Economic Analysis Of Social Common Capital:

Economic Analysis of Social Common Capital Hirofumi Uzawa,2009 *Economic Analysis of Social Common Capital* Hirofumi Uzawa,2005-06-06 This 2005 book analyzes how natural resources social infrastructure and institutions might be optimally sustained *Economic Analysis Of Environmental Problems* Gregory C Chow,2014-11-27 This book introduces the basic tools of dynamic optimization in economics to study environmental problems applies econometric methods to estimate and test the models derived by dynamic optimization and discusses environmental problems in a broad perspective including the design and implementation of environmental policies Although the coverage is selective it represents what the author has to offer from his perspective and experience gained in research in dynamic optimization econometrics and policy analysis especially for China The volume is self contained for readers with mathematical background of first year graduate students in the analytical fields of science and engineering but only limited training in economics while an economics text presumes more knowledge of economics Once the tools are mastered the reader can pursue his own research on the topic if he is interested or simply become a more mature citizen in the global economy **Japanese Institutional Post-Keynesians Revisited** Hiroyasu Uemura,2023-03-09 This is the first book that systematically considers the academic achievements of Japanese institutionalist post Keynesian economists in the postwar period and argues that we can learn much from their intellectual heritage Those Japanese economists include the world renowned figures Shigeto Tsuru and Hirofumi Uzawa whose inheritance came from Keynes Marx and institutionalism In the era of globalization after the 1990s economic inequality and social divide have intensified all over the world In this situation the academic achievements of those economists in postwar Japan should be reconsidered for the aim of establishing a new political economy With this perspective the book looks at what we can learn from Japanese institutionalist post Keynesian economists In particular the essence of research work that each of them developed is identified focusing on the total image of the economy for contemporary capitalism Those economists benefited from the diverse legacies of Keynes Marx Kalecki and institutionalist economists such as Veblen and Galbraith When their research is examined systematically Japanese institutionalist post Keynesians are commonly characterized as those who developed their institutional analysis of contemporary capitalism with in depth theoretical and empirical studies with the aim of establishing their own political economy as the moral science of civil society These important features provide us with insightful implications for institutional economics in the 21st century **An Economic Theory of Gender and Population Change** Wei-Bin Zhang,2025-01-10 This book proposes an economic theory of gender and population change by integrating neoclassical and new economic theories Modern economies are characterized by complicated dynamic interdependence between many variables such as population growth human capital accumulation wealth accumulation gender division of labor children caring environmental changes various types of conflicts wars and so on However modern dynamic economic theories deal with simplified interdependence between a few variables

Any genuine modeling of economic dynamics result in high dimensional nonlinear dynamics Nevertheless it is only in recent years that it is possible to examine the behavior of highly dimensional dynamics This partly explains why economic theory has been dominated by modeling dynamic economic systems with a few variables with linear linearized relations Since Malthus published his *An Essay on the Principle of Population* in 1798 economists have made great efforts to reveal the dynamic complexity of population change Modern economies have experienced unprecedented population dynamics No one in human history could even have rationally predicted the natural declination of the national population in modern times These failures in predicting family structural changes and life expectancy lead to many socioeconomic problems such as health costs in association with aging and pension systems that many societies fail to be prepared for This book contributes to the literature on macroeconomics based on microeconomics neoclassical growth theory new growth theory and family economics by integrating some important ideas in neoclassical growth theory and family economics This book extensively applies the ideas in the literature to deal with the complexity of population change

The Curse of Natural Resources Sevil Acar, 2017-02-20 This book examines the paradox that resource rich countries often struggle to manage their resources in a way that will help their economies thrive It looks at how a country's political regime and quality of governance can determine the degree to which it benefits or suffers from having natural resources shifting

away from the traditional focus on economic growth data to study the complex implications of these resources for human well being and sustainable development To this end Acar examines a panel of countries in terms of the effects of their natural resources on human development and genuine saving which is a sustainability indicator that takes into account the welfare of future generations by incorporating the changes in different kinds of capital Acar finds that the exportation of agricultural raw materials is associated with significant deterioration in human development while extractive resource exports such as energy and minerals have negative implications for genuine savings Next the book compares the development path of Norway before and after discovering oil contrasting it with Sweden s development The two countries which followed almost identical paths until the 1970s diverged significantly in terms of per capita income after Norway found oil

Restructuring Industry and Territory Anna Giunta, Arnoud Lagendijk, Andy Pike, 2016-02-04 Examining the current trends in regional economic development in Europe Restructuring Industry and Territory explores ways in which the restructuring of industry and territorial development relate to each other their emergent interdependency and role in economic development The book argues that the structural and cultural features of regions play an important part in helping or hindering concerted policies for regional development Using case studies from different industries in a variety of regions the contributors show that the pressures for restructuring such as internationalisation or even globalisation have been mediated by formerly nationally rooted industries in Europe becoming increasingly integrated due to the ongoing processes of technological and organisational innovation and political regulation

Economic Issues of Social Entrepreneurship Elena G. Popkova, Bruno S.

