Gentle Regrets Thoughts From A Life:

Gentle Regrets Roger Scruton, 2015-06-15 Roger Scruton is Britain's best known intellectual dissident who has defended English traditions and English identity against an official culture of denigration. Although his writings on philosophical aesthetics have shown him to be a leading authority in the field, his defence of political conservatism has marked him out in academic circles as public enemy number one. Whether it is Scruton's opinions that get up the nose of his critics or the wit and erudition with which he expresses them, there is no doubt that their noses are vastly distended by his presence and constantly on the verge of a collective sneeze. Contrary to orthodox opinion, however, Roger Scruton is a human being and *Gentle Regrets* contains the proof of it: a quiet, witty but also serious and moving account of the ways in which life brought him to think what he thinks and to be what he is. His moving vignettes of his childhood and later influences illuminate this book. Love him or hate him, he will engage you in an argument that is both intellectually stimulating and informed by humour.

Art and Politics in Roger Scruton's Conservative Philosophy Ferenc Hörcher, 2022-12-12 This book covers the field of and points to the intersections between politics, art and philosophy. Its hero is the late Sir Roger Scruton, who had a longstanding interest in all fields, acquiring professional knowledge in both the practice and theory of politics, art and philosophy. The claim of the book is therefore that, contrary to a superficial prejudice, it is possible to address the philosophical issues of art and politics in the same oeuvre as the example of this Cambridge-educated analytical philosopher proves. Accordingly, the book has a bold thesis on the general theoretical level, mapping the connections between politics, art and philosophy. However, it also has a pioneering commitment on the level of the particular, offering the first full-length study into the philosophical legacy of Roger Scruton, probably the most important British conservative philosopher of the late 20th and the first decades of the 21st century. It also allows the reader to look into the philosopher's fascination with Central European art and culture. Finally, it also provides a daring analysis of the late Scruton's metaphysical inspirations connecting the arts and especially music with religion and the bonds of love.

The Ten Legal Cases That Made Modern Britain Inigo Bing, 2022-07-12 LIFE, SEX, RACE, POWER, FREE SPEECH, PROTEST, PRIVACY, DEMOCRACY, SOVEREIGNTY, DEATH. Society shapes law and law shapes society. We like to imagine that progress comes about when Parliament spots a looming groundswell in public opinion and responds by changing the laws that govern our daily lives. This is not always true. In this fascinating book, Inigo Bing unravels ten legal cases in which the decisions of judges or a jury either heralded a shift in outlook or forced Parliament to respond to simmering social change. Some of these cases demonstrate the role judges have in defending our civil liberties against overweening executive power, articulating inherent unwritten rights Parliament would prefer to keep quiet about. Others explore what happens when rapid technological or social change outpaces government, placing urgent ethical dilemmas in the lap of the court. All of them have had a lasting impact on the society we inhabit. Taken together, these stories provide a powerful insight into eighty years of British social, political and cultural history, illustrating

why legal cases are just as important to making our world as laws written by Parliament or grassroots changes within society

The Political Philosophy of the European City Ferenc Hörcher, 2021-06-03 *The Political Philosophy of the European City* is a courageous and wide ranging panorama of the political life and thought of the European city Its novel hypothesis is that modern Western political thought since the time of Hobbes and Locke underestimated the political significance and value of the community of urban citizens called *civitas* united by local customs or even a formal or informal urban constitution at a certain location which had a recognizable countenance with natural and man made architectural marks called *urbs* Recalling the golden age of the European city in ancient Greece and Rome and offering a detailed description of its turbulent life in the Renaissance Italian city states it makes a case for the city not only as a hotbed of modern democracy but also as a remedy for some of the distortions of political life in the alienated contemporary centralized Weberian bureaucratic state Overcoming the north south divide or the core and periphery partition the book s material is particularly rich in Central European case studies All in all it is an enjoyable read which offers sound arguments to revisit the offer of the small and middle sized

European town in search of a more sustainable future for Europe *God is No Thing* Rupert Shortt, 2024-10-24 *God is no thing but not nothing* These words from the renowned thinker Herbert McCabe point to a fallacy at the heart of New Atheist polemics against religion the deity rejected by Richard Dawkins Christopher Hitchens Sam Harris and their followers is not God as taught in classical tradition but merely a blown up thing From this basic error flow many more misunderstandings about Christianity and other creeds As a result debate on life s biggest questions has grown vitriolic as well as confused Although parts of the Western world now appear almost totally secularised Christianity remains the most potent worldview on earth alongside Islam In this compelling book Rupert Shortt gracefully argues that Christianity is a much more coherent progressive body of belief philosophically scientifically and culturally than often supposed by its critics Alert to the menace posed by religious fundamentalism as well as to secularist blind spots he shows how a self critical faith is of huge consequence to wider human flourishing including through promoting peace and environmental sustainability

