The EU's Transformative Power H. Grabbe,2005-11-10 Between 1989 and 2004 the EU s conditionality for membership transformed Central and East Europe The EU had enormous potential power over the whole range of domestic politics in the candidate countries However the EU was able to use that power at a few key points in the process leading to their accession The EU s long term influence worked primarily through soft power and through voluntary rather than coercive means During the membership preparations the EU built many different routes of influence into the candidate countries domestic policy making through Europeanization The Central and East Europeans voluntarily took on the Union s norms and methods guided by the European Commission in a massive transfer of policies and institutions However

the EU missed important opportunities to effect change as well The EU's Transformative Power explores in detail how the EU used its influence to control the movement of people across Europe through both coercive use of conditionality and voluntary methods of Europeanization The Road to the European Union Jacques Rupnik, Jan Zielonka, 2003-11-08 Publisher
