Bryceson,1990-07-08 Most studies of famine and the African food crisis stress how the socio economic context influences the occurrence of food shortages By contrast this book argues that food insecurity itself influences the social and economic organization of the society Through this approach the author provides a new interpretation of the causes and consequences of Tanzania s present economic crisis The book examines the effects of changing food availability on the functioning of the state the market and clientage networks over the past seven decades The conclusion is that clientage is no less important than the state and market as an organizational force in Tanzanian society and under heightened food insecurity the state and market lose ground to clientage      **Food Insecurity and the Social Division of Labor in Tanzania, 1919-85** Deborah Fahy Bryceson,1990 Several aspects of the social division of labour and food insecurity in Tanzania 1919 1985 are studied in this book These range from maize and millet shifting cultivation of woodland and wooded grassland areas to government labour policy and the male migrant bachelor wage labour system

Turbulence and Order in Economic Development Hazel Gray,2018-02-08 The terms of debate on the role of institutions in economic development are changing Stable market institutions in particular secure private property rights and democratically accountable governments that uphold the rule of law are widely seen to be a pre requisite for economic transformation in low income countries yet over the last thirty years economic growth and structural transformation has surged forward in a range of countries where market and state institutions have differed these ideals as well as from each other Turbulence and Order in Economic Development studies the role of the state in two such countries examining the interplay between market liberalization institutions and the distribution of power in Tanzania and Vietnam Tanzania and Vietnam were two of the poorest countries in the world in the early 1980s but over the last thirty years both have experienced significant changes in the pace and character of economic development While both countries experienced faster rates of GDP growth their paths of economic transformation were very different as Vietnam experienced rapid poverty reduction associated with the expansion of manufacturing while Tanzania s path of industrialization was characterized by the rise of mining and a much slower pace of poverty reduction Employing a political settlements approach this book considers

the comparative role of the state in driving economic transformation In both countries the experiences of socialism continued to shape the role of the state in the economy even after extensive market liberalization however the distribution of political and economic power was very different This had important consequences for the overlapping role of the state in generating political order and in driving economic transformation Turbulence and Order in Economic Development studies the formal and informal ways that the state influenced economic transformation through its role in public financial management land and industrial policy
