Geography And Migration Ilsmig V:

Geographies of Migration Richard Wright, 2018-02-02 Migration is an enormously broad topic of academic enquiry engaging researchers from many different social science disciplines A wide variety of contributors from across the globe capture some of the methodological and conceptual range of migration research in the discipline of Geography today This volume covers a large area geographically and in the expanse of subject areas involved eighteen chapters investigate migration from to or within at least fifteen countries with several sections spanning multiple places and scales Many chapters are deeply concerned with vulnerable populations which is not only a characteristic of much immigration scholarship but also one that connects with other areas of geography The study of geographical assertions of sovereign power via the discourses of disorder chaos and crisis shows that in these transnational times national power is being violently reasserted on within and beyond international borders Other important topics covered include migration and climate change illegality security government policy labor family and sexual orientation This book was previously published as a special issue of Annals of the Association of American Geographers

Advanced Introduction to Migration Studies Skeldon, Ronald, 2021-09-03 Providing a timely overview of the main issues and scholarship in migration studies Ronald Skeldon examines the principal methods of migration and offers in depth guidance on trends and types of population movements in today's world Key areas such as forced movements and refugees are considered alongside voluntary migration migration policy and the relationship between migration and development

Handbook on Critical Geographies of Migration Katharyne Mitchell, Reece Jones, Jennifer L. Fluri, 2019 Border walls shipwrecks in the Mediterranean separated families at the border island detention camps migration is at the centre of contemporary political and academic debates This ground breaking Handbook offers an exciting and original analysis of critical research on themes such as these drawing on cutting edge theories from an interdisciplinary and international group of leading scholars With a focus on spatial analysis and geographical context this volume highlights a range of theoretical methodological and regional approaches to migration research while remaining attuned to the underlying politics that bring critical scholars together

Geography and Migration Vaughan Robinson, 1996 Geography and Migration includes macrolevel descriptions to examine whether migration takes place in discernible flows and whether there are regularities in migration patterns or in the characteristics origin and behaviour of migrants

Migration Michael Samers, 2009-12-07 In the context of global security concerns humanitarian crises and skill shortages migration and immigration have become central to economic political and social debates at the beginning of the twenty first century And while migration and immigration have certainly not escaped the attention of social scientists the study of both remains the most under serviced academic domain with respect to introductory texts It is not surprising then that even fewer books have explored the contours of these social phenomena from an explicitly geographical perspective in other words in terms of space place and scale Migration is an advanced yet accessible introduction to migration and immigration in a global

context It offers a critical multi disciplinary approach to the subject borrowing from human geography political science social anthropology and sociology However unlike other broad volumes on the subject it emphasizes a theoretical and conceptual approach to the study of migration Specifically Migration adopts a unique geographical approach by employing spatial concepts such as place scale and territory Using these spatial concepts the author argues that most studies of migration begin with either an undue emphasis on nation states as a lens on migration or on the contrary rely on exaggerated notions of transnationalism Migration neither neglects the importance of nation states nor the significance of transnationalism but it focuses on how local contexts matter to migration The book covers such topics as migration categories the explanation of different forms of migration migration and employment the geopolitics of migration and immigration and citizenship rights and belonging This text is not simply an encyclopaedic overview of migration theories trends and facts rather it is designed to have lasting intellectual value by providing particular arguments in each theme based chapter While it advocates certain arguments it is also clearly written in an engaging and accessible manner for an undergraduate audience Its clear structure is complemented by a combination of pedagogical features such as case study boxes summary questions at the end of each chapter and a glossary The book is designed for courses and modules on migration and immigration at the undergraduate and postgraduate levels and both students and academics will find it exceptionally useful

Michael Samers, Michael Collyer, 2017 This is an advanced yet accessible introduction to migration and immigration in a global context It offers a critical multi disciplinary approach to the subject borrowing from human geography political science social anthropology and sociology

Human Migration Gareth J. Lewis, 2021-11-30 Originally published in 1982 this book examines the spatial patterns and underlying processes involved in human migration as well as its role as an agent in the development of the spatial organization of society Geographers have developed several methodologies in the study of migration and this volume integrates them in such a way that is useful for undergraduates studying any one branch of human geography

Internal Migration Darren P. Smith, Nissa Finney, Nigel Walford, 2016-03-09 Over the last two decades there have been numerous profound changes in UK society which have had an impact on the scale geographies meaning and experiences of internal migration Providing a critical appraisal of migration scholarship from the perspective of Geography reviewing theory substantive foci and method this book demonstrates how sub national migration in the UK gives rise to and reflects new patterns of population housing economies and cultures Each chapter is written by a Population Geographer together with a scholar representing another Human Geography sub discipline thus providing a cross disciplinary perspective on a specific aspect of migration Critically reviewing and setting an agenda for internal migration scholarship from a spatial perspective this book will be of interest to academics and students of Geography and other disciplines concerned with migration both within the UK and further afield

