit features akin to advertising not only presenting the institutions in terms of the scope of their activities and services but also serving a clear promotional purpose The studies document how omnipresent varied and plentiful the strategies of intersubjective positioning are and how significant their position in genres and discourses invariably is The social and cultural grounding of genres requires them to be conventional yet it also ensures their flexibility continuous development and change qualities which make genres a permanent challenge and inspiration for research and discussion *Towards Humane Technologies*, 2008-01-01 What are the ethical and political implications when the very foundations of life things of awe and spiritual significance are translated into products accessible to few people This book critically analyses this historic recontextualisation Through mediation when meaning moves from one text to another from one discourse to another biotechnology is transformed into analysable data and into public discourses The unique book links biotechnology with media and citizenship As with any commodity biological products have been commodified Because enormous speculative investment rests on this risk will be understated and benefit will be overstated Benefits will be unfairly distributed Already the bioprospecting of Southern megadiverse nations legally sanctioned by U S property rights conventions has led to wealth and health benefits in the North Crucial to this development are biotechnological discourses that shift meanings from a language of life into technocratic discourses infused with neo liberal economic assumptions that promise progress and benefits for all Crucial in this is the mass media's representation of biotechnology for an audience with poor scientific literacy Yet even apparently benign biotechnology spawned by the Human Genome Project such as prenatal screening has eugenic possibilities and genetic codes for illness are eagerly sought by

insurance companies seeking to exclude certain people These issues raise important questions about a citizenship that is founded on moral responsibility for the wellbeing of society now and into the future After all biotechnology is very much concerned with the essence of life itself This book provides a space for alternative and dissident voices beyond the hype that surrounds biotechnology

Contrastive Analysis of Discourse-pragmatic Aspects of Linguistic Genres Karin Aijmer, Diana Lewis, 2017-03-29 This volume will give readers insight into how genres are characterised by the patterns of frequency and distribution of linguistic features across a number of European languages The material presented in this book will also stimulate further corpus based contrastive research including more languages more genres and different types of corpora This is the first special issue of the Yearbook of Corpus Linguistics and Pragmatics a publication that addresses the interface between the two disciplines and offers a platform to scholars who combine both methodologies to present rigorous and interdisciplinary findings about language in real use Corpus linguistics and Pragmatics have traditionally represented two paths of scientific thought parallel but often mutually exclusive and excluding Corpus Linguistics can offer a meticulous methodology based on mathematics and statistics while Pragmatics is characterized by its effort in the interpretation of intended meaning in real language

Disciplinarity: Functional Linguistic and Sociological Perspectives Frances Christie, Karl Maton, 2011-02-03 Disciplinary knowledge is under threat in the modern world Claims abound that we are entering a landscape in which the division of disciplines is obsolete implying a commitment to outdated values in scholarship Notions of discipline are critiqued as reflecting social power and representing the worldview of dominant social groups By addressing and challenging such claims this edited collection argues that proclamations of the death of disciplines have been greatly overstated Not only are the notions of disciplinarity still important for understanding how we come to know the world but this volume demonstrates how significant disciplinarity is to understanding different forms of knowledge if we wish to improve the building of knowledge and educational practice Using analytical tools from systemic functional linguistics theory and social realist sociology this volume illustrates how different disciplines can collaborate and cross fertilize successfully without losing their distinctive insights and disciplinary integrity The subsequent theory developed will thereby extend both linguistic and sociological approaches to the topic and make a major contribution to educational theory

Perspectives from Systemic Functional Linguistics Akila Sellami-Baklouti, Lise Fontaine, 2018-04-09 This innovative collection brings together contributions from established and emerging scholars highlighting the applicability of Systemic Functional Linguistics and the ways in which theoretical and analytical conclusions drawn from its applications can inform and advance the study of language The book discusses SFL's theoretical foundations and development in recent years to demonstrate its evolution into a more effective analytical tool Building on this theoretical framework the volume showcases the theory's applications in case studies exploring four sub disciplines of language study multilingual studies translation studies language learning and language teaching and genre analysis This all inclusive volume demonstrates both Systemic Functional