Why Rousseau was Wrong Frances Ward, 2013-01-31 A significant and lively contribution to current debates about the role of religion in a society dominated by secular humanism Post Olympic Britain looks like a very different country from the brittle post riot Britain of 2011 However despite the successes of 2012 Frances Ward argues that underlying tensions remain in our society because we have forgotten how to nurture belonging and trust Tracing the origins of modern identity politics back to key Enlightenment thinkers she offers an alternative model of citizenship to the excessive individualism of secular humanism She examines the Church s role in shaping Western society in ways which are reflected in the Olympic spirit belonging together corporate rather than individualistic identity about doing things as ends and not means non utilitarian non instrumental and about developing character and virtue rather than a sense of identity Writing in an accessible and engaging style drawing on contemporary literature and particularly the work of Alexander McCall Smith and his fictional character

Isabel Dalhousie Ward explores ways in which twenty first century society can be rebuilt and strengthened for the future

Overcoming Matthew Arnold James Walter Caufield, 2016-05-13 Opening the way for a reexamination of Matthew Arnold's unique contributions to ethical criticism James Walter Caufield emphasizes the central role of philosophical pessimism in Arnold's master tropes of culture and conduct Caufield uses Arnold's ethics as a lens through which to view key literary and cultural movements of the past 150 years demonstrating that Arnoldian conduct is grounded in a Victorian ethic of renouncement a form of altruism that wholly informs both Arnold's poetry and prose and sets him apart from the many nineteenth century public moralists Arnold's thought is situated within a cultural and philosophical context that shows the continuing relevance of renouncement to much contemporary ethical reflection from the political kenosis of Giorgio Agamben and the pensiero debole of Gianni Vattimo to the ethical criticism of Wayne C Booth and Martha Nussbaum In refocusing attention on Arnold's place within the broad history of critical and social thought Caufield returns the poet and critic to his proper place as a founding father of modern cultural criticism

Essays on the Real Church Dirk J. Smit, 2024-08-15 The spirit of the Reformation is often expressed in the well known slogan that Reformed churches are always being reformed according to God's Word *ecclesia reformata semper reformanda secundum verbum Dei* Over the last century the spirit of this slogan motivated someone like Dietrich Bonhoeffer to argue that the visible form and life of the church should reflect the truth and message of the church Already in his doctoral dissertation called *Sanctorum Communio* the communion of the saints the young Bonhoeffer combined theological claims and traditions with social theory and analysis in this spirit in an innovative way to study the nature and integrity and witness of the church At the time this was a radical claim with major consequences and challenges for Protestant churches Their life which meant their order structure actions statements convictions public presence and role was to be measured by their gospel which meant their message proclamation convictions claims They could no longer proclaim one truth yet live a different life It was this spirit which led to the well known Theological Declaration of Barmen in 1934 and to the formation of the Confessing Church in Nazi Germany Many called this a moment of truth a status confessionis It was this same spirit which later inspired the struggle in South Africa for the integrity and faithfulness of the

church and for the credibility of its message proclamation and witness The contributions in this volume 52 papers essays sermons studies were all produced in this spirit Most of them have not been published before They were all occasional pieces written over several decades in different contexts and for different purposes and audiences yet they all breathe this self critical spirit of the Reformation considering whether the real church the concrete every day actual living church that people know and experience and perhaps belong to truly strives to embody the gospel itself the message which it claims and proclaims They all inquire under different circumstances and in diverse ways about different social forms of the real church from worship to congregation from denomination to ecumenical church from individual believers to movements and organisations whether and how they embody the truth of the church or not Together these contributions tell a story the story of this spirit in South African circles over several decades but also in the ecumenical church in our globalizing world They offer one small glimpse into different concrete moments in the story of this spirit in the life of this tradition and community of faith Hopefully some of these accounts may resonate with others who also shared the same spirit and still share it today in new and ongoing ways

