Religion in Vogue Lynn S. Neal, 2019-12-17 Shows how the fashion industry in the mid to late twentieth century created a particular way of seeing religion as fashionable From cross necklaces to fashion designs inspired by nuns habits how have fashion sources interpreted Christianity And how in turn have these interpretations shaped conceptions of religion in the United States Religion in Vogue explores the intertwined history of Christianity and the fashion industry Using a diverse range of fashion sources including designs jewelry articles in fashion magazines and advertisements Lynn S Neal demonstrates how in the second half of the twentieth century the modern fashion industry created an aestheticized Christianity transforming it into a consumer product The fashion industry socialized consumers to see religion as fashionable and as a beautiful lifestyle accessory something to be displayed consumed and experienced as an expression of personal identity and taste Religion was something to be embraced and shown off by those who were sophisticated and stylish and not solely the domain of the politically conservative Neal ultimately concludes that through aestheticizing Christianity the fashion industry has offered Americans a means of blending traditional elements of religion such as ritual practice miraculous events and theological concepts with modern culture revealing a new dimension to the personal experience of religion

absence of clutter Paul Stephens, 2020-03-24 An exploration of minimal writing texts generally shorter than a sentence as complex powerful literary and visual works In the 1960s and 70s minimal and conceptual artists stripped language down to its most basic components the word and the letter Barbara Kruger Jenny Holzer Carl Andre Lawrence Weiner and others built lucrative careers from text based art Meanwhile poets and writers created works of minimal writing visual texts generally shorter than a sentence One poem by Aram Saroyan reads in its entirety eyeeye In absence of clutter Paul Stephens offers the first comprehensive account of minimal writing arguing that it is equal in complexity and power to

better known more commercial text based art Minimal writing Stephens writes can be beguilingly simple on the surface but can also offer iterative reading experiences on multiple levels from the fleeting to the ponderous absence of clutter for example the entire text of a poem by Robert Grenier is both expressive and self descriptive Stephens first sets out a theoretical framework for reading and viewing minimal writing and then offers close readings of works of minimal writing by Saroyan Grenier Norman Pritchard Natalie Czech and others He reverse engineers recent works by Jen Bervin Craig Dworkin and Christian B k that draw on molecular biology and explores print on demand books by Holly Melgard code poetry by Nick Montfort Twitter based work by Allison Parrish and the use of Instagram by Hans Ulrich Obrist and Saroyan Text it seems is becoming ever more prevalent in visual art meanwhile poems are getting shorter When reading has become scanning a screen and writing tapping out a text absence of clutter invites us to reflect on how we read see and pay attention