Linguistics efficacy as a means of theoretical analysis but also its value as a unique approach to the study of language and meaning making this an indispensable resource for researchers and scholars in applied linguistics discourse analysis genre studies translation studies and multilingualism *Translating Institutions* Kaisa Koskinen, 2014-06-03 Translating Institutions outlines a framework for research on translation in institutional settings using the Finnish translation unit at the European Commission as a case study Because of their foundational multilingualism the institutions of the European Union could be described as both translating and translated institutions The European Commission alone employs nearly two thousand translators and it is translators who draft the vast majority of outgoing EU messages Translating Institutions sets out to explore the organizational role and professional identity of this group of cultural mediators a group that has remained relatively invisible despite its size and central institutional role and to use the analysis of this data to elaborate broader methodological and theoretical issues Translating Institutions adopts an ethnographic approach to explore the life and work of the translators at the centre of this study In practice this entails employing a number of different methods and interrogating various types of data The three level research design used covers the study of the institutional framework the study of translators working in specific institutional settings and the study of translated documents and their source texts This is therefore a study of both texts and people in their institutional habitat Given the methodological focus of the volume the different methods and data are outlined in independent chapters the institutional framework of translation institutional ethnography the physical location of the unit observation translators own views of their role focus group discussions and a sociologically oriented text analysis of a sample document shifts analysis Translating Institutions constitutes a valuable contribution to the sociology of translation It opens up new avenues for research and offers a detailed framework for the study of institutional translation *The Bloomsbury Handbook of Discourse Analysis* Ken Hyland, Brian Paltridge, Lillian Wong, 2021-07-29 An essential reference to contemporary discourse studies this handbook offers a rigorous and systematic overview of the field covering the key methods research topics and new directions Fully updated and revised throughout to take account of developments over the last decade in particular the innovations in digital communication and new media this second edition features New coverage of the discourse of media multimedia social media politeness ageing and English as lingua franca Updated coverage across all chapters including conversation analysis spoken discourse news discourse intercultural communication computer mediated communication and identity An expanded glossary of key terms Identifying and describing the central concepts and theories associated with discourse and its main branches of study The Bloomsbury Handbook of Discourse Analysis makes a sustained and compelling argument concerning the nature and influence of discourse and is an essential resource for anyone interested in the field **Plurilingualism in Teaching and Learning** Julie Choi, Sue Ollerhead, 2018-01-09 Assembling a rich and diverse range of research studies on the role of plurilingualism across a wide variety of teaching and learning settings this book supports teacher reflection and action in practical ways and

illustrates how researchers tease out and analyze the complex realities of their educational environments With a focus on education policies teaching practices training and resourcing this volume addresses a range of mainstream and specialized contexts and examines the position of learners and teachers as users of plurilingual repertoires Providing a close look into the possibilities and constraints of plurilingual education this book helps researchers and educators clarify and strengthen their understandings of the links between language and literacy and offers them new ways to think more rigorously and critically about the language ideologies that shape their own beliefs and approaches in language teaching and learning

Narrative Counselling Peter Muntigl, 2004-07-29 What actually happens in counselling interactions How does counselling bring about change How do clients end up producing new and alternative stories of their lives and relationships By addressing these questions and others Peter Muntigl explores the narrative counselling process in the context where it is enacted the unfolding conversation between counsellor and clients Through a transdisciplinary approach that combines conversation analysis and systemic functional linguistic theory Muntigl demonstrates how language is used in couples counselling how language use changes over the course of counselling and how this process provides clients with new linguistic resources that help them change their social relationships This book will be a valuable resource not only for linguists and discourse analysts but also for researchers and practitioners in the fields of counselling psychotherapy psychology and medicine
