Nature's Metropolis: Chicago and the Great West William Cronon, 2009-11-02 A Finalist for the Pulitzer Prize and Winner of the Bancroft Prize No one has written a better book about a city Nature's Metropolis is elegant testimony to the proposition that economic urban environmental and business history

can be as graceful powerful and fascinating as a novel Kenneth T Jackson Boston Globe      The Role of Subject Knowledge in the Early Years of Schooling Carol Aubrey, 2022-11-21 Originally published in 1994 the aim of the authors was to provide a comprehensive introduction to recent advances in research which had been made in learning and teaching in the early years of schooling at the time Emphasis is placed on how subject knowledge is constructed or acquired and the organization of teaching to promote the learner's active construction of meaning through the integration of new knowledge with existing understanding The National Curriculum is founded in subject knowledge though little examination appears to have been made of this in terms of how subject matter is transformed into the content of teaching that young children can understand It this remains for the teacher to develop instruction through the creation of a curriculum content and sequence which both reflects and advances the structure of existing forms of representation problem solving and knowledge which the child brings to the school The whole thrust of the book challenges the conventional early years ideology with its emphasis on child centred concrete and empirical approaches to learning with a view of teaching which is concerned with making sense of children's understanding and allowing their active construction of knowledge and information processing to develop expertise in context      GEOGRAPHICAL THOUGHT, SECOND EDITION DIKSHIT, R. D, 2018-04-01 The book charts out the history of Geographical Thought from early times to the present day in a single compact volume Its main focus is on the modern period beginning with Humboldt and Ritter more specifically on conceptual developments since the Second World War NEW TO THE SECOND EDITION The second edition is thoroughly revised and incorporates five new chapters dealing with Nature Method Basic Ideas and Conceptual Structure of Geography The Problem of Dualities and How it was Resolved Nature and Role of Geography as a Social Science Geographical vs Sociological Imagination Time vis vis Space The Pattern Process Perspective in Geographic Research New Directions in the Twenty First Century Human Geography TARGET AUDIENCE BA B Sc Hons Geography BA B Sc General Geography MA M Sc Geography Aspirants of Civil Services

Medieval Archaeology Chris Gerrard, 2003-10-04 Chris Gerrard looks at the people and excavations that have been important in medieval archaeology and the core theory and methodology used creating an essential text for all medieval

archaeologists      The New Suburbanites Robert W. Lake, 2017-07-28 National data indicates a surge in African American suburbanization during the 1970s What are the barriers that have slowed this process for so long Is black entry to the suburbs synonymous with integration To what extent does it contribute to convergence in the residential distributions of whites and blacks This careful and thorough study marshals evidence that black suburbanization offers less than full realization of the American Dream Homeownership in the United States is a source of security a sign of status a means of equity accumulation and a bond to the community The basic premise underlying The New Suburbanites is the preeminence of equal access Survey data collected for this analysis pertains to successful homebuyers whites and blacks who were able to negotiate safely the treacherous housing market conditions Specifically Robert W Lake draws from a unique survey of black and white homebuyers to assess the institutional and housing market barriers to black suburban homeownership How does racial discrimination add to the cost time and difficulty of housing search for black homebuyers What is the effect of discrimination on housing prices resale value and equity accumulation What is behind the complexity of white and black attitudes to suburban racial integration What is the perspective of the real estate agent the key market intermediary The book addresses each of these questions and concludes with a critique of present federal fair housing legislation and an assessment of policy implications      **Places on the Margin** Rob Shields, 2013-12-16 The debate on modernity and postmodernity has awakened interest in the importance of the spatial for cultural formations But what of those spaces that exist as much in the imagination as in physical reality This book attempts to develop an alternative geography and sociology of space by examining places on the margin      **Evolving Approaches to Understanding Natural Hazards** Burrell E. Montz, Graham A. Tobin, 2015-10-05 The 21st century presents many challenges to the hazard manager dynamic climatic conditions combined with population growth rapid urbanization and changing socio economic relationships are reshaping disaster impacts community responses and social safety mechanisms Indeed human vulnerability is constantly restructured by the ongoing interplay of physical social economic and political forces At the same time reducing vulnerability and enhancing community resilience require policies aimed at mitigating the consequences of disasters as they affect different locations and different groups requiring sound scientifically based research to further an understanding of the forces at play and to devise appropriate means to counter them It is within this context that this book examines evolving approaches to natural hazards Research into natural hazards has a long tradition beginning with a focus on physical processes and evolving into an interdisciplinary agenda that incorporates interactions between the physical and human environments embracing initiatives ranging from the physical to the socio economic and political It utilises various methodological approaches and technological advances employing both quantitative and qualitative procedures The papers included in this book offer insights into the development of applied hazards research as they build on previous work evolving technologies improved understandings of the factors involved and increased awareness of the needs of those who manage hazards This volume

shows an appreciation for the foundation that has been set and will inspire future researchers as they look to address these very pressing social issues

