performed solo with small groups and big bands in vaudeville and clubs and on numerous records But she is equally well known today as a composer and arranger of remarkable versatility and power having worked with among others Duke Ellington and Benny Goodman Her compositions have been recorded by artists as varied as Marian McPartland Dizzy Gillespie Nat King Cole Sarah Vaughan Ella Fitzgerald and herself and more recently by cutting edge players Geri Allen and Dave Douglas But Williams was more than just a musician her interests were catholic in both senses and she struggled to combine her love of music with her love of God She was a tireless humanitarian and made ongoing attempts to help dozens of down and out musicians in the 1950s her apartment was at times virtually a rehab Though she was often in emotional despair she found comfort for her many disappointments and hurts not only in her music but in her spirituality Linda Dahl granted unprecedented access to the large Williams archive has given us the whole of Williams s very full life from her often harrowing days on the road to her tumultuous marriages and love affairs from the ups and downs of her unique fifty year career to the remarkable spirituality that came to inform both her daily life and her music This is a striking portrait of one of our least understood and most important musicians *Ray Charles* , **30-Second Jazz** Dave Gelly,2019-02-14 For its initiates jazz is instinctive and engaging the way that popular music should be For non aficionados it can be slippery and difficult to grasp without familiar forms or a hard and fast format and largely ruled by improvisation jazz leaves the novice baffled not sure how to listen and asking how is it that they know what to play 30 Second Jazz explains in easy short riffs that keep you engaged taking readers from the African American roots of jazz all the way to today s global mix of musicians and styles Along the way it looks at the shape style and instruments of jazz at key personalities and recordings in the jazz canon and at what might be expected next from this most diverse of musical forms **Perspectives on American Music since 1950** James R. Heintze,2024-02-02 As the century comes to a close composition of music in the United States has reached little consensus in terms of style techniques or schools In fourteen original articles the contributors to this volume explore the broad range and diversity of post World War II musical culture Classical and jazz idioms are both covered as is the broad history of electronic music in the United States **Jazz Notes** Sanford Josephson,2009-06-30 Jazz is a vibrant and a living art and this volume serves to remind us of that fact through interviews with Art Tatum Maynard Ferguson Dizzy Gillespie and Dave Brubeck along with almost 20 other jazz greats Meet the greatest musicians in the history of jazz From Hoagy Carmichael to David Sanborn these interviews and their subjects reflect the diverse appeal and deep roots of a truly American art form Some of the interviews in Jazz Notes Interviews across the Generations remain intact from their original publication Others are updated to include conversations with younger artists influenced by these legends and attempting to carry on their legacies The interviews range from the 1970s to the present day and are followed by a concluding section that provides perspective from current artists In the course of the interviews the history of American art and culture receives interesting augmentation Some artists such as Dave Brubeck and Maynard Ferguson discuss how they broke through to the

top of the pop charts Of course many African American jazz musicians endured difficult and demeaning conditions while on the road in the 1930s 1940s and 1950s and their memories of these experiences are a bittersweet counterpoint to remembered triumphs
