El cuerpo disuelto José Luis Barrios, 2010 Cultura y genocidio Joan Frigolé Reixach, 2003 El siglo XX ha sido llamado el siglo del genocidio por el número de genocidios y de víctimas que un especialista ha evaluado en sesenta millones pero también por la acusación del término genocidio por Lemkin la celebración de la Convención de la ONU sobre el Genocidio 1948 que lo definió como un crimen universal e imprescriptible y la creación de diversos Tribunales internacionales La antropología en general ha prestado poca atención a este tema complejo y de dimensiones trágicas y se ha centrado más bien en el estudio de etnocidio es decir la destrucción de la cultura de un grupo humano En este texto por el contrario se plantea el papel de la cultura de una matriz cultural compuesta por concepciones de procreación monoteísta y nación o pueblo representadas mediante relatos de inicio personificaciones y símbolos en el exterminio de grupos humanos específicos Probablemente la contribución más importante del texto estriba en la perspectiva adoptada es decir en el planteamiento comparativo de la relación entre cultura estado y genocidio El estudio de este tema se trata de un objeto de estudio no sólo de importancia científica sino también La Cuestión Armenia y las Relaciones Internacionales Pascual C. Ohanian, **El grito armenio** Mariano Gustavo Saravia, 2022-02-21 Este libro recopila los resultados de una sólida investigación sobre el genocidio de más de un millón y medio de armenios a manos del ejército turco entre 1915 y 1923 Mariano Saravia explica con claridad los antecedentes y desencadenantes de ese primer genocidio del siglo XX Recupera documentos gubernamentales crónicas de la época y testimonios de sobrevivientes que despejan toda duda sobre la magnitud de lo sucedido sobre las responsabilidades alrededor del crimen y de su encubrimiento posterior También se preocupa por reconstruir la historia de aquel pueblo sus costumbres y sueños que siguieron en pie pese al intento de exterminio y cuenta cómo aún hoy los descendientes de las víctimas luchan para que se lo reconozca como tal Editado en 2007 El grito armenio tuvo un prólogo altamente elogioso de Osvaldo Bayer y fue traducido a varios idiomas Mariano Saravia es un periodista historiador y docente universitario nacido en Córdoba Argentina Conduce el programa radial Mirada sur enfocado en política internacional y trabaja como columnista en otros medios Ha recorrido su provincia y otros puntos de América Latina dictando conferencias sobre diversos temas Lleva publicados diez libros hasta la fecha entre los cuales se cuentan La sombra azul 2005 El grito

El lugar del testigo Nora

Strejilevich, 2022-08-30 Nora Strejilevich se propone aquí reivindicar el lugar del testigo no solo como prueba viviente del horror de allí su validez en los juicios por crímenes de lesa humanidad y voz imprescindible para la búsqueda de justicia sino porque es el nico que puede dar cuenta al detalle de la figura saturnina de quien devora a sus hijos figura que se renueva para seguir devorando El testigo habla en nombre de los que no sobrevivieron y su relato es matricial se alía la autora porque es el más cercano al corazón de la experiencia y al legado del horror Sus testimonios son entonces voces indispensables para identificar los mecanismos en los que seguimos atrapados e involucrados El lugar del testigo interviene en los debates sobre escritura y memoria a partir del genocidio de estado de la última dictadura militar Interviene significa que vuelve sobre un aspecto clave el lugar del testimonio de los sobrevivientes y en ese volver rompe el acuerdo sobre el carácter documental suplementario no literario del testimonio Ese volver es una intervención crítica y política que nos recuerda que solo la memoria es un palimpsesto que se escribe y se reescribe El lugar del testigo viene a decir insisto pensemos de nuevo