Outgrowing Dawkins Rupert Shortt, 2019-11-21 A masterclass Church Times A bracing demonstration that a Christian can myth bust an atheist quite as effectively as vice versa Tom Holland In his latest book Outgrowing God Richard Dawkins tries to show that all religious belief is intellectually nonsensical and thus highly damaging in practice But does he even understand what he rejects In this incisive rebuttal Rupert Shortt exposes the main flaws in Dawkins s arguments his weakness for crude caricatures selective way with evidence ignorance of philosophy and history as well as theology and even his questionable interpretations of science At the same time Outgrowing Dawkins demonstrates the coherence of a mature self critical faith and its contribution to human progress A penetrating concise and informed critique of Richard Dawkins This is now the best starting point for anyone wanting to assess his views on science and faith Alister E McGrath A great read Rupert Shortt demolishes Richard Dawkins s arguments with consummate elegance Julia Neuberger

In Dwelling Peter King, 2016-05-23 A dwelling or the physical space we call a house is full of meaning for us It can be implacable in that it can work for or against us depending on how we are able to access and use it This means that we have to learn to accept dwelling as it is and find some accommodation with our surrounding environment This book develops a new approach to looking at dwelling and how we use it It explores the manner in which we use housing to exclude others and so protect our privacy It also argues we need to exclude others in order to protect and nurture our loved ones The book combines philosophical analysis and literary and film criticism to put forward an innovative and insightful new approach to looking at housing It draws on the work of thinkers as diverse as Aristotle Derrida Kierkegaard Nussbaum and Scruton and the films of Chaplin Bergman Lynch Tarr Teshigahara and Van Sant to construct a new theoretical approach to housing research

Hannah Arendt, Totalitarianism, and the Social Sciences Peter Baehr, 2010-03-11 This book examines the nature of totalitarianism as interpreted by some of the finest minds of the twentieth century It focuses on Hannah Arendt s

claim that totalitarianism was an entirely unprecedented regime and that the social sciences had integrally misconstrued it A sociologist who is a critical admirer of Arendt Baehr looks sympathetically at Arendt's objections to social science and shows that her complaints were in many respects justified Avoiding broad disciplinary endorsements or dismissals Baehr reconstructs the theoretical and political stakes of Arendt's encounters with prominent social scientists such as David Riesman Raymond Aron and Jules Monnerot In presenting the first systematic appraisal of Arendt's critique of the social sciences Baehr examines what it means to see an event as unprecedented Furthermore he adapts Arendt and Aron's philosophies to shed light on modern Islamist terrorism and to ask whether it should be categorized alongside Stalinism and National Socialism as totalitarian

Roger Scruton: The Philosopher on Dover Beach Mark Dooley, 2009-05-21 An intriguing portrait of Roger Scruton and his philosophy Roger Scruton was one of the outstanding British philosophers of the post war years Why then

was he at best ignored and at worst reviled Part of the reason was that he was an unapologetic conservative in the tradition of Edmund Burke That conservative instinct was sharpened during the Paris riots of 1968 From that point on Scruton set himself the task of stridently opposing what he termed the culture of repudiation In so doing he targeted liberals in the tradition of Russell and Mill existentialists like Sartre and post modernists in the fashion of Foucault Here is a brilliant description of Scruton s life and work and a careful analysis of his central ideas Scruton defended an Hegelian and Burkean view of human nature one founded on allegiance to the State as the guarantor of tangible freedom He thus opposed any and all variations of the social contract theory liberal or existential individualism or philosophical theories of the authentic self in isolation from its kind His conservative notion of the nation state was used to reflect upon and criticise the European Union the United Nations and the idea that the Middle East can be reformed along Western democratic lines Scruton argues Mark Dooley was the one British intellectual who courageously rowed against the tide of liberal conviction and arrived at political conclusions the truth of which are becoming more and more obvious This book argues conclusively that Roger Scruton was a prophet for our times Living Forms of the Imagination Douglas Hedley,2008-02-28 This book is essential reading for

those interested in the imagination epistemology naturalism and the philosophy of religion Charles Taliaferro Professor of Philosophy St Olaf College Minnesota The role of imagination in psychology ethics and aesthetics provides a good analogy for thinking about the imagination in religious belief in dealing with the inner lives of other human beings moral values or aesthetic qualities we need to employ the imagination to suppose form hypotheses empathize or imaginatively engage with alien people or worlds in order to understand Just as we use the imagination to relate to other minds appreciate beauty and understand goodness we need imagination to engage with God s action in the world **Introduction To The Analysis Of**
