## Genx Reader:

**The GenX Reader**, 1994      Screening Generation X Christina Lee, 2016-04-01 Screening Generation X The Politics and Popular Memory of Youth in Contemporary Cinema examines popular representations of Generation X in American and British film In arguing that the various constructions of youth are marked by major cultural shifts and societal inequalities it analyzes the iconic Gen X figures ranging from the slacker the teenage time traveller and third wave feminists to the oeuvre of Molly Ringwald and Richard Linklater This book explores the important cultural work performed by films that mediate the experiences of Generation X and critiques the ongoing marginalization of the youth who struggle to find their identity and a voice in increasingly unstable times Specific analyses of such films as Pump Up the Volume The Breakfast Club Heathers Donnie Darko and Waking Life are used to illustrate the research      **GenXegesis** John McAllister Ulrich, Andrea L. Harris, 2003 Resituating the term in its neglected sub cultural context this work offers a critical assessment of the Generation X phenomenon and its relation to the fashioning of different identities within and against the mainstream Topics include punk subculture the Internet and alternative music      *Taking It Big* Steven P. Dandaneau, 2001-01-24 For use as a primary or supplemental text for Introductory Sociology Social Theory and senior capstone courses An unabashedly critical text for those who want to connect their students personal experiences with what is happening at the societal global level today The emphasis is on teaching the sociological imagination i e to instill in students a unique and radical form of consciousness that will allow them to conceptualize today s chief global and individual problems and the relations between them Dandaneau adopts a perspective like that of C Wright Mills and argues that the sociological imagination is the most needed type of consciousness in the world today The author encourages students to think through a wide variety of topics from ecological crises to panic disorder from hyperreality to the sociology of disability from Generation X to Generation Next As Dandaneau says The point is not so much to learn the truth but to learn how to think about essential issues and troubles as sociologists themselves try to do to become a participant with others in facing down the challenges of our present epoch It is an elegant and profound meditation on thinking sociologically Written with a rare panache one seldom finds in sociology it s the product of a view of contemporary social life that is profoundly troubling What this adds up to is a distinctive sociological and moral voice Peter Kivisto Augustana College Rock Island Illinois      **The GenX Reader** Douglas Rushkoff, 1994 Cursed by older generations Generations X means a lot of things to a lot of people They are a culture a demographic an outlook a style an economy a scene a literature a political ideology an aesthetic an age a decade and a way of life Here is a collage of the most revered voices of Generation X demonstrating that while twentysomethings may indeed have dropped out of American culture as it is traditionally defined they also stand as a testament to American ingenuity optimism instinct and intelligence      The Nineties Chuck Klosterman, 2023-01-31 An instant New York Times bestseller Informative endlessly entertaining BuzzFeed Generation X s definitive chronicler of culture GQ From the author of But What If We re Wrong comes an insightful

funny reckoning with a pivotal decade It was long ago but not as long as it seems The Berlin Wall fell and the Twin Towers collapsed In between one presidential election was allegedly decided by Ross Perot while another was plausibly decided by Ralph Nader Landlines fell to cell phones the internet exploded and pop culture accelerated without the aid of technology that remembered everything It was the last era with a real mainstream to either identify with or oppose The 90s brought about a revolution in the human condition and a shift in consciousness that we're still struggling to understand Happily Chuck Klosterman is more than up to the job In The Nineties Klosterman dissects the film the music the sports the TV the pre 9 11 politics the changes regarding race and class and sexuality the yin yang of Oprah and Alan Greenspan and almost everything else The result is a multidimensional masterpiece a work of synthesis so smart and delightful that future historians might well refer to this entire period as Klostermanian