Melancolía clínica y transmisión generacional

Carlos Fernández Atiénzar, 2019-07-03 Si la melancolía corre el peligro de perder el estatuto que ha tenido durante tantos siglos en una época atravesada por el capitalismo en una época de individuos aparentemente libres y solos en una época de sobreabundancia de objetos en una época en que la tristeza es un pecado pero no lo es tanto estar apático y vacío en este caso es el momento más adecuado para hablar de la melancolía y cuanto más mejor El melancólico contemporáneo si es que existe tiene muchas dificultades para poder estar triste La psiquiatría ha emprendido un retroceso inesperado y ha vuelto al hogar que abandonó en los años setenta la casa de la neuropsiquiatría Sin embargo caben resistencias y el texto de Carlos Fernández lo demuestra a todas luces Su estudio de las formas clínicas de la tristeza es un balance de oxígeno que mejora nuestro presente Sin alejarse del todo de la perspectiva psiquiátrica pues no quiere caer en ningún radicalismo ni dar muestras del mismo dogmatismo que se propone combatir su apoyo teórico es básicamente freudiano Este apoyo básico esencial nos devuelve la inspiración necesaria que nunca debí de ausentarse de nuestra interpretación Al menos si aspiramos a evitar la simplificación de la psicopatología que ahora padecemos La idea de la tristeza concebida como un duelo del deseo como una pérdida de cualquier anhelo late en esta investigación Una pérdida o paralización del deseo que se puede producir de dos modos diferentes ocasionalmente lo que permite decir de alguien que simplemente está melancólico o de un modo sistemático constitutivo o estructural lo que autoriza a distinguir a quienes son melancólicos en sí todo el tiempo y no sólo a los que lo están Esta última ese modo de ser esa melancolía constante da pie a alguna de las reflexiones de mayor calado que podemos leer en el texto Una de ellas concurre para preguntarse por la causa que lleva a una persona a sufrir periódicamente estados de inhibición y pérdida de energía mental Otra para conocer cómo se transmiten esas ausencias de deseo de generación en generación sin recurrir a la consabida hipotétesis genética Jos María Álvarez y Fernando Colina

Memories and

Representations of Terror Daniel Feierstein, 2023-10-06 Memories and Representations of Terror Working Through Genocide explores how memories and representations shape our understanding of historical events particularly the ways in which societies create narratives about genocide and its aftermath using Argentina's last military dictatorship 1976-1983 and its contested legacy as a case study Feierstein examines how memories and representations of genocide are the terrain in which both the strategic objectives of genocide and the possibilities of challenging those objectives are contested These memories and representations provide the foundation upon which critical judgments about the past are constructed and offer the potential for assuming responsibility and working through the consequences of genocide This book proposes that terror continues to hijack the actions and identities of surviving societies via a process of the construction of memories and social representations of the lived experience in a final stage of genocide Feierstein terms symbolic enactment In doing so Feierstein examines the contributions of various disciplines to comprehending memory processes and social representations It covers a range of topics from the nature of memory based on the neuroscientific discoveries of the last half century to

psychoanalytic theories on the functioning of the mind including the role of psychic defense mechanisms the unconscious mind collective pacts of denial and different forms of desensitization It also explores historiographical debates between forms of history and forms of memory as well as sociological contributions to the analysis of social frames of memory cultural memory generational transmission and related issues The first volume of a three volume work that aims to identify and evaluate the various consequences of genocidal social practices and the possibility of healing the scars left on individuals subjectivities and the social fabric by genocide This book is essential reading for students and academics in the humanities and social sciences with an interest in genocide collective memory and identity **Análisis de prácticas genocidas** ,2005

La transmisión del legado en las minorías étnicas Charabati Nehmad, Esther,2015-01-01 El fenómeno migratorio ha cobrado una gran relevancia en la sociedad actual debido al gran número de mujeres y hombres que tienen que desplazarse por motivos políticos económicos o personales Tanto las convenciones internacionales como los medios de comunicación dan cuenta de los obstáculos que enfrentan quienes abandonan su país de origen para instalarse en otro siendo este en algunos casos un lugar de paso y en muchos otros lugar de destino Este fenómeno engloba una multitud de dimensiones debido a su complejidad las noticias que nos brindan los medios de comunicación hablan de cifras de riesgos y en algunos casos de las experiencias de integración de los migrantes y sus descendientes al país receptor El objetivo de esta investigación es aportar un modelo explicativo sobre la transmisión del legado cultural y contribuir a los estudios sobre la transmisión de contenidos identitarios en los grupos minoritarios en particular los inmigrantes y los pueblos originarios estableciendo algunas categorías a partir de las cuales se pueden analizar las condiciones de producción de ciertos saberes La identificación de saberes que fortalecen a los grupos y les brindan estrategias para conservar su cultura en el seno de una cultura distinta es desde nuestra perspectiva una aportación al debate en el campo de la pedagogía Conscientes de que un legado se expresa a través de contenidos concretos y de actos y actitudes que no se ponen en palabras El estudio se centra en una institución dedicada a la transmisión la escuela para descubrir los saberes que los judíos mexicanos descendientes de los inmigrantes originarios de Alepo pretenden legar a las nuevas generaciones y el éxito o fracaso que han tenido en esta empresa Los derechos humanos y la vida histórica Nélide Boulgourdjian-Toufeksian, Juan Carlos Toufeksian, Carlos Alemián, 2002
