Masser, 2020-11-26 In placing these questions at the heart of their book the authors set out to stimulate and contribute to the great debate despite the enormous growth in the acquisition of GIS technology by business and government little is known about the impact this leading edge technology is having Using case studies in a local government context this book explores the performance of GIS in practice on the premise that any technology led innovation will only work if the proper organizational and management support infrastructure and culture exist In doing so the authors draw on the experiences from organizational theory and management science in their quest to cast light on the processes influencing the implementation of technologies such as GIS *GIS in Land and Property Management* Martin P. Ralphs, Peter Wyatt, 2003-09-02 Economists geographers and surveyors are beginning to recognise the powerful tool which a Geographical Information System GIS offers in effective property management It provides a means of managing land and property information digitally and in a geographical context and allows for rapid access to information and a means of analyzing that information in a geographical context GIS in Land and Property Management shows how to use GIS both in principle and in practice It introduces digital mapping and GIS along with a brief history of the development of GIS and LIS all with an emphasis on property In presenting the spectrum of GIS applications in property management it gives a number of case

studies from a variety of market sectors and it analyzes the issues to provide guidance and a number of recommendations for the implementation of GIS. At the same time common themes and issues are drawn out to present a coherent message for students and practitioners. The book is useful for undergraduate and postgraduate students on land management built environment economics and geography courses and for property professionals in both public and private sectors looking to GIS as a property management decision aid. E-government and Public Sector Process Rebuilding Kim Viborg Andersen, 2006-02-23. E-government and Public Sector Process Rebuilding. Dilettantes, Wheelbarrows and Diamonds provides an input to rebuild and improve the processes in which the public sector perform activities and interact with the citizens, companies and the formal elected decision makers. Through eleven chapters the book emphasizes information systems IS as the vehicle for redirecting the public sector towards its key customers. The book stresses serious capability challenges inhibiting the digital transformation using activity and customer centric applications. The dilettantes in the public sector are in need of upgrading, rethinking and refocusing their use of IS. There is a need to revisit the extensive use of digital wheelbarrows to transmit data and complement the transactional focus with IT enabled analysis of the activities. There is also a need to recognize that IS are not just flashy and shining diamonds to be shown off on special occasions. IS are as most diamonds, manufactured products, part of the activities and intended for replacement whenever the diamonds are no longer suitable for serving their purpose. Diamonds do not last forever. **E-Planning and Collaboration: Concepts, Methodologies, Tools, and Applications**

Management Association, Information Resources, 2018-06-04. As population growth accelerates, researchers and professionals face challenges as they attempt to plan for the future. ArcGIS and the Digital City William E. Huxhold, Eric M. Fowler, Brian Parr, 2004. Both a textbook for GIS classes in urban planning and a workbook for local governments, this book shows how to do real tasks that are required when a city decides to go digital and use geographic information systems (GIS) to store and access information. With this book, planners, analysts and other local government staff use data from a real city to perform tasks such as creating buildings and parcels, setting coordinate systems and building geodatabase topology. After creating a geodatabase working with attribute data and geocoding data, planners will be able to perform spatial analysis to find possible drug houses near playgrounds, find buildable vacant lots, produce land use reports and more. *GIS and Evidence-Based Policy Making* Stephen Wise, Max
