Economics for Everybody Gerson Antell, 1994 Economics for the Rest of Us Moshe Adler, 2009-11-17 Vivid case studies Adler s frustration with wrongheaded economic thinking is as entertaining as it is thought provoking Publishers Weekly Why do so many contemporary economists consider food subsidies in starving countries rent control in rich cities and health insurance everywhere inefficient Why do they feel that corporate executives deserve no less than their multimillion dollar compensation packages and workers no more than their meager wages Here is a lively and accessible debunking of the two elements that make economics the science of the rich the definition of what is efficient and the theory of how wages are determined The first is used to justify the cruelest policies the second grand larceny Filled with lively examples from food riots in Indonesia to eminent domain in Connecticut and everyone from Adam Smith to Jeremy Bentham to Larry Summers Economics for the Rest of Us shows how today s dominant economic theories evolved how they explicitly favor the rich over the poor and why they re not the only or best options Written for anyone with an interest in understanding contemporary economic thinking and why it is dead wrong Economics for the Rest of Us offers a foundation for a fundamentally more just economic system Brilliant David Cay Johnston Pulitzer Prize winning and New York Times bestselling author of It s Even Worse Than You Think *Economics for the People* Richard Rogers Bowker, 1892 Economics for the Common Good Mark A Lutz, 2002-11 This textbook presents an introduction to the central issues of social economics Building on a venerable social economics tradition the book recommends a more rational economic order and proposes new principles of economic policy The issues covered include the inadequacy of individualistic economics in guiding the policy maker a critique of economic rationality rethinking of the modern business corporation a critical look at markets as panacea the harmful effects of international competition environmental problems The book introduces social economic concepts and challenges the reader to look beyond the confines of mainstream economic thinking to find a solution to these critical issues *Economics for Everbody* Hans Apel, 1955 *Economics for the Twenty-first Century: The Economics of the Economist-fox* Andrew M.