Sergi,2021-10-06 Social entrepreneurship is one of the most controversial actualities of the modern economy On the one hand social entrepreneurship makes up for market failures and prevents the deficit of socially essential goods and services in the marketplace acting as their supplier On the other hand the survival of social entrepreneurship in an aggressive market environment is a challenging task the fulfilment of which may distort the original essence of social entrepreneurship

Comprising a collection of research presented at the International Scientific Conference Advanced Issues on Social Entrepreneurship this contributed volume offers a global economic analysis of social entrepreneurship Whilst social entrepreneurship is indispensable to the modern economy the current controversial model of its organization means it cannot fully accomplish its mission This book offers potential solutions to this problem with the global and national strategies of economic growth and social progress It includes a focus on emerging markets in which the role of social entrepreneurship is especially high This book is aimed at scholars and students who are interested in social entrepreneurship and corporate economics and practitioners involved in this field It will also be of interest to policy makers in the development and implementation of a national economic policy for support for social entrepreneurship in emerging markets **Working Paper** ,2008 **Social Issues and Policies in Asia** Raymond K. H. Chan,Lih-Rong Wang,Jens O. Zinn,2014-06-26

In the past few decades societies in Asia have experienced rapid and dramatic changes in their economic social and political spheres Despite the wide diversity among these countries a few general trends can be observed Globalization has swept across Asia bringing intensive economic interactions with a strong commitment to liberalism and market capitalism Wage labour has become the common form of employment Individuals as well as countries are increasingly exposed to the competitive and uncertain global market Employment protection particularly for vulnerable labour groups youth women seniors and migrants has become a pressing issue for most Asian governments Industrialization and urbanization have had a major impact on demographics family structures and normative frameworks The declining fertility rate has been recognized as a defining feature of a modern society leading to small families and reducing instances of multi generational co residency Changing family structures have contributed to changes in family values and roles especially the role of women Sometimes willingly sometimes compelled women are entering the workplace in increasing numbers particularly as migrant workers Similarly the elderly are experiencing changes in their roles and participation in society Family duties compete and are often in conflict with the demands of work The issue of providing adequate and quality care to family members has been exacerbated by the fact that Asian societies are ageing It is commonly acknowledged that in Asian societies personal care and support needs are primarily met by family both immediate and extended and to a lesser degree by community networks Governments had gradually established their own social welfare systems in an effort to support economic growth and sustain their legitimacy by meeting certain recognized social needs The success of these ventures varies across societies and naturally there have been criticisms of the breadth and depth of these provisions This book addresses social issues related to

family ageing and work that arise from these changes in Japan Korea Taiwan Hong Kong China Philippine and Sri Lanka These societies represent different levels of economic and social development but face similar challenges and their social interventions can be usefully compared This variety of subjects provides the reader with a more comprehensive understanding of the changes that have occurred the problems that have emerged and the strategies that have been adopted This volume provides insight into ways of addressing social issues in this rapidly changing part of the world

A Survey of Sustainable Development Jonathan Harris, Timothy Wise, Kevin Gallagher, Neva R. Goodwin, 2013-04-16 Perpetual economic growth is physically impossible on a planet with finite resources Many concerned with humanity's future have focused on the concept of sustainable development as an alternative as they seek means of achieving current economic and social goals without compromising the ability of future generations to meet their own goals Sustainable development brings together elements of economics public policy sociology ecology resource management and other related areas and while the term has become quite popular it is rarely defined and even less often is it understood A Survey of Sustainable Development addresses that problem by bringing together in a single volume the most important works on sustainable human and economic development It offers a broad overview of the subject and gives the reader a quick and thorough guide to this highly diffuse topic The volume offers ten sections on topics including economic and social dimensions of sustainable development the North South balance population and the demographic transition agriculture and renewable resources energy and materials use globalization and corporate responsibility local and national strategies Each section is introduced with an essay by one of the volume editors that provides an overview of the subject and a summary of the mainstream literature followed by two to three page abstracts of the most important articles or book chapters on the topic A Survey of Sustainable Development is the sixth and final volume in the Frontier Issues of Economic Thought series produced by the Global Development And Environment Institute at Tufts University Each book brings together the most important articles and book chapters in a frontier area of economics where important new work is being done but has not yet been incorporated into the mainstream of economic study The book is an essential reference for students and scholars concerned with economics environmental studies public policy and administration international development and a broad range of related fields
