(U.S.), 2017-11-02 This report covers the timeframe from 2013 2015 based on the American Housing Survey AHS data that is funded by the U S Department of Housing and Urban Development HUD and U S Department of Commerce U S Census Bureau This report provides national data and analysis of the critical problems facing low income renting families Households in this report are defined as very low income renters who do not receive government housing assistance and who paid more than one half their income for rent lived in severely inadequate conditions or both

Contributing most to the increase in worst case needs between years 2013 and 2015 was a notable shift from home ownership to renting. Modest gains in household incomes were met with rising rents shrinking supply of affordable housing stock in an increasingly competitive market. This data identifies a worst case needs household as a family with two children most often a minority family headed either by a single female or married couple. Municipal and state government personnel within the Housing Authority that offer affordable housing properties to its citizens may be most interested in this data. Additionally rental property managers and builders, American citizens, policymakers, economic developers and advisors and community planners may also find this research helpful to their strategic program needs. High school students and above may be interested in the statistical data that includes text, tables, charts representing this population and their needs for the basic necessity of housing to provide primary source materials for research reports and term papers. *Disposable Cities* Garth Andrew Myers, 2017-03-02. Based on in depth fieldwork in three cities: Dar es Salaam, Zanzibar and Lusaka, this book provides a critical analysis of the United Nations Sustainable Cities Program in Africa. Focusing on the SCP's policies for solid waste management which was identified as the top priority problem by the SCP, the book examines the success of these pilot schemes and the SCP's record in building new relationships between people and government. It argues that the SCP has operated in a political vacuum without recognition of the long and problematic histories and cultural politics of urban environmental governance in Eastern and Southern Africa. This book

brings these cultural and political histories to the fore in its examination of the contemporary dynamics In doing so it not only provides an insightful analysis of the policies and outcomes for the SCP but also puts forward a historically grounded critique of neoliberalism good governance and sustainable development discourses      **Mali in Pictures** Francesca Davis DiPiazza,2006-10-01 Learn about the people and place sof Mali      Childrens' Catalog H.W.