Global Migration Elizabeth Mavroudi, Caroline Nagel, 2016-06-03 This new fully updated edition of Global Migration provides students with a thorough and grounded

understanding of multiple dimensions of migration including labour markets citizenship border control integration and identity Written by two geographers the book incorporates insights from across the social sciences and is accessible to students in many disciplines Providing a useful and timely introduction to migration the textbook addresses migration in a holistic way and equips students with the tools they need to participate in contemporary debates about migration in sending and destination contexts It conveys to students that the causes and effects of migration are geographically specific and contingent upon class race gender and other markers of social difference Rather than identifying simple solutions to migration problems the book encourages students to think about unauthorized migration asylum refugee resettlement labour migration and other forms of mobility and immobility from different vantage points Global Migration serves as the go to book for teaching advanced undergraduate and Master s level students about the complexities of migration across nation state borders

Global Migration: The Basics Bernadette Hanlon, Thomas J. Vicino, 2014-03-26 Migration is a politically sensitive topic and an important aspect of contentious debates about social and cultural diversity economic stability terrorism globalization and nationalism Global Migration The Basics examines history and geography of global migration the role of migrants in society impact of migrants on the economy and the political system policy challenges that need to be faced in confronting a rapidly changing world economy and society This book challenges students of geography political science public policy sociology and economics to look beyond the rhetoric and consider the real and basic facts about migration Through detailed examinations of the scholarly literature demographic patterns and public policy debates Global Migration The Basics exposes readers to the underlying causes and consequences of migration

International Migration and Rural Areas Myriam Simard, 2016-04-22 While immigrants are still predominantly choosing urban areas to locate to there is now increasing evidence of immigration to rural areas which poses its own challenges for those relocating from the scarcity of high quality jobs to the provision of public and private services Addressing the shortcomings in current research this book employs an innovative approach by exploring this relationship from a cross national comparative global perspective It draws lessons from case studies across a range of geographical and political contexts including Canada the USA Ireland Scotland Greece and Russia Bringing together migration experts from a range of academic disciplines International Migration and Rural Areas contributes to conceptual developments and also identifies policy concerns which can be pursued at national sub national and supra national levels As such it will appeal to policy makers as well as scholars across a range of disciplines including geography politics demography social policy sociology and anthropology

Migration Mary Gilmartin, Malene H. Jacobsen, Anna-Kaisa Kuusisto, 2025-10-27

The Economic Geography of Cross-border Migration Karima Kourtit, Bruce Newbold, Peter Nijkamp, Mark D. Partridge, 2021 This handbook presents a collection of high quality authoritative scientific contributions on cross border migration written by a carefully selected group of recognized migration experts from around the globe In recent years cross border migration has become an important and intriguing issue from both a scientific and

policy perspective In the age of migration the volume of cross border movements of people continues to rise while the nature of migration flows in terms of the determinants length of stay effects on the sending and host countries and legal status of migrants is changing dramatically Based on a detailed economic geographical analysis this handbook studies the motives for cross border migration the socio economic implications for sending countries and regions the locational choice determinants for cross border migrants and the manifold economic geographic consequences for host countries and regions Given the complexity of migration decisions and their local or regional impacts a systematic typology of migrants motives legal status level of education gender age singles or families etc is provided together with an assessment of push factors in the place of origin and pull factors at the destination On the basis of a solid analytical framework and reliable empirical evidence it examines the impacts of emigration for sending areas and of immigration for receiving areas and provides a comprehensive discussion of the policy dimensions of cross border migration **Human Migration** G. J. Lewis,1982 **Migration**

Geography Russell B. Adams,1968 Global Migration Elizabeth Mavroudi,Caroline Nagel,2023-05-23 This new fully updated edition of Global Migration provides students with a thorough and grounded understanding of multiple dimensions of migration including labour markets citizenship border control integration and identity Written by two geographers the book incorporates insights from across the social sciences and is accessible to students in many disciplines Providing a useful and timely introduction to migration the textbook addresses migration in a holistic way and equips students with the tools they need to participate in contemporary debates about migration in sending and destination contexts It conveys to students that the causes and effects of migration are geographically specific and contingent upon class race gender and other markers of social difference Rather than identifying simple solutions to migration problems the book encourages students to think about unauthorized migration asylum refugee resettlement labour migration and other forms of mobility and immobility from different vantage points Global Migration serves as the go to book for teaching advanced undergraduate and Master s level students about the complexities of migration across nation state borders Migration and Geographical Change Ogden,1984-11-01 Timespace and International Migration Elizabeth Mavroudi,2017 Furthering understanding of the temporalities and spatialities of how people move across international boundaries this book analyses how timespace intersects with migrant journeys as an integral aspect of the rhythms of daily lives Individual chapters engage with these concepts by analysing a broad spectrum of migrations and mobilities from youth mobility to refugee migration to gentrification to food and to the political geography of the border