**Geopolitics** Jason Dittmer, Jo Sharp, 2014-06-27 It has been increasingly impossible to think about our changing world without coming across the term geopolitics In the wake of the invasion and occupation of Iraq by the United States United Kingdom and others geopolitics has been offered as an explanation for the occupation's failure to reinvent the Iraqi state and as a blueprint for future action But what is geopolitics Drawing both on academic and political material this book introduces readers to the concept of geopolitics from the first usage of the term to its more recent reconceptualisations The concept of geopolitics is introduced through four thematic sections Imperial Geopolitics Cold War Geopolitics Geopolitics after the Cold War and Reconceptualising Geopolitics Each section includes key writings from a range of diverse and leading authors such as Said Agnew Dalby O Tuathail Gregory Barnett and Kaplan and is accompanied by a critical introduction by the editors to guide the reader through the material This Reader establishes the foundations of geopolitics while also introducing readers to the continuing significance of the concept in the 21st century This Reader provides an essential resource that exposes students to original writing The Editors provide a pathway through the material with Section Introductions to assist the readers understanding of the context of the material and impacts of the writings The readings included draw from a range of authors writing from a range of locations The Reader concludes with the latest changes in geopolitical thought incorporating feminist and other perspectives

**River Towns in the Great West** Timothy R. Mahoney, 2003-02-13 This book analyzes with unprecedented breadth and coverage the development maturation growth and sudden decline of a distinctive regional urban economic system that developed along the upper Mississippi River north of St Louis during the middle third of the nineteenth century

**Teenagers' Citizenship** Susie Weller, 2007-04-11 The introduction of compulsory citizenship education into the national curriculum has generated a plethora of new interests in the politics of childhood and youth Citizenship for Teenagers explores teenagers acts of and engagement with citizenship in their local communities and examines the role of citizenship education in creating future responsible citizens The first half of the book provides the context for teenagers experiences of citizenship discussing issues around the ideas of childhood and citizenship as well as the curriculum The second half goes on to explore teenagers experiences of citizenship education practising citizenship and exclusion from citizenship The book concludes with a call for a new cumulative approach to citizenship which upgrades the status of teenagers particularly within the classroom Susie Weller's important book will throw new light on how teenagers engage with citizenship education and take on civic responsibility It is an interesting and useful read for all those involved with education and youth policy as well as those studying for a PGCE or researching in citizenship education

**The American Way** Carville Earle, 2003 The geography of contemporary U S political economy the relocation of firms toward the sunbelt and abroad the decline of manufacturing in the rust belt and the rise of footloose producer services NAFTA inspired trade flows has roots that run deep into our past This innovative history by one of our most

distinguished historical geographers traces their growth back to the seventeenth century origins of liberalism republicanism and the regular financial crises by then endemic in capitalist societies The problem the English and then the Americans faced was overcoming these crises while avoiding the political extremes of royal absolutism and later of socialism communism and fascism The English way alternated between the doctrinaire ideologies and geographies of republicanism and liberalism In 1776 by mixing elements of both Americans created entirely new ideological alloys Henceforth policy regimes alternated between Democrats and Republicans and their distinctive fusions of liberal and republican ideology Democrats combined publicanism s tenets of equality diversified and volatile regions and consumer revolution with liberalism s tenets of free trade geographical consolidation and dispersion New Deal liberalism Republicans mixed liberalism s biases toward elites regional specialization and stability and producer revolution with republicanism s tilt toward nationalism expansionism and demographic concentration Reagan s America Muddying liberal and republican ideologies and geographies in ways that tempered their extremes Americans would add one more twist Thrice upon the birth of the first second and third republics they enlarged the geographical jurisdictions of the federal government extended the domains of U S power and redefined the nature of the state Carville Earle defines these enlargements as the distributive and partisan sectional state of the 1790s the regulatory and redistributive national state of the 1880s and the neoliberal transnational sta
