Economic Benefits Of Forestry Research:

The Economic Benefits of Forestry Research William F. Hyde, David H. Newman, Barry J. Seldon, 1992 This work by three authors with extensive forestry research experience assesses US forestry research programs determining the programs most likely to yield useful results It is intended to aid researchers and sponsors in making the best possible choices as well as to assist forestry and rural de

The Global Economics of Forestry William F. Hyde, 2012-05-23 This book traces the economic and biological pattern of forest development from initial settlement and harvest activity at the natural forest frontier to modern industrial forest plantations It builds from diagrams describing three discrete stages of forest development and then discusses the management and policy implications associated with each supporting its observations with examples and data from six continents and from both developed and developing countries It shows that characteristic distinctions between the three stages make forestry unusual in natural resource management and that effective policy requires different even contrasting decisions at each stage William F Hyde s comprehensive discussion covers a wide range of issues including the impacts of both specific forest policies and broader macroeconomic policies the unique requirements of current issues such as global warming biodiversity and tourism and the complexities of the different forest products industries Concluding chapters review the roles of the newer institutional landowners of smaller private and farm landowners and of public agencies This highly original volume reaches far beyond forest economics it explains what forestry can do for regional development and environmental conservation and what policies designed for other sectors and the macro economy can do for forestry

Stone,Claudia D'Andrea,2001 This book is a remarkably personal report of the authors trans tropical experiences with forest
dwellers The experience was extensive sometimes spanning years and the report is the work of professional reporters
experienced at reaching to the core of critical issues of life and survival The story is not a pretty one and the prognosis is not
good But in their eyes the key lies in restoring and defending the rights of forest dwellers and encouraging in every way their
age old interest in preserving the integrity of forest lands The authors are familiar with the international agencies and their
programs their successes and failures Roger Stone was intimately involved in the World Commission on Forests and
Sustainable Development and draws heavily on that experience The book will strengthen the conclusions of that Commission
to the effect that the world s future lies heavily entangled with the continuity of forests globally and that continuity hinges on
respect for local interests George M Woodwell Director Woods Hole Research Center For twenty years we have watched TV
specials on the destruction of tropical forests an acre a second lost every second for twenty years This beautifully written
book takes you right to the middle of the current international debate about what to do about it It pulls no punches and
proposes its own provocative solution It offers a perspective that cannot be ignored and an answer that needs to be tried

movement has dedicated its energy to protecting the Earth s biodiversity WWF has built its conservation philosophy and
foundation for over forty years on principles of sound science effective public policy and recognition of the fundamental role
local people bring to achieving tangible conservation results on the ground Roger Stone and Claudia D Andrea take us on a
tour of the tropical forested regions of the world and capture important lessons about the merits of local control over forest
resources Their wide ranging portrayal of community based forest management arrangements set within the global context
of deforestation and loss of biodiversity provides compelling testimony to the wisdom of empowering local people and
nurturing their spirit as effective forest stewards Kathryn S Fuller President World Wildlife Fund **World Forests,**
