## Geography For A2 Synoptic Module:

Geography for A2 Jane Dove, Michael Raw, Alisdair Rogers, Kevin Stannard, 2002-03-28 Geography for A2 meets the requirements of the compulsory OCR A2 synoptic module for Specification A. It is a student book covering all four options offered by the A2 module: people and environment options in a single volume. This allows flexibility in deciding which two options to study. Students are encouraged to develop the skills and understanding required for synoptic assessment with particular attention paid to the links between the different areas of the subject. A range of topical examples and detailed case studies is included and new study material is provided on the European Union. The content matches the OCR A2 Synoptic Module for Specification A. The authors are a combination of experienced teachers, geographers and examiners including the Principal Examiner for OCR A level. New study material is provided on the European Union. *Geography* Peter Goddard, 2005-03-24 These New editions of the successful highly illustrated study revision guides have been fully updated to meet the latest specification changes. Written by experienced examiners they contain in depth coverage of the key information plus hints, tips and guidance about how to achieve top grades in the A2 exams. *Revise A2 Level Geography for Edexcel Specification B* David Burtenshaw, 2004 The content of this revision guide offers an exact match to the specification with no redundant material or need to buy extra resources. The straightforward layout, clear diagrams and concise text aids effective and memorable revision. Aspects of Teaching Secondary Geography Margaret Smith, 2003-09-02 This book provides a practical illustration of the skills, knowledge and understanding required to teach in the secondary classroom. As well as discussing concepts and ideas, the book gives a critical examination of some of the key issues and will encourage the reader to engage with the ideas and consider their views and beliefs. It is an invaluable resource for those who are learning to teach or for those teachers who wish to reflect on their teaching practice. Business Review, 2002 **Children's Books in Print, 2007**, 2006 The British National Bibliography Arthur James Wells, 2003 *Advanced Geography Through Diagrams* Garrett Nagle, Kris Spencer, 1998 This text is part of the Oxford Revision Guides series. These are reissues of the two series: GCSE Revise Through Diagrams and Advanced Revision Handbooks, now combined with newly branded covers. The GCSE titles have extra 16 page sections on revision techniques and sample questions for the new GCSE syllabuses first examined in June 1998. The A level titles just have new covers but will be revised in 1999 for the new A level syllabuses. This book covers the A level geography syllabus and uses diagrams and concise notes to help students revise. **The Independent Schools Guide 2012-2013** Gabbittas, 2012-12-03 Every parent wants their child to flourish throughout their education but few decisions are more difficult than choosing the right school.
